THE BEST REMEDY

FOR

Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL

In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. For Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint those seeking relief. Diseases of the throat and lungs require active and effective treatment, and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.

Agricultural.

FRUIT TREES.

Causes of Non-Bearing.

1. Want of proper fruit-forming food in the soil. This fruit-forming food is so small in many orchards long in bearing that it becomes so nearly exhausted with a full crop that the tree has not strength sufficient to produce another crop the next year, the fruit buds for the crop not forming even, or when the buds form and the tree blooms it cannot perfect the fruit, so either the blossoms fall or the fruit is shed prematurely.

2. Again, when there is abundance of fruit forming food in the soil the tree tends to enlarge its growth of roots, branches and leaves at the fruits expense This may do with some varieties of apples, pears, and perhaps with other fruits, for years, until the patience of the fruit grower is exhausted in waiting.

3. Injurious insects are sometimes destructive to the fruit crop in some localities, and some seasons more than others. The injury from insects is felt most with a light crop or what is called non-bearing years, and usually when the fruit orchard is most neglected.

The remedy for non-productiveness must depend upon the cause. 1. If caused by lack of fruit-forming food, which is frequently the case with old orchards, the necessary pabulum must be supplied. Fertilizers rich in potash, phosphoric acid, soda, sulphuric and carbonic acids, should be used broadcast in the orchard, several feet from the trunk of the tree where the extending roots will find it. Wood ashes unleached, contains all the fruit-forming elements needed. As a substitute, we use the following cheap preparation: Caustic lime slacked in a saturated solution of common salt and sulphate of potash. Apply early in the Spring at the rate of a peck to a large tree; if attainable, mix with fine charcoal. In the Fall apply about one pound of ground bone.

2. If the tree tends to too great a growth of wood, and refuses to bear when in good ground, cut a trench around so as to cut off the gourmand roots about two-thirds the distance that the branches extend. Cut the roots with a sharp instrument. Fill up the trench with surface soil in which is sprinkled the above mixture. This should be done in the autumn.

3. If insects destroy the fruit, they must be fought by destroying the fallen fruit of fruit years, and by wrapping the trunks with bandages and destroying the larvæ or by burning fire around favorite trees.—*Ohio Farmer.*

TRIMMING FRUIT TREES

The *Cultivator and Country Gentleman* says of pruning fruit trees:—The time for trimming must conform to circumstances. A very light pruning may be performed at almost any time, but the removal of considerable portions of a tree after the buds have opened or while the tree is growing, always checks its vigor. But if very thrifty, it will do no harm to give it some check. Peach trees are less checked than apples. Pruning apple orchards in summer is very frequently recommended, because the wound dries and heals sooner, but if the trees are not very vigorous, it should be done sparingly. On the whole it is better to prune large branches late in winter and cost the wound when dry with paint, grafting wax, or shellac in alcohol.

FARMERS' HOMES.

Of all dreary places, deliver us from the dreary farm houses which many call home. Bars for a front gate, chickens wallowing before the door, pig pens elbowing the house in the rear, scraggy trees never cared for or no trees at all, no flowering shrubs, no neatness, no trimness; and yet a lawn, and trees, and a neat walk, and a pleasant porch, and a plain fence around do not cost a great deal. They can be secured, little by little, at odd times, and the expense hardly felt. And if the time comes when it is best to sell the farm, fifty dollars so invested will often bring back five hundred—for a man is wrong who will not insensibly give a higher price for such a farm, when he thinks of the pleasant surroundings it offers his wife and children.

A PRETTY FLOWER YARD

Now that the dismal winter is past and we have once more the chance to cultivate our floral treasures, a little chat about flowers may not be out of place.

Laying out and arranging a pretty flower yard requires a certain amount of artistic skill. Many and pretty are the designs used by those who have abundant means to obtain an attractive as well as inexpensive flower-yard or lawn of the more common varieties of flowers is a question with most of us.

Avoid all formality; that is, for example, do not make a bed just four feet long on one side of the walk, with its exact mate on the opposite side.

Shrubs or evergreens carelessly scattered about will have a much prettier effect than to set them by rule or line.

For brilliant display and variety of colors, also for length of time in bloom, nothing exceeds a bed of portulacca. No drought is too long or sun too hot, for as Mr. Vick calls it, "this little salamander."

If you wish to make a bed of showy annuals, do not, as you value your reputation for sanity, throw your seed into the ground without regard to size or color, but if you have a round bed, place the taller sorts in the center, then the next in height, and so down to the dwarf or border plants. If a long or side bed is used, place the tallest kinds in the back of the bed, or the side furthest from view. Blend the colors, and do not allow them to grow too thick.

Euphorbia, sometimes called "snow on the mountain," when grown in clumps or masses, has a very pretty effect, with its pretty white and silver-tipped leaves nodding in the breeze.

A stalk or two of ricinus in a yard gives the ground a tropical look.

Many ladies cling to the mistaken idea that because they have not the time to cultivate a large garden, they must do without any. Even a few flowers, if carefully selected, would prove a world of rest and pleasure during the long summer months. Besides, what is nicer than to pick a charming bouquet for a departing guest?

HOW TO GROW VERBENAS.

To grow verbenas successfully plant them in beds cut in the turf. Chop the turf well, and thoroughly mix with it a good share of well-decomposed stable manure. Never, on any account, plant verbenas in olds nd worn-out garden soil, as they will most assuredly fail. Give them a change-of soil each season, as they do not thrive well two years in the same bed. As a house plant the verbena is not a success. It is almost always sickly or infested with red spiders. They cannot be kept over winter in a cellar. With verbenas it is either growth or death.

The pet of the farmers being brought to this country. It would not be a surprise if the Jersey breeders resorted to us for cattle after we have further improved them.

John Mason,

Cabinet Makes,

Furniture Dealer,

AND

Practical Undertaker

OF LONG EXPERIENCE.

I would respectfully inform my friends and the public generally, that I am now better prepared to furnish everything in the furniture line, than I have been in the past.

My ware-house contains 3500 square feet of flooring, which is at all times covered with stock pertaining to my business, and which will be sold as cheap or cheaper than can be bought here or elsewhere.

Having no other trade or profession, I am in the business for life, health permitting, and do not intend to be undersold or excelled in any particular pertaining to my business.

Myself and son Harry will give our personal attention to the business, and I recommend him as capable to attend to all business in my absence.

REPAIRING

done neatly and with dispatch. Stock of

PICTURE FRAMES

always on hand made to order. Thanking you very kindly for your patronage in the past, I earnestly solicit a continuance in the future.

Undertaking a Specialty.

I shall continue to give the undertaking department of my business my special attention, and having had thirty odd years experience in the business, I feel sure I can give satisfaction in the attention of all funerals entrusted to my care.

I have one of the best hearses and keep in stock everything necessary to furnish the best funeral.

Corpses preserved in ice when requested. Remember my prices shall be as low as the very lowest. Respectfully,

JOHN MASON.

To the Farmers.

THE TALBOT COUNTY PAPER MILLS COMPANY will now contract for WHEAT STRAW, to be delivered at a convenient time hereafter. A little more care in stacking and tieking, will insure so much better keeping as to enable farmers to spare at least half of their straw, the cash for which would nearly pay for their phosphates Apply to

R. B. DIXON,
jan29tf Treasurer.

THE GOLDEN SHEAF.

A Fertilizer specially adapted to the Soil of the Eastern Shore of Maryland.

$20 PER TON.

Sold at a very small profit on cost of production and clear of Agents' commissions.

THE COMPOSITION NO SECRET.

Made Without Sand or Dirt.

FOR SALE BY

THE OXFORD GUANO CO., Oxford, Md.

W. H. SETH, Secretary.

The attention of Farmers who desire to secure a good fertilizer at a reasonable price, is respectfully called to the above named brand.

The object of the manufacturers has been to originate a compound of plant foods directly adapted to the soil of the Eastern Shore of Maryland, and to fix the price therefor at the lowest possible figures, cutting off all agents fees of $5 and $6 per ton and adding to the actual cost only a very small profit. We think this fertilizer has as much intrinsic value as most of the high price manures, and feel confident that farmers who may think proper to use it will say, that in its effects upon the soil, it will equal them.

The analysis, as made by Prof G. A. Liebig, shows it to contain:—

Ammonia, from	75 to 1.25	per cent.
Phosphoric Lime, from	5.00 to 7.00	"
Lime	33.10	"
Carbonic Acid	26.67	"

The lime and carbon, which are essential to plant growth, are obtained from oyster shells ground to powder, instead of being burnt. This combination not only dispenses with the necessity for dirt or sand to hold the chemicals, but is a most valuable assistant to their action.

We are also manufacturing ground lime, which we propose to put upon the market at a low price. aug30-6m

CARRIAGES.

Persons wanting new carriages will find it to their interest to give me a call, as I can furnish them at lowest rates with McLear & Kendall's best Wilmington made carriages. This firm makes as fine carriages as are made in the United States.

FRANK G. WRIGHT,
Easton, June 14, 1881.

Saman'ritan Nervine.

SA MARITAN NERVINE

SAMARITAN NERVINE

Cures Epileptic Fits, Spasms, Convulsions, St. Vitus Dance, Vertigo, Hysterics, Insanity, Apoplexy, Paralysis, Rheumatism, Neuralgia, and all Nervous Diseases. This inimitable remedy will positively eradicate *every species of Nervous Derangement*, and drive them away from whence they came, never to return again. It utterly destroys the germs of disease by neutralizing the hereditary taint or poison in the system, and thoroughly eradicates the disease, and utterly destroys the cause.

SAMARITAN NERVINE

Cures Female Weakness, General Debility, Leucorrhœa or Whites, Painful Menstruation, Ulceration of the Uterus, Internal Heat, Gravel, Inflammation of the Bladder, Irritability of the Bladder. For Wakefulness at Night, there is no better remedy. During the change of life no Female should be without it. It quiets the Nervous System and gives rest, comfort and nature's sweet sleep.

SAMARITAN NERVINE

Cures Alcoholism, Drunkenness and the habit of Opium Eating. These degrading habits are by far the worst evils that have ever befallen suffering humanity. Thousands die annually from these noxious drugs. The drunkard drinks liquor not because he likes it, but for the pleasure of drinking and treating his friends, little thinking that he is on his road to ruin. Like the Opium Eater, he first uses the drug in small quantities as a harmless antidote. The soothing influence of the drug takes strong hold upon its victim, leading him on to his own destruction. The habits of Opium Eating and Liquor Drinking are precisely what eating is to *dimentiveness*, as over-eating first inflames the stomach, which redoubles its cravings until it paralyzes both the stomach and appetite. So every drink of liquor or dose of opium, instead of satisfying, only adds to its fierce fires, until it consumes the vital force and then itself. Like the gluttonous tapeworm, it cries "Give, give, give!" but never enough until its own rapacity devours itself. Samaritan Nervine gives instant relief in all such cases. It produces sleep, quiets the nerves, builds up the nervous system, and restores body and mind to a healthy condition.

SAMARITAN NERVINE

Cures Nervous Dyspepsia, Palpitation of the Heart, Asthma, Bronchitis, Scrofula, Syphilis, diseases of the Kidneys and all diseases of the urinary organs. Nervous debility, caused by the indiscretions of youth, permanently cured by the use of this invaluable remedy. To you, young, middle-aged and old men, who are covering your sufferings as with a mantle by silence, look up, you can be saved by timely efforts, and make ornaments to society, and jewels in the crown of your Maker, if you will. Do not keep this a secret longer, until it saps your vitals, and destroys both body and soul. If you are thus afflicted, take Dr. RICHMOND'S Samaritan Nervine. It will restore your shattered nerves, arrest premature decay, impart tone and energy to the whole System.

SAMARITAN NERVINE

Cured my little girl of fits. She was also deaf and dumb, but it cured her. She can now talk and hear as well as anybody.

PETER ROSS, Springwater, Wis.

SAMARITAN NERVINE

Has been the means of curing my wife of rheumatism. J. B. FLETCHER, Fort Collins, Col.

SAMARITAN NERVINE

Made a sure cure of a case of fits for my son.

E. B. RALLS, Hiattsville, Kan.

SAMARITAN NERVINE

Cured me of vertigo, neuralgia and sick headache. MRS. WM. HENSON, Aurora, Ill.

REMOVAL.

JOHN D. CHANCE, House and Sign Painter and Paper Hanger, notifies his friends and customers, and all wanting work done *cheap*, and in the *best manner*, in his line of business, that he has moved his PAINT SHOP next door to Tuthill's hardware store, near THE STAR office, and opposite the jail, where he is prepared to do, or contract to do, all jobs in his line, and respectfully asks a call from all wanting work done. jul27,80

BRICK AND TILE.

Salmon Brick, Arch Brick, Red Brick, Paving Brick, Well Brick, Pressed Brick, and

TILE

from 2 to 7 inches vent, at all prices, from $12 to $75 per thousand.

WE are now prepared to deliver bricks in any part of Talbot county, or anywhere on the water or or railroad out of the county, at 20 *per cent.* BELOW OLD PRICES, *for the cash.* We have a heavy stock on hand, of splendid quality, and are determined to command the the brick trade of this section, if SUPERIOR BRICKS and LOW FIGURES will do it.

Our stock of Tile is very heavy, and we sell it very low for cash; but are prepared to enter into arrangements with farmers, who may want to put in tile, and who may not have the cash, to give them six or nine months credit. The tile ought to go in, and the springy land be made productive, and we are willing to help those who are short of money.

We invite a call from all those in want of either brick or Tile.

JOSEPH H. WHITE, Easton.
