pense and says that he is the Clerk of the County of Columbia, State of Florida, and the keeper and custodian of the records of said county, except the probate records. That he was appointed Clerk of said county on the 29th of January, 1878, and succeeded one A. A. Hoyt, who was the Clerk of the county during the year 1876, and up to the date of the appointment of this deponent.

Deponent further says that he has examined the record of the election held in said county for Presidential electors in 1876, and finds that the copy of the registration list used by the inspectors of election at precinct No. 3 is lost or destroyed, and never came into the possession and custody of this deponent as such Clerk. That the poll list, which should by law have been returned by inspectors of precinct No. 2, is not now in the possession and custody of this deponent as such Clerk, and is not any part of the record s of said office.

Deponent further says that the original registration book, kept by said Hoyt as Clerk as aforesaid, deponent's possession, and the same is now a part of the records of said county.

That he knows A. A. Henderson, and that he is informed and believes that said Henderson was the Deputy Clerk of said Hoyt during the time stated by said Henderson in his affidavit. Deponent further says that he has examined the said registration list, and finds that the names of the persons mentioned in said Henderson's affidavit were registered in the handwriting of said Henderson.

Deponent further says that said Hoyt has been indicted for the fraudulent registration mentioned in said Henderson's affidavit, and that said indictment is now pending in the court of said county, and that said Hoyt is a fugitive from justice, he having escaped from the custody of an officer having him in charge on said indictment. JOHN VINZANT, JR.

Sworn to and subscribed before me, April 11, 1878. W. M. IVES, JR., [Seal.] County Judge.

State of Florida, County of Duval, ss:—George C. Harris, being duly sworn, deposes and says that he is 19 years of age, a resident of Jacksonville, Fla., and a cigar-maker by trade; that one W. H. Hardin is the brother-in-law of this deponent; that during the fall of 1876 said Hardin was engaged as a travelling agent for a sewing machine company, and travelled through the counties of northern Florida and southern Georgia. Deponent further says that he frequently travelled with said Hardin in his trips during the Presidential campaign of 1876, and deponent knows that said Hardin was engaged by the Republicans in procuring the names of Georgia negroes or other persons to visit Florida and vote the Republican ticket in the fall of 1876. Deponent is unable to say to what extent this fraud was practised, as he was young and but little used to such matters. And further saith not.

APPLETON'S American Cyclopædia.

NLW REVISED EDITION.

Entirely Rewritten by the Ablest Writers on Every Subject.

Printed from New Type, and Illustrated with several thousand Engravings and Maps.

—:o:—

The work originally published under the title of the New American Cyclopædia was completed in 1863, since which time the whole circulation which it has attained in parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit to an exact and thorough revision, and issue a new edition entitled

The American Cyclopædia.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and convenience and refinement of social life. Great wars and consequent revolutions have occurred, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volumes of the old work appeared has happily been ended, and a new course of commercial and industrial activity has been commenced. Large accessions to our

Geographical Knowledge

have been made to the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, who have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their places in

Permanent and Authentic History.

In preparing the present edition for the press it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the newest inventions in the practical arts, as well as to give a succinct and original record of the progress of

Political and Historical Events.

The work was begun after long and careful preliminary labor, and with the most ample resources for carrying it on to a successful termination.

None of the original stereotype plates have been used, but every page has been

Printed on New Type,

forming in fact, a new Cyclopædia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledga

The Illustrations,

which are introduced for the first time in the present edition, have been added not for the sake of pictorial effect, but to give lucidity and force to the explanations in the text They embrace all branches of science, and of natural history, and depict the most famous and remarkable features of the scenery, architecture, and art, as well as the various processes of mechanics and manufacturers Although intended for instruction rather than embellishment, no pains have been spared to insure their

Artistic Excellence.

The cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

The American Cyclopædia is Now Complete,

in sixteen large octavo volumes, each volume containing over 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous Colored Lithographic Maps, the whole costing the publisher a sum exceeding

Five Hundred Thousand Dollars,

exclusive of paper, printing, and binding.

Prices and Style of Binding.

In extra Cloth, per vol., 5 00
In Library Leather, per vol, 6 00
In Half Turkey Morocco, per vol. 7 00
In Half Russia extra gilt, per vol 8 00
In Full Russia, per vol., 10 00
In Full Morocco, antique, gilt edges, per vol., 10 00

The Best Cyclopædia ever Published,

one that will supersede all others, is now offered to the public at a very moderate price less than one cent a page!

Just think!

A Saving of Ten Cents per Day,

the price of a cigar, or many other expenditures for luxuries or frivolities of a like amount, would pay for a complete set of he Cyclopædia by a bi-monthly subscription. Thus there will be something substantial saved, and a storehouse of knowledge, indeed

A Universal Library in Itself.

Secured, with but little effort or sacrifice.

☞Specimen pages of The American Cyclopædia, showing type, illustrations, etc., will be sent gratis on application.

Persons wishing to subscribe, can receive the whole set at one time, or one or more volumes at any time, the delivery suiting their convenience, without any cost of carriage, by forwarding their address to

Are strictly Vegetable, being entirely free from Quinine, Mercury and all other deleterious substances. They have been tested for years in private practice, and have never been known to fail to cure Fever and Ague in its worst stages. Dyspepsia, Indigestion, Headache, Foul Stomach, Bad Taste in the Mouth, Neuralgia, Liver Complaint, Nervous Debility and all diseases arising from a change of climate and impurity of the blood, greatly benefitted by their use. All I ask is a trial of these valuable Pills, and they will convince the most skeptical of their merits. Ask your Druggist for them and if he has them not, inclose 50 cents by mail to us, and they will be sent free of charge, by the next mail, with full directions for use.
