Schuyler Colfax on the Germans.

We hear a great deal about the Germans of this State voting for the Mongrel candidate for Governor this Fall. We hope our German friends will think better of it; and we think they will, when they read the following extract from a speech made by the now Vice-President of the United States, Schuyler Colfax, at Vincennes, Indiana, in 1855, when he stood on the Know-Nothing platform. Let every German read carefully the sentiments of this leader of the party they talk of supporting:

* * * "Some tell me that many foreigners are intelligent; yes, intelligent. How, in the name of Almighty God, can they say it? Look at the Dutchman smoking his pipe, and if you can see one ray of intelligence in that dirty, idiot-looking face of his, show it to me! Look at that drunken, bloated Irishman, with his rotgut whiskey bottle in his pocket, and he drunk, swearing, and reeling, and show me in that polluted face any spark of morality, intellect or education. The idea is perfectly absurd; it is preposterous! We must change the laws of the land, and prevent these ignorant, degraded paupers here from voting and holding office. They are a set of unprincipled villains and ruffians, who congregate in and around our large cities and villages, and live by stealing and begging from the Americans. Some tell me they have rights. So they have; the right to live under our laws and till the soil, and do as we bid. They are inferior in intellect and intelligence to the Americans, and they must and shall be put down and kept down, if it has to be done at the point of the bayonet and with powder and lead. There is no use talking mincingly, or of fearing results in regard to the matter. A great cry has went up by old liners about the foreigner being driven away from the polls, and not being allowed to vote. This I suppose is true in many respects. Would you have the American citizen stand back, and let a bloated, red-visaged, drunken brute of an Irishman vote instead of himself? See the wretch as he approaches; his knees knocking, and the slobber of tobacco running down his jaws, and as he comes you hear him "hurrah for Democracy;" and here he comes fresh from the bogs, just one year ago, and wants to vote—and because the boys cry "remove him," and he gets knocked down for his impudence a great cry is made about it by old line demagogues. I say it is right—let them stand back. Again: you see a lop-eared, wide mouth, mullet-headed Dutchman coming up just from some hut in the land of Kraut, with the foam of beer still sticking in his horse tail whiskers, and his breath smelling of garlic and onions, enough to kill a white man at three hundred yards, and before he can say any thing in the world but "Democrat," he must vote, and that vote counts as much as yours or mine. This is outrageous and abominable. These foreigners that have carried elections for old liners will have to learn their places. They have no more right to vote than the brutes of the field and have not the sense of a good Newfoundland dog; and God knows that were I a candidate for any office, I would tell these paupers and vagabonds, these vile, dirty, filthy, degraded, idiotic foreigners, I did not want their votes, and if I ever am a candidate, I hope to God I never will get them."

The Vincennes (Indiana) Sun revives this speech and nails the fact of Colfax's hatred of the whole German population square to the counter.

POOR SOUTH CAROLINA!—Supposing that withering curse, "the Fifteenth Amendment" to have been effectually fastened upon the country, what a horrible condition will the good old State of South Carolina be in! Just for a moment look at it. She has 412,000 nigger population and 291,000 white. Allowing the elective franchise to bear its natural fruits, every white man, woman and child will be under the heels of this nigger horde! The logical results of the Thirteenth, Fourteenth and Fifteenth Amendments are, every office in the State of South Carolina, from Governor down, civil or military, sooner or later, filled by niggers! Can a more terrible state of things be imagined? Refined, educated whites governed by these ignorant, and now brutalized blacks—yesterday their "slaves," to-day, debauched ruined by licentious
