THE STAR

IS EDITED AND PUBLISHED EVERY TUESDAY MORNING,

By Robson & Rowlenson.

TERMS:—TWO DOLLARS per annum in advance, or within six months from the time of subscribing—if not paid before the expiration of that time, $2.50 will be charged.

THE STAR has a more extensive circulation than any other paper published on the Eastern Shore—is more generally read by all classes of persons—and is, therefore, the most advantageous Journal for the publication of Advertisements, which will be inserted on the following terms:

One square (12 lines) will be inserted three weeks for $1.00, and 25 cents for each subsequent insertion—longer ones in the same proportion.

☞All advertisements sent to the office *not marked* the number of times to be inserted, will be continued till ordered out, and charged according to regular rates.

A liberal deduction in the above prices will be made to those who advertise by the year or for six months.

☞All business communications from a distance adressed to us, will be promptly and correctly attended to.

COUNTRY PAPERS.—The Editor of "*The Cotton Plant,*" published at Washington, pays the following flattering compliment to the *Country Press*, which is as just as it is deserving. He says—

"We consider the "country press," the Journals usually known as "country papers," by far the most useful, fearless, and intelligent portion of the press of the country. There is a freshness of style—a variety—a frankness, an honesty, boldness and liberality in a country paper which you will look for in vain in the majority of the city press. Notice how the country press lays on right and left upon abuses, There is no striking—no weak struggle between duty and the desire to please some wealthy patron. See how soon they come out, (on one side or the other) when occasion demands it. The country press is always a-head of the city press on all National subjects.—The city Journals, watch them, too. The country papers being nearer the people, reflect the National mind, when lo! the independent mammoth sheets from Boston to New Orleans come in to take the wind out their sails.

If you want to know how an election is going keep your eye on the country press. If you want to ascertain any thing of real interest in regard to the great interior of the continent, keep up with the interior Journals. There are a great many supposed correspondents from the "interior." Notice how eagerly those letters are read—how elaborately displayed in the "front place." The correspondent is a humbug. If you want to get at the *truth*, write to the town where the correspondence is dated and take the paper.

In the management of a city paper there must be a system—a method which gives to each man his particular duty. This very system makes the paper stupid. In the country paper, perhaps, there will be editorials and communications during the year from every acre of the district. This gives the paper vitality and freshness. Is it to be wondered at, then, that the country papers should have such an influence in a Republican Government?

Merchants make a great mistake when they put their advertisements in a city paper to the exclusion of a country one. Persons in the country read every thing—they have time.—It becomes an occupation with them. While on this subject, the "Cotton Plant," will advise its numerous readers among the commercial community, that the best way to reach the country trade, is 'thro' the country papers. If we had to take our choice between a city and a country paper, we would take the latter.

We have often been struck with the extreme delicacy of expression, beauty of style, and often sublimity in a paper, not larger than your hand, and which comes to us covered with the dust of a long journey. Some of the most pleasant essays we have ever read have been in country papers in comparison with which, the pompous verbose style of some city papers is simply ridiculous. We intend some day to publish a few selections in the "Cotton Plant," taken from country papers, side by side, with some articles from city papers which have "gone the rounds," that our readers may judge for themselves.

The most laborious life, is that of a country editor, and the most useful; for he it is that gathers those treasures, which are brought out a new by the monopolists of the press, giving profit and fame, wherein so many cases it is not deserved.

FANNY FERN ON EDITORS.—Every body is having a vacation except Editor.—*Boston Post.*

I should like to have the editor who wrote that, look me in the face, answer the following "catechism," and then dare to whine after that fashion. Who gets tickets to the Siamese boys, fat girls, white negroes, learned pigs, whistling canaries, circuses, concerts and theatres? Who has a free pass to railroad celebrations, water excursions, balloon ascensions, anti-slavery fights, Webster dinners, Kossuth suppers, and great "rejection" meetings?—Who has the first great squash of the season? Who feeds on anonymous pears and nectarines, strawberries, grapes, peaches and melons? Who gets a slice of wedding cake every time a couple make fools of themselves? and who has "pi" in his office, year in and year out? Who has all the big and lesser literary lights, male and female, constantly revolving round him? Who amasses a large and magnificent library, free gratis for nothing, save a puff or two? Who gets pretty boquets when he's sick, from his lady contributors? "Vacation" forsooth!—don't talk to me.—I know all about it. The first gentleman I ever saw, was "an editor?" I've been acquainted with them ever since I was knee high to a huckelberry!—*Fanny Fern*

MARRIAGE,

HAPPINESS AND COMPETENCE.

WHY IS IT?

That we behold many females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and happy serenity of mind, arising from a condition of health, should be predominant.

Many of the *causes* of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN AFTER YEARS,

When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our ignorance.

What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of anguish we might not have been spared, if the knowledge was timely possessed. It is

MELANCHOLY AND STARTLING

To behold the sickness and suffering endured by many a wife for many years, from causes simple and controllable, easily remedied—or better still,—not incurred, if every

WIFE AND MOTHER

Possessed the information contained in a little volume, (with in the reach of all) which would spare to herself

YEARS OF MISERY,

And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and children.

SECURE THE MEANS OF HAPPINESS

By becoming in time possessed of the knowledge the want of which has caused the sickness and poverty of thousands.

In view of such consequences, no wife or mother is excusable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled

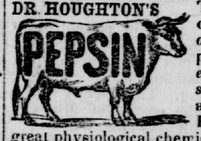
Another Scientific Wonder!

GAEAT CURE FOR DYSPEPSIA!

DR. HOUGHTON'S



THE TRUE DIGESTIVE FLUID, *or Gastric Juice,* peparedfrom *Rennet*, or the fourth *stomach of the Ox*, after directions of Baron Leibig, the great physiological chemist, by J. S. Houghton, M. D., Philada., Pa. This is a truly wonderful remedy for *Indigestion, Dyspepsia, Jaundice, Liver complaint, Consumption* and *Debility*, curing after Nature's own agent, the Gastric Juice. Half a teaspoonful of PEPSIN, infused in water, will digest or dissolve, *five pounds of roast beef* in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting principle of the Gastric Juice—the solvent of the food, the purifying, preserving, and stimulating agent of the stomach and Intestines. It is extracted from the digestive stomach of the ox, thus forming a *True Digestive Fluid*, precisely like the natural gastric juice in the chemical powers, and furnishing a *complete* and *perfect substitute* for it.

SCIENTIFIC EVIDENCE.

BARON LEIBIG in his celebrated work on Animal Chemistry, says: An artificial digestive fluid, analogous to the gastric juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Call on the agent, and get a descriptive circular, gratis, giving a large amount of scientific evidence, similar to the above, from Dr. Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper, of New York University; Prof. Dunglison's Physiology; Prof. Sillman, of Yale College; Dr. Carpenter's Physiology, &c;, together with reports of cures from all parts of the United States.

No Alcohol, Bitters, or Acids!

Remember this: Dr. Houghton's Pepsin is a great natural remedy, free from alchohol, bitters, acids, and nauseous drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients, who cannot eat a water cracker without acute distress.

Cures in Every Town!

Dr. Houghton's Pepsin has now been tested for upwards of two years, in every large town in the United States, and the Agents can refer Dyspeptics to many *remarkable cures* in every town! Numerous details of cases, reports of cures, certificates of Physicians and Patients, are given in the circulars furnished by agents gratis.

☞*Observe This!*—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philada., Pa. Copy-right and trade mark secured.

☞Sold by all Druggists and Dealers in Medicines.

CIGARS—A Large and select assortment just rec'd by *Wm. R. Martin*

HERE IS YOUR REM'DY.

HOLLOWAY'S OINTMENT.

A Most Miraculous Cure of Bad Legs, after 43 years standing.

Extract of a Letter from Mr. Wm. Galphin of 70, St. Mary's street, Weymouth, dated May 15, 1651.

To professor HOLLOWAY,

SIR—At the age of 18, my wife (who is now 61—caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the suffering of my wife during the last 43 years, and contrast them with her present enjoyment of health, you wold indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

Signed, WM. GALPIN.

A Person 70 years of age cured of a bad Leg of Thirty Years standing.

Copy of a Letter from Mr. William Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31st, 1851.

To Professor Holloway,

SIR—I suffered for a period of thirty years from a bag leg, the result of two or three different accidents at Gas Works; accompanied by scorputic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated; yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England, Chemist, 13, Market st., Huddersfield.

A Dreadful Bad Breast cured in one month.

Extract of a Letter from Mr. Frederick Turner, of Penshurst, Kent, dated Dec. 13th, 1850.

To Professor Holloway,

Dear Sir—My wife had suffered from bad breasts for more than six months, and during the whole period had the best medical attention, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing, I now strongly recommend them to all my friends.

(Signed.) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:—Bad Legs, Chiego-foot, Fistulas, Sore throats, Bad Breasts, Chilblains, Gout, skin diseases, burns, chapped hands, glandular swellings, scurvy, bunions, corns (soft) Lumbago, sore heads, bite of moscetoes, and sand flies, cancers, piles, tumors, contracted, and rheumatism, ulcers, stiff joints, scalds, wounds, coco-bay, elephantiasis, sore nipples, yaws, &c.

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar, London,) and by all respectable Druggists and Dealers in Medicines throughout the British Empire, and those of the United States, in Pots at 37½, 87c and $1.50 each. Wholesale by the principal Drug houses in the Union, and by Messrs. A. B. & D. Sands New York; and by S. S. Hance and Canby & Hatch, Baltimore, Md.

There is a considerable saving by taking the large sizes.
