ABOUT 20 000 PEACH TREES

TO BE DISPOSED OF.
The buds were selected from the best strains of each variety, which were sent out from the Nicholson nurseries 25 to 30 years ago, and many of these orchards were more healthy and vigorous the past season than quite a few orchards 5 and 6 years old. These trees have been inspected by authority from the State Entomologist, Prof. Symons, and found entirely free from any root disease, San Jose Scale, or other insects. Orders will be promptly attended to.

HALF THE COUNTRY "DRY."

Liquor Men Thrown Into a Panic by Prohibition.

Too Late to Stem the Tide Says Organ of Producers—Onward March of Local Option.

A dispatch to the North American from Chicago recently says that prohibition's sweep over the country has thrown liquor producers and dealers into panic in many places.

With four States "dry" by statute and local option prevailing in many others, it is said that more than half the nation is under prohibition laws. To show the alarm prevailing among liquor interests, the Prohibition Associated Press calls attention to a significant editorial in Beverages, the national organ of the Liquor League.

"TOO LATE," SAYS LIQUOR ORGAN.

This paper says:

The result in Georgia presents no pleasant outlook for any section of the business. That State, in its judgment, has treated all alike, and no false notion that beer is a temperence beverage and should be allowed to hold on has been entertained or brought forward. We dislike to acknowledge it, but we really believe the entire business all over has overstayed its opportunity, to protect itself against the onward march of prohibition, which in some sections of the country is advancing like a prairie fire, with not a hand raised to stop its progress.

LIQUOR MEN PLAN FIGHT.

With Georgia added to the ranks of prohibition States, Mississippi about to fall in line and nearly all of Kentucky "dry" through local option, the liquor dealers have organized a fight against the temperence movement in the South. It is planned to raise a half-million-dollar fund for "self-defence."

Maine, North Dakota, Kansas and Georgia are the States where statutory prohibition rules. More than half the territory in 17 others States, say the temperence leaders here, is "dry," and in large sections of 16 of the remaining 23 States little intoxicating liquor is sold.

The four prohibition States now have a population in excess of 5,500,000, and it is estimated that 25,000,000 others live in the local prohibition territory of 33 other States.

STATE MOVEMENT SPREADS.

The State prohibition movement is now spreading rapidly in a least 11 States, specially where local option has already driven out the open dram shop in large sections. These States include: 1. Oklahoma, where the prohibition constitutional amendment are voted on September 18. 2. Delaware, the three political dieisions of which vote separately on license or no license on November 5. 3. North Carolina, Florida and Mississippi, where State prohibition campaigns are under way, led or warmly indorsed by the Governors themselves. 4 Popular movements for statutory or Constitutional State prohibition in Alabama, Tennessee, South Carolina, Texas, Iowa and Nebraska. In addition to this, it is said that Arkansas, Kentucky, Nebraska, South Dakota, New Hamsphire and Vermont may adopt State prohibition policy within the near future.

LOCAL OPTION'S STRENGTH.

The following statement of the present facts regarding the States where license and local prohibition exist in varying degree, compilled by tempernace advocates, is of public interest:

Alabama—Majority of the counties dry; part of others also. A county-option law has just been passed, moving for State prohibition in the next two or three yeans.

Arkansas—Sixty out of 75 counties dry. Much dry territory in other counties.

Califorina—Four dry counties. Much dry territory in other counties.

Colorado—Local-option law, 1907.

Connecticut—Town local-option; 96 no-license to 72 license towns.

Delaware—Half-dozen dry towns. State no-license campaign on; vote on November 5, 1907.

Florida—Thirty dry counties out of 45. Few saloons in the State. Move for State prohibition, led by Governor Broward.

Idaho—License, Sunday law only, passed in 1905.

Illinois—Probably 200 dry towns. Local-option law, recently passed. Two dry counties.

Indiana—Three dry counties; 710 dry townships out of 1015. Half of population in dry territory.

Iowa—Sixty-five out of 99 counties dry; 11 other counties have only one saloon town. Move for State prohibition again under way.

Kentucky—Ninety-seven out of 119 counties dry; only four counties wholly wet. Saloons close on Sunday.

Louisiana—Seven-eighths of the State dry. Order may not be solicited or received in dry territory.

Maryland—Ten out of 23 counties dry, two nearly dry and two others where liquor is sold in only one place.

Massachussetts—Local option by cities and towns, 250 being dry and 100 wet. Laws strict and well enforced.

Michigan—County option, with a few dry counties. No chance to vote by smaller units. If county votes wet, it reverses dry vote in small unit.

Minnesota—License, with village local option; 123 dry municipalities. Sunday closing the entire State.

Mississippi—Sixty-eight out of 75 counties dry. State prohibition campaign actively under way.

Missiouri—Forty out of 115 counties dry. Sunday closing rigidly enforced by Governor Folk.

Montana—License.

Nebraska—Village and city option; 400 dry and 600 wet towns.

Nevada—License, with little restriction. No chance to vote on question of License.

New Hampshire—Nominally prohibition, modified by local sentiment. Trend is toward prohibition; 62 per cent. of population in dry territory.

New Jersey—Local-option law.

New York—Town and township option; 300 dry towns.

North Carolina—Few saloons. Campaign for State prohibition, with the Governor leading the fight.

Ohio—Out of 1476 townships 1140 are dry. Sixty per cent. of muncipalities dry, and 350,000 people living in dry residence districts in wet cities. County prohibition assured—probably at next session.

Oregon—Twelve dry counties and 170 dry municipalities in other counties.

Oklahoma—Only 535 saloons in State. Part formerly Indian Territory has had prohibition 21 years, and Constitutional convention adopted similar provision to apply to entire State if so declared by popular vote on September 17, 1907.

Pennsylvania—License, with privilege of remonstrance.

Rhode Island—Sixteen dry municipalities out of 38.

South Carolina—Recently passed county local-option and repealed dispensary law. Move for State prohibition, following Georgia's victory.

South Dakota—Large section of State dry.

Tennessee—Saloons excluded from all but three municipalities in the State. State prohibition predicted in three years.

Texas—Two-thirds of State dry by local option. State prohibition campaign under way.

Utah—License.

Vermont—Dry, save 34 municipalities. Entire State and every county in State shows majority against license. State prohibition expected shortly.

Virginia—Much dry territory.

West Virginia—Thirty dry counties out of 55. Governor publicly opposes liquor traffic.

Wisconsin—Local option, with 650 dry communities.

Arizona—License.

District of Columbia—Ratio of saloons to population reduced more than half during the last 15 years.

New Mexico—License.

Heart Warming Base Ball Game.

(Special)

Baltimore, Md., Oct.—Every indication points to a larger crowd at the official game on Monday, October 14th, of Old Home Week, between the old champion Orioles of 1894, 1895 and 1896 and the present Orioles than can be accommodated.

This game has been arranged under the auspices of the Maryland Home-Coming Association, and is a part of the program for Old Home Week. The game is expected to yield enough revenue to aid the Maryland Home-Coming Association materially in meeting expenses, for the proceeds of the game are to be turned over entirely to the Home-Coming Association.

Needless to say, the players on both sides have entered into the spirit of the affair with great enthusiasm. The old boys are eager to get together again, while the new boys are eager to show that they can beat the old boys, who are known far and wide as the best and brainiest team that ever wore a uniform. To win the coming game has become not merely the dream of each player on each team, but it has become a careful study, and the old boys are now devising some new stunts in brain work that will open the eyes of the entire base ball world. In the good old days so fondly remembered by those who had the pleasure of seeing the peanant winning Orioles play season after season "Doing the unexpected" was the motto. To get out of the beaten path caused many an old player to lie awake night after night thinking up pactical plays to put into use or devising schemes to break up the science the other side might be expected to show. That was why the team got the reputation of being the greatest, just as much as because of the physicial ability as each man. Brains count for as much in base ball as anywhere else, and that old Baltimore bunch had the brains. Each man has still the brains, even though it may be granted that the physical powers of some have waned. The brain, however, may be expected more than to make amends for the failings of the body, so some great base ball may be expected.

In the line-up of the old timers the following national celebrities will be seen:

Pitchers: McMahon, Hoffer, Hemming and perhaps Mullane.
Catchers: Robinson and Clarke.
First Base: Doyle and perhaps Brouthers.
Second Base: Reitz and Gleason.
Shortshop: Jennings.
Third Base: McGraw.
Left Field: "Joe" Kelley.
Center Field: Brodie.
Right Field: Keeler.
Manager: Hanlon.
Umpires: "Tom" Lynch, "Tim" Hurst and Betts.

Women Who Wear Well.
It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.
As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Nearly a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. Made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.
For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and making its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nervine nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.
Dr. Pierce may be consulted by letter *free* of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Cures Blood, Skin Diseases, Cancer,
Greatest Blood Purifier Free.
If your blood is impure, thin, diseased, hot or full of homors, if you have blood poison, cancer, carbuncles, eating sores, scrofula, eczema, itching, risings and bumps, scabby, pimply skin, bonepains, catarrah, rheumatism, or any blood or skin disease, take Botanic Blood Balm (B.
