CARTER MEDICINE CO., New York City.

THE SUN.

NEW YORK, 1883.

More people have read THE SUN during the past year (and now reading than ever before since it was first printed. No other newspaper published on this side of the earth has been bought and read in one year by so many men and women.

We are credibly informed that people buy, read, and like THE SUN for the following reasons, among others:

Because its news columns present in attractive form and with the greatest possible accuracy whatever has interest for human kind, the events, the deeds and mishaps, the wisdom, the philosophy, the notable folly, the solid sense, the improving nonsense, the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of telling them the exact truth, to the best of its ability, nine hundred and sixty-five days in the year, before election as well as after, about the whales as well as about the small fish, for the face of disease as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purposes to serve, save the information of its readers and the furtherance of the common good.

Because it is edited by Mr. Dana, who is so humble that THE SUN is indifferent to his welfare and his rights. No man is so rich that it can allow injustice to be done him. No man, no association of men, is powerful enough to be exempt from the strict application of its principles of right and wrong.

Because, in politics, it is frank for a decent party without interest in the spoils, and has resulted in the recent overwhelming popular verdict against Robesonism and for honest government. No matter what party is in power, THE SUN will continue to expose, like a rock in the fairway of the vessel, the ignorance, the venality, the extravagance, the recklessness, and the dishonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that THE SUN is the best newspaper ever published, because it is fearless in conflict with stupidity. Another thinks that it is the best Republican newspaper printed, because it has already whipped half of the rascals out of that party, and is pounding against the other half with undiminished vigor. A third believes it to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice that is current in the world of thought. So every friend of THE SUN discovers one of its many sides that appeals with particular force to his individual liking.

If you already know THE SUN, you will observe that in 1883 it is a little better than ever before. If you do not already know THE SUN, you will find it to be a mirror of all important activity, a storehouse of the choicest products of common sense and imagination, a champion for the cause of honest government, a resistless foe of genuine Jeffersonian Democracy, a scourge for wickedness of every species, and an uncommonly good investment for the coming year.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, post-paid, as follows:

DAILY—65 cents a month; $6.50 a year; with Sunday edition, $7.70.

SUNDAY—Eight pages, $1.20 a year.

WEEKLY—$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequaled merit, market reports, and literary, scientific and domestic intelligence make THE WEEKLY SUN the newspaper for the country household. To clubs of ten with $10, and extra copy free.

from 2 to 7 inches vent, at all prices, from $12 to $75 per thousand.

WE are now prepared to deliver bricks in any part of Talbot county, or anywhere on the water or on railroad out of the county, at 20 *per cent.* under our prices, *for the cash.* We have a heavy stock on hand, of splendid quality, and are determined to demand the lion's share of this section, of unusual season and our promise will do it.

Our stock of Tile is very heavy, and we sell it very low for cash; but we prefer to barter it into account, or trade with farmers, who may want to put in tile, and who may not have the cash, to give them six or nine months credit. The tile ought to go in, and the spring is the time to make productive, and we are willing to help those who are short of money.

We invite a call from all those in want of either brick or Tile.
