UP AND DOWN THE Eastern Shore

Dr. Cameron Heads Schools

Elkton—Dr. Norman W. Frat House Fire

Chestertown—Fire from a defective floor plug on the third floor of the Theta Kappa Nu fraternity house routed twelve members, including two bedridden with the measles, into the cold night and wrought damage estimated at $1,000. The measles patients took up their abode with President Gilbert W. Meade.

Princess Anne—A full-grown, plump bobwhite crashed through a window in the sun-parlor and fell stunned at the feet of Gordy Parks at his home in Champ near here. Mr. Parks is of the opinion that a hawk was chasing the bird. He brought the partridge to town in proof of his story.

All cars were stock models. The Sunoco products were purchased at a regular Sunoco station and shipped in sealed containers to the mammoth refrigerator at South Bend, Ind. One by one, cars were placed in the cold room, refrigerated, and started without trials or rehearsals. No tricks—no priming—nothing added to the cars but anti-freeze. Supervised by Western Union observer, timers with stop watches clocked the elapsed time between the push on the starter and the firing of the motor.
