A Stitch in the Back

Is caused by a sudden wrenching of the spine, and produces violent and acute pains, making it very difficult for the person to move. It should not be neglected, as the curvature of the spine is often brought on by neglect of this common complaint.

Sore Throat and Quinsy.

The causes which usually induce Sore Throat are those which give a sudden check to perspiration, and thus obstruct Nature's regular work, quickly producing, in consequence, an inflammatory condition which, involving the tonsils, and rapidly spreading over the whole mucous membrane of the fauces will cause Quinsy.

Inflammation of the Breast.

This distressing complaint may be cured, or entirely prevented by the timely use of this remedy. It has never failed, when applied at the commencement, or before the gathering takes place.

Weakness of the Ankles and Joints.

Strains and chronic pains, cold and external injuries, are the chief causes of this complaint. The muscles are relaxed, in many cases it is difficult to move, [illegible] cure will be effected. As a

It is invaluable to Farmers, Express Companies, Stage Proprietors, and appointed Livery Establishments, and all who own Horses and other Stock, numerous testimonials attesting its wonderful efficacy in
