The printed schedule may be seen at the respective navy yards, or at the navy agents' offices nearest thereto; and will be forwarded by the navy agent for the particular yard nearest to his office, or by the bureau for *any yard* upon application, stating the classes and the yards for which the applicants desire to offer.

The schedule will state the times within which the materials will be required to be delivered.

All the articles which may be contracted for must be delivered at such place or places, within the navy-yards respectively for which the offer is made, as may be directed by the commanding officer thereof.

It is to be provided in the contract, and to be distinctly understood by the bidders, that the amount and number of articles enumerated in classes headed 'Miscellaneous,' are specified as the *probable* quantity which may be required, as well as to fix data for determining the lowest bid; but the contractor is to furnish more or less of the said enumerated articles, *and in such quantities and at such times as the bureau or commandant may require.* (and requisitions sent through the post office shall be deemed sufficient notice,) during the fiscal year ending 30th June, 1855; and whether the quantity required be more or less than those specified, the price shall remain the same.

All the articles under the contract must be of the best quality, delivered in good order, free of all and every extra charge or expense, and subject to the inspection, count, weight, or measurement of the said navy yard, and be in all respects satisfactory to the commandant thereof. Bidders are referred to the yard for more particular description of the articles, &c. Contractors for classes headed "Miscellaneous" who do not reside near the place where the articles are to be delivered, will be required to name in their proposals an agent at the city or principal place near the yard of delivery, who may be called upon to deliver articles when they shall be required.

The periods of delivery of all building materials must conform to the schedule.

Approved sureties in the full amount of the contract will be required, and twenty per centum additional security deducted from each payment until the contract shall have been completed or cancelled, unless otherwise authorized by the Department. On classes headed "Miscellaneous," to be delivered as required during the fiscal year the twenty per centum retained may, at the discretion of the commandant, be paid quarterly, on the first of January, April, July, and October, when the deliveries have been satisfactory; the balance (eighty per cent.) will be paid by the navy agent at within thirty days after the presentation of bills in triplicates, duly vouched and approved.

No part of the per centum reserved to be paid until all rejected articles offered under the contract shall have been removed from the yard, unless specially authorized by the Department.

It will be stipulated in the contract that if default shall be made by the parties of the first part in delivering all or any of the articles mentioned of the quality and at the times and places above provided, then, and in that case, the said parties will forfeit and pay to the United States, as liquidated damages, a sum of money equal to twice the amount of contract price herein agreed upon as the price to be paid for the articles in case of the actual delivery thereof, which liquidated damages may be recovered from time to time as it may accrue.

The sureties must sign the contract, and certify that they in the *aggregate* are worth over their debts and liabilities, the full amount of the contract.

Each offer must be signed by the person or persons making it, and by the guarantors according to the form annexed; and their residence, naming the town and State, must be distinctly stated.

It is to be provided in the contract that the bureau shall have the power of annulling the contract, without loss or damage to the government, in case Congress shall not have made sufficient appropriations for the articles named, or for the completion of the works estimated for, and on which the advertisement is based.

Persons whose offers shall be accepted will be notified by letter through the post office, which notice shall be considered sufficient; and if they do not enter into contract for the supplies specified within fifteen days from the date of notice from this bureau of the acceptance of their bid, a contract will be made with some other person or persons, and the gurantors of such defaulting bidder will be held responsible for all delinquencies.

All offers not made in *strict conformity* with this advertisement will, at the option of the bureau, be rejected.

Those only whose offers may be accepted will be notified, and contracts will be ready for execution without delay by the navy agent at , and in case of any question arising in the course of executing the contract, it must be settled by the terms of, without going behind, that instrument.

JOS. SMITH,
Chief of Bureau.
