A Dewitt county teacher has adopted a plan, whereby she allows girl sweethearts a word, the boy who spells it has the right to kiss her. The Clinton *Press* says: "The result is that the girls are fast forgetting all they ever knew about spelling, while the boys are improving with wonderful rapidity.

Rev. John Brown, of Harlington, was in the habit of proposing, on festive occasions, a certain young lady as his toast. Having abandoned the practice, he was asked for the reason. "Because," said he "I have toasted her for 19 years without making her Brown, and so I've resolved to toast her no more."

"But I pass," said a minister in the west, recently, in dismissing one theme of his subject to take up another. "Then, I make it spades," yelled a man from the gallery, who was dreaming the happy hours away in an imaginary game of euchre. It is needless to say that he went out on the next deal, being assisted by one of the deacons, with a full hand of clubs.

The Car Record Department of the Pennsylvania Railroad has just completed its count of cars destroyed at Pittsburg in the July riots. The number set down at sixteen hundred and eighty-two, embracing every class, from a passenger to a stone car.

Oil has been struck at the Black Hills, 100 miles south of Deadwood. The oil wells of California are rapidly increasing in number and the production begins to be of importance. The oil is claimed to be in many respects better than that of Pennsylvania, in one instance it can be used for lamps just as it comes from the well.

They were examining applicants for admission to an Omaha foot race, the other day and every man had to show his pedigree as a runner. "Oh! pass right in then," said the Judge. "Next."

Mr. O'Flaherty undertook to tell how many were at a party: "The two Crogans was one, myself was two, Mike Finn was three, and—and—who was four? Now, its myself that has it, Mike Finn was one, the two Crogans was two, myself was three—and—but I think there was but three of us after all.

Hard, dry walks leading from the house to the barn and other out-building are a great convenience. They are particularly appreciated in the moist weather of winter and spring, and houses not thus connected with the farm buildings are deprived of important and necessary conveniences.

From Washington we have the alarming news that a lady who visited the White House lately, surprised everybody by singing bass. A local paper says: "Those who heard the music, but could not see the singer, were positive that a man sang part of the time." To sing bass is one of the things that the world has believed woman can never do. What with chemiloons, and suffrage, and bass voices, proud man will soon have none of his exclusive prerogatives left.

A new industry has been started in Mansfield, Mass. It is no less than the manufacture of jewelry out of sour milk. This seems a strange anomaly, but it is a fact. The milk comes in the shape of curd from butter and cheese-making countries in New York, and loses soon its arrival a great deal like popped corn; but before it leaves their shop it undergoes a wonderful change and receives the name of American coral. The secret in making it is carefully guarded; but it is certain that it has to be heated very hot, during which coloring matter is introduced, followed by a very heavy pressure. Some of it is colored black and called jet, while some appears as celluloid. It makes very handsome jewelry, and is made into all kinds and styles known to trade.

We live in an age of pleasant frauds. Russia leather is made in Connecticut, Bordeaux wine is manufactured on Kelley's Island, French lace is woven in New York, Italian marble is dug in Kentucky, English cassimere is made in New Hampshire, Parisian art work comes from a shop in Boston, Spanish mackerel are caught on the New Jersey coast, and Havana cigars are rolled by the million in Detroit. And for practical purposes it is of small account. "A rose by any other name," etc. But if one is troubled by a notion that things are only valuable if genuine—that shams are inherently and forever wrong and annoying—why then he must cultivate exceeding shrewdness, and not hope to get things "cheap."

Thought She was an Aquarium.

Five years ago Hester Brown, a colored woman, who lived in Harlem, New York, became convinced that there was a reptile of some kind in her stomach. She soon became a local celebrity. Physicians who examined her were divided on the snake question, and long reports were printed in the newspapers giving the views of the snake and anti-snake parties. The woman had been sick for a long time of consumption. Monday she died. A post mortem examination showed that the woman had been under a delusion. There were no snakes or reptiles of any kind, not even a frog, and therefore the anti-snake party of the region are in good spirits.

Iron in the Blood

Peruvian Syrup

Peruvian Syrup

A protoxed solution of the Protoxide of Iron, combined with the Vitalizing Principle of Peruvian Bark, is easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's own Vitalizing Agent, Iron in the Blood, and cures a thousand ills, simply by toning up, invigorating and Vitalizing the system. The enriched and vitalized blood penetrates every part of the body, repairing damages and waste, searching out morbid secretions and leaving nothing for disease to feed upon.

For a Spring Medicine

It has no equal. Stimulating without reaction, its effects are permanent, differing in this respect from all Alcoholic Tonics.

CURES

Dyspepsia, Debility, Liver Complaint, Dropsy, Chronic Diarrhœa, Chills, Nervous Affections, Chills and fevers, Humors, Loss of Constitutional Vigor, Female Complaints, Etc.

From a well-known Writer:

From Hon. Thos. Ewing, Lancaster, Ohio, Formerly Chief Justice of Kansas, and Member of Congress.

Brightwater, Middlebury, Vt., Oct. 6, 1876.

Seth W. Fowle & Sons:

Gentlemen—Two years ago I began to take the Peruvian Syrup. At that time I was fearfully alive with rheumatism, through the inefficient circulation of the blood. Three bottles of the Peruvian Syrup changed this to glowing, bounding health. I have a fine appetite, sleep soundly and can walk five miles easily without resting, or busy myself out of doors all day long without fatigue.

A lady cousin, in Philadelphia, has taken the Syrup during her convalescence from a fever of some weeks. She has been an invalid for years. Five bottles of the Syrup have so built up her system that she now eats heartily, sleeps well, and can walk three miles in fine weather without fatigue. I consider the medicine invaluable to persons of sedentary pursuits, or to those who suffer from languor or low spirits. Let relate this personal experience of my efforts to you, leaving you to make what use you please of my letter. Yours, very respectfully, M. F. FRANCIS

From Chas. H. Colgate, Esq.,

Of the firm of Colgate & Co., manufacturers of Fine Perfumery and Fancy Soaps, Flavoring Extracts, etc., Office 55 Lafayette st., Boston.

Somerville, Mass., Dec. 6, 1876.

Messrs. Seth W. Fowle & Sons:

Gentlemen—Last spring my little daughter, aged five, became very much emaciated with loss of appetite, and great prostration of strength, so much so that we were obliged to take her out of school. She continued through the Summer, and seemed so much worse, after trying various remedies without receiving any benefit, our family physician recommended the use of Peruvian Syrup. After using it one week we saw a marked improvement in the child's condition, and in a month she was rapidly gaining in health and strength, her appetite being excellent. At this date she is perfectly well, with round, plump cheeks and healthy color. We cannot say too much in favor of the Peruvian Syrup, and feel that I can not too highly recommend it as a tonic. Very gratefully yours, CHAS. H. COLGATE.

SIMMONS LIVER REGULATOR

ASK the recovered dyspeptics, Bilious sufferers, victims of fever and ague, the members of disease-stricken families, how they recovered health, cheerful spirits and good appetite; they will tell you by taking SIMMONS LIVER REGULATOR.

The Cheapest, Purest and Best Family Medicine in the World!

For DYSPEPSIA, CONSTIPATION, Jaundice, Bilious attacks, SICK HEADACHE, Colic, Depression of Spirits, SOUR STOMACH, Heart Burn, &c., &c.

This unrivalled Southern Remedy is warranted not to contain a single particle of MERCURY, or any injurious mineral substance, but is

PURELY VEGETABLE,

containing those Southern Roots and Herbs, which an all-wise Providence has placed in countries where Liver Diseases most prevail. It will cure all Diseases caused by Derangement of the Liver and Bowels.

THE SYMPTOMS of Liver Complaint are a bitter or bad taste in the mouth; Pain in the Back, Sides or Joints, often mistaken for Rheumatism; Sour Stomach, Loss of Appetite, Bowels alternately costive and lax; Headache; Loss of Memory, with a painful sensation of having failed to do something which ought to have been done; Debility, Low Spirits, a thick yellow appearance of the Skin and Eyes, a dry Cough often mistaken for Consumption.

Sometimes many of these symptoms attend the disease, at others very few; but the LIVER, the largest organ in the body, is generally the seat of the disease, and if not regulated in time, great suffering, wretchedness and DEATH will ensue.

I can recommend as an efficacious remedy for disease of the Liver, Heartburn and Dyspepsia, Simmons' Liver Regulator. LEWIS G. WEYMAN, 1625 Master Street, ASSISTANT P. M. MASTER, PHILADELPHIA.

"We have tested its virtues personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. We have tried forty other remedies before SIMMONS' Liver Regulator, but none of them gave us more than temporary relief, but the Regulator not only relieved, but cured us."—*Ed. APPLETON'S American Cyclopædia.

NEW REVISED EDITION.

Entirely Rewritten by the Ablest Writers on Every Subject.

Printed from New Type, and Illustrated with several thousand Engravings and Maps.

:o:

The work originally published under the title of the New American Cyclopædia was completed in 1863, since which time the whole aftermath, which it has attained in parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and issue a new edition entitled

The American Cyclopædia.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volumes of the old work appeared has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

Geographical Knowledge

have been made to the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, who have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are only preserved only in the newspapers or in the transient publications of the day, but which ought now to take their places in

Permanent and Authentic History.

In preparing the present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

Political and Historical Events.

The work was begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been

Printed on New Type,

forming in fact, a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge

The Illustrations,

which are introduced for the first time in the present edition, have been added not for the sake of pictorial effect, but to give lucidity and force to the explanations in the text. They embrace all branches of science, and of natural history, and depict the most famous and remarkable features of the scenery, architecture, and art, as well as the various processes of mechanics and manufacturers. Although intended for instruction rather than embellishment, no pains have been spared to insure their

Artistic Excellence.

The cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

The American Cyclopædia is Now Complete,

in sixteen large octavo volumes, each volume containing over 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous Colored Lithographic Maps, the whole costing the publisher a sum exceeding

Five Hundred Thousand Dollars,

exclusive of paper, printing, and binding.

Prices and Style of Binding.

In Library Leather, per vol.,	6 00
In Half Turkey Morocco, per vol.,	7 00

The Best Cyclopædia ever Published,

one that will supersede all others, is now offered to the public at a very moderate price less than one cent a page!

Just think!

A Saving of Ten Cents per Day,

the price of a cigar, or many other expenditures for luxuries or frivolities of a like amount, would pay for a complete set of the Cyclopædia by a bi-monthly subscription. Thus there will be something substantial saved, and a storehouse of knowledge, indeed

A Universal Library in Itself.

Secured, with but little effort or sacrifice.

☞Specimen pages of The American Cyclopædia, showing type, illustrations, etc., will be sent gratis on application.
