SHARPLES

Dairy Tubular Cream Separator.

Here are five separators—the largest Sharples Dairy Tubular in the middle and two "back breakers" on each side. The machines are all set so the crank axles are level. Which kind for you? The girl is 5 feet 4 inches tall. We handle Tubulars exclusively. Tubulars have waist-low supply cans and other advantages over all other separators. Call and examine Tubular.

High Price For Land.—Mr. M. B. Nichols, real estate broker of Easton, has sold the farm of Mr. Samuel A. Rohrer, located on Peachblossom Creek, Talbot county, containing 56 acres to Mr. Coll, of Connellsville, Pa., for $15,000. This is at the rate of $267.85 per acre, and is probably the record price per acre for land on the Eastern Shore of Maryland.

What fertilizer is to the soil, Fairfield's Blood Tonic and Egg Producer for poultry only is to the hen, supplying all the elements needed for egg production, strengthening the digestive organs and making the fowl healthy. Fairfield's Blood Tonic for poultry is equally effective with pigeons, ducks, geese, turkeys, etc. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

Christmas comes but once a year but the Fairfield Blood Tonics are money makers for the stock owner and poultry-raiser every day in the year. A separate preparation for each kind of animal spells success because each kind of animal receives the elements required to make it strong, healthy and productive. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

Science has fully demonstrated that the quality and quantity of milk produced by a cow depends upon the purity and richness of her blood. Fairfield's Blood Tonic and Milk Producer for Cattle only is acknowledged to be the only remedy containing all the elements most beneficial to the cow and her peculiar digestive systems. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

Horses "standing in" during the winter months are more apt to contract disease than at any other time. Inaction and overfeeding of dried foods, make the blood sluggish and fills it with impurities. Fairfield's Blood Tonic and Regulator for Horses ONLY, fed during the winter will make your horse's blood pure and keep him in condition for the spring work. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

When the weather grows cold eggs become a luxury because the hens cannot secure the elements required for egg production in their ordinary food. Fairfield's Blood Tonic and Egg Producer for poultry only contains all the needed elements for egg production and for health. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

A contagious foot and mouth disease has broken out among the cattle in four counties in Penna. Fairfield's Blood Tonic for Cattle Only, protects cattle from contracting disease of any kind. Germs multiply only in impure blood. Keep the blood pure and the animal will be immune. The Fairfield Blood Tonics purify the blood. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

The food your horse does not digest and assimilate is being wasted because he receives no benefit from it. Every ounce of undigested food means a loss to you of so much money on feed by feeding your horse Fairfield's Blood Tonic and Regulator for Horses Only, and putting his digestive organs in condition to digest his food thoroughly. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

One quart of Cream is worth ten times as much as one quart of Skimmilk. For the same reason that Fairfield's Blood Tonics are worth ten times as much as the "cure-all" condition powder that sells for a few cents less. The smallness of the dose and the strength and quality of the preparation makes the Fairfield Tonics the cheapest as well as the best on the market. For sale by Davis & Satterfield, Chestertown, and A. Cohen, Sandy Bottom.

FIREMAN'S CARNIVAL.

To be Held in Stam's Hall, January 26, 27, and 28.

The executive committee of the Fireman's Carnival, with a large number of ladies of the town, met at the fire company's room on Monday afternoon at three o'clock and perfected arrangements for holding the Fireman's Carnival in Stam's Hall, January 26, 27, and 28. Various committees were appointed and plans were perfected for holding one of the most unique affairs ever held in Chestertown. The ladies of the town have entered into the matter with a determination and interest that means a great success for the carnival. There will be entertainments each evening given by local talent, which are now in course of preparation, and there will be beautifully decorated booths representing a colonial villa, country store, gypsy camp, fancy articles, cake, confections, apron bazar, and ice cream parlors. On the last night of the carnival a sumptuous supper will be served, and if any of our large-hearted country neighbors feel disposed to donate a roast pig, a turkey, pair of ducks, chickens, etc., they will be greatly appreciated. In fact everybody is asked to contribute something toward the success of the carnival. The next meeting of the committee will be held on the afternoon of January 4th, when final arrangements will be made. The ladies certainly are to be commended for the splendid manner in which they have responded to the call of the fireman, and we are sure the people of the town and county will spend their money freely to assist in such a worthy cause.

Dr. Merritt Returns.

Dr. James B. Merritt returned to his home in Easton on Saturday evening and voluntarily surrendered himself to Sheriff Welch. The sheriff had been previously apprised of Dr. Merritt's contemplated return and was asked to await his coming at his residence on Dover street, where a large number of leading business and financial men of Easton, representing at least $200,000, were their to meet him and volunteered bail in any amount. Bail was fixed at $5,000 by Judge Adkins for his appearance at the May term of court. Dr. Merritt's bondsmen are among the strongest business men in Easton, and are Messrs. M. M. Higgins, M. B. Nichols, E. C. Stoops, Alexander Fountain, James N. McNeal and John S. Griffith. Dr. Merritt, through his counsel, stated on Sunday that a train of circumstances has placed him in an unenviable light before the citizens of Easton. His counsel also declares it is but just to Dr. Merritt and his friends to say that he left Easton when the much-talked of criminal mal-practice by him was being discussed, thinking that it would stop talking and no unfavorable action would result to him or any one else. But after an indictment had been found against him he was advised to remain away from Easton until after court adjourned, then to come home and give himself up, which he did. He further states that at the proper time he believes he will have no trouble to fully vindicate himself and be completely exonerated from any wrong doing on his part as a practicing physician or citizen.

Peninsula Horticultural Society.

The annual meeting of the Peninsula Horticultural Society will be held in Wilmington, Del., beginning the second Tuesday in January, 1909. At the recent meeting of the State Society in Baltimore, a committee composed of Messrs. D. B. Stewart, Baltimore, Orlando Harrison, Worcester county, and Jas. S. Harris, Kent county, was appointed to draft a bill to be presented to the next Legislature providing for the shipment of fruits in uniform standard packages. This committee desires all farmers' clubs, granges, shipping associations, fruit and produce associations and exchanges, transporation companies, package manufacturers etc., to send one delegate each to confer with the committee on the second Tuesday in January at the meeting of the Horticultural Society in Wilmington, relative to the provisions of the proposed bill. Hon. Jas. S. Harris, Coleman, Md., should be notified of the appointment of delegates. The matter is of vital importance to the farmers and shippers and they should lend their aid and sympathy to this committee in its efforts to advance their interests. Mr. D. B. Stewart, of the Stewart Fruit Company, Baltimore, read an important report on the subject at the State Horticultural meeting. The report is on our desk, and will be published in full for the benefit of our farmers as soon as space will allow.
