Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nervine. "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

MILLINGTON MATTERS.

A valuable horse owned by Mr. Frank Lockerman had a narrow escape from death last Tuesday morning. The animal was grazing on the railroad track just north of town when the 6.32 north bound passenger train left the station here As it drew near the horse the engineer blew the whistle and the horse in its fright jumped into the wire at the side of the tracks. It was fast in the wire for some time and it was with difficulty several men extricated him from his uncomfortable position. For a while it was thought he had been struck by the train and thrown in the wire. He does not seem any the worse for his adventure.

Nearly all the farmers have finished their wheat harvest, and some anticipate threshing at once if the weather proves favorable. Harvest was delayed considerably in this vicinity on account of the wet weather, and the ground was so wet, it was with difficulty the farmers used their horses and binders. Some farmers were compelled to cut part of their wheat with cradles and scythes.

Mr. T. K. Dukehart, of New York, is spending this week with his family on Sassafars street.

IMPORTANT BILLS PASSED OR FAILED.

Over Nine Hundred Millions Voted to Appropriations for the Coming Year.

The following bills were passed at the present session of Congress:

The Railroad Rate Bill.

The Panama Lock Canal.

The meat-inspection amendment to the Agriculture Bill.

The Pure Food Bill.

The bill to admit Oklahoma and Indian Territory as a state.

The Sundry Civil Appropriation Bill.

The bill for the reorganization of the consular service.

The removal of the tax upon denatured alcohol.

The bill to increase the efficiency of the Ordinance Department of the Army.

The bill defining hazing at the Naval and Military Academies and providing punishment for those guilty of offense.

The Naturalization Bill.

Public Building Bill.

The bill to mark the graves of soldiers and sailors of the Confederate Army and Navy who died in the Northern prisons during the Civil War.

A bill to prevent the unlawful wearing of the badge of the G. A. R. and other soldier organizations.

A bill to provide for the election of a delegate to the House of Representatives from Alaska.

A bill for the preservation of American antiquities.

A bill to incorporate the National Society of the Sons of the American Revolution.

A bill to prohibit aliens fishing in the waters of Alaska.

The Nonimmunity Bill for trusts.

The bill to pay the President's traveling expenses.

A bill to make more effective the national quarantine.

A bill to increase the efficiency of the militia and promote rifle practice.

A bill to authorize the Secretary of War to purchase materials and supplies for the Panama Canal in the American market.

All the large appropriation bills providing money to run the government for the coming fiscal year. These appropriate about $900,000,000. Besides these, there are numerous bills for bridges and other local interests, and the pensions bills.

The notable bills that failed were as follows:

The Phillipine Tariff.

The admission of Arizona and New Mexico as a state.

The Immigration Bill.

The modification of Chinese exclusion.

Federal control of insurance.

Law to prevent election frauds.

The eight-hour and Anti-injunction bills.

The revision of the copyright laws.

The Ship Subsidy Bill.

The Smoot case and the Santo Domingo Treaty.

These, however, have a chance for passage at the next session.

Congress Appropriates for Oyster Bed Survey.

Representative Gill has kept careful track of the fate of that provision of the Sundry Civil Bill which appropriated $15,000 for the expenses of the Geodetic Survey in assisting the Maryland Shellfish Commission to prepare maps and plats of the oyster beds of the Chesapeake Bay. This provision was added to the bill in the Senate, and as Mr. Tawney, the chairman of the appropriations Committee, has opposed the provision in the House, Mr. Gill had every reason to fear for the provision when the bill was taken up in conference committee, According, at his suggestion, the Senate Committee on Appropriations slipped into the bill a modest little appropriation of $12,000 for any special surveys that the Lighthouse Board might find necessary, this amount, together with any amount the Lighthouse Board might have on hand, to be immediately available and to remain available until entirely expended. The Lighthouse Board has on hand from this fund for surveys about $20,000 or $25,000, so that with the additional $12,000, provided in the bill, there is ample money for all the needs of the Shellfish Commission. In the shape Mr. Gill has provided for the needs of the Shellfish Commission much better than the original proposition, for not only is there far more money available, but what is even more important, the money is immediately available and continues available until the entire work for the commission is completed. This looks like Uncle Sam intends to take a hand in oyster culture with a view of making it a success.
