BUT TOMAOTES!

WHY IS IT Peerless outsells a other Tomato goods ?
WHY IS IT Peerless sells higher than other brands ?
WHY IS IT other fertilizer men say their Tomato Fertilizer is as good as Peerless ?

The answer is easy—everybody knows it.

QUALITY

Captain Emory grew on one occasion 17 tons per acre. Mr. Zac T. Gilbert grew 1 tons to the acre. Mr. G. W. Collins has bought as high as 50 tons per year, and his men grew from 12 to 15 tons per acre. We have sold already in Anne Arundel county, the lower counties and New Jersey, hundreds of tons already. Messrs. Baker and Morgan have bought as high as twelve hundred dollars worth; Messrs. Smith, Rouse & Webster have bought in the past as much as several thousand. Captain Dashiel says he would have it if he had to give $50.00 per ton for same. Mr. Joseph Downey says when he was canning that he could actually tell the difference in tomatoes grown with Peerless when brought to his cannery. Mr Numsen says he knows that tomatoes grown with our goods are fine. Mr. Frank Moore who runs Assaw Bliss & Co.'s cannery, says the best tomatoes brought there are from Peerless. Mr. Loose, a customer of his, says a ton of Peerless grew him $96 00 worth more tomatoes than another goods costing $7.00 less per ton. Mr. Money says it is certainly good. We could go on, but with a testimonial will close.

Unsolicited, some time ago Mr. W. S. Elburn & Son came into our office and said: "I believe your Peerless to be the best tomato goods I ever saw. You remember what an advocate I was of it when I lived out at the mill. Well, wherever I have lived since, on the Western Shore or elsewhere, I would have it, and last year I put some of this same goods on some onions grown from the seed, and they were as fine as Bermudas. Many measured 4 inches in diameter, and I grew over 600 bushels per acre, or at the rate of 1162 baskets. I used it on strawberries and picked 8000 quarts per acre.

The above testimony should, therefore, be convincing.

Respectfully,

WILBUR W. HUBBARD,

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

HOME DRESSMAKING

The Art Of Dressing Well With Small Outlay.

The problem of how to make a good appearance with a small outlay is one which a large proportion of women are engaged in trying to solve.

A good appearance and pleasing personality are strong factors in life's material success. The consciousness of wearing good, well-made clothes, and of being suitably and becomingly attired imparts a feeling of confidence in one's ability to please, and, unquestionably, the chances of a plain woman thus equipped are far greater than those of a dowdy beauty.

The subject of selection and preparation of raiments of a new season is, therefore, of vital importance. Ready-made clothes are the resource of business women, who have little, if any, unoccupied time. But it is to the woman with sufficient leisure to make her own clothes, or, at least, to oversee and assist in their making at home, that the series of articles we purpose to publish under the above heading will be addressed.

There is a right way and a wrong way to do everything, and almost invariably the right way is the simplest, easiest and quickest method of arriving at a desired result, and, therefore, it saves time and wear and tear of brain and nerves.

DESIGN BY MAY MANTON.
5292 Fancy Yoke Waist.
5293 Seven Gored Tucked Skirt.

THE FIT IS ALL IMPORTANT

The fit of a garment is of the utmost importance, and seems to grow more so each succeeding season.

Careful study of lines is the chief element of success in dressmaking, and one must have a clear conception of what are the correct lines in waist, skirt, and sleeves to achieve satisfactory results.

To acquire this, if one's residence is not in a fashionable center, the best way is to study the latest designs in a good fashion magazine. Notice the width and length of skirts, the shoulder lines, the adjustment of drapery, high or low the waist length, the curves of seams, how the sleeves are joined to the waist the length and size of sleeves, etc.

Nowadays excellent patterns are available. Much, however, depends on one's carriage, and with the best of patterns, if the figure is not held correctly, the back may be too long or short for the front, or *vice versa*. The pattern should always be held up to the figure before pinning to the goods, to determine if such a difficulty exists.

How to manage the pattern in either case, the proper allowances to make, the way to pin it to the goods and to proceed with the fitting will be explained in our next article; also the correct treatment of the skirt and sleeve patterns.

Given a perfect fitting lining or princess slip with up-to-date lines, the rest is comparatively easy. But without this correct basis it is impossible to make a stylish gown.

FABRICKS AND STYLES

The materials for the coming season are soft, draping and of light weight, sheer or semi-sheer, requiring a lining. This need not always be of silk, though if availabie taffeta is preferred. Some of the attractive mercerized fabrics, of which there is ample variety sailing under various names, will be found to answer the purpose admirably, and there is a part silk goods retailed at fifty cents a yard, thirty inches wide, which makes an excellent lining.

There never was a time in the history of dress when a last year's gown could be furbished up for a new season with greater facility. The vogue of a silk coat or bolero worn with a skirt of woolen material, in the same or contrasting color, will be continued, also the bolero of lace or contrasting material and sleeve of lace with inserts of the same in the waist and skirt. All of these styles offer golden opportunities for the development from last year's gowns of "dreams" in the way of spring toiletts, to the woman with good taste, good judgment, deft fingers and a modicum of knowledge of dressmaking.

How's Your Liver?

It will pay you to take good care of your liver, because, if you do, your liver will take good care of you.

Sick liver puts you all out of sorts, makes you pale, dizzy, sick at the stomach, gives you stomach ache, headache, malaria, etc. Well liver keeps you well, by purifying your blood and digesting your food.

There is only one safe, certain and reliable liver medicine, and that is

Thedford's Black-Draught

For over 60 years this wonderful vegetable remedy has been the standby in thousands of homes, and is today the favorite liver medicine in the world.

It acts gently on the liver and kidneys, and does not irritate the bowels.

It cures constipation, relieves congestion, and purifies the system from an overflow of bile, thereby keeping the body in perfect health.
