Campbell's Pure Essence of Jamaica Ginger.

GINGER is a grateful stimulant and carminative, and is often given in *Gout, Rheumatism, Dyspepsia, Cramp, Cholera Morbus, Cholic, Cholera, &c., &c.*

In *Nervous and Sick Headache, Sea Sickness, Nausea, Imperfect Digestion*, or from nausea induced by riding in a carriage, &c. it will be found most agreeable to the stomach and palatable to the taste, and affording at the same time almost in all cases immediate relief.

To the *Inebriate* it is particularly serviceable; a very small quantity used instead of the usual stimulant will give tone and vigor to the digestive organs, and impart strength to resist the temptation, and may therefore be considered an invaluable agent in reclaiming the drunkard.

The traveling public will also find it very efficacious in correcting the bad results arising from a change of water and diet, a few drops of which will give a glow and vigor to the stomach, equal to a wine glassful of brandy or other stimulant, without producing any of the injurious and overrating effects which are sure to result from the use of stimuli of any kind. *It is also a superior article for flavoring Jellies, Preserves, Cakes, and for other culinary uses*, besides making a good beverage in hot weather.

SOLUBLE PACIFIC GUANO.

JOHN S. REESE & CO.,
WHOLESALE AND RETAIL AGENTS FOR THE
PACIFIC GUANO COMPANY,
71 SOUTH STREET BALTIMORE.

THIS *Soluble Pacific Guano*, resembles *Peruvian Guano* in appearance, odor, and composition. The value of all Guanos and Super Phosphates of lime, of whatever name depends, as is well known, upon the per cent. of *Ammonia, Soluble Phosphate* and *Bone Phosphate of Lime* they contain. This Guano differs from Peruvian only in the fact that it contains less *Ammonia*, but this difference in Ammonia is more than made up by the fact that it contains almost *double* as much Soluble and Bone Phosphate of Lime. This difference makes it a *durable fertilizer*, with all the activity of Peruvian Guano. Although the price of this Guano is only one-half the price of Peruvian, and is not higher than the Super Phosphates of Lime, yet it contains, as is proven by analysis and inspection, vastly more of *Ammonia, soluble*, and *Bone Phosphate*, than is found in the best of them, Hence its economy and intrinsic value must render it an object of great interest to farmers generally.

We wish farmers to *take especial notice*, that the *conditions* upon which we have the agency of *this Guano* are that every cargo is regularly *inspected* and *analysed* by *Dr. Liebig*, whose authority in such matters is paramount.

This arrangement affords us and consumers a *protection not had* in the purchase of fertilizers generally. It must also be noticed that the phosphates of this Guano, are not *mineral*, but *earthy* Phosphates, which is greatly to its advantage.

The following is a summary of analysis of last cargo:

Moisture	10	pr. ct.
Organic Combustible Matter	39.71	"
Earthy Matter	50.28	"
Yielding Ammonia	3.40	pr. ct.
Soluble Phosphate of Lime	17.07	"
Bone Phosphate of Lime	24.32	"
