perience. The system when once modified by its influence, ever wears its protection. The great number of cases recorded by Jenner and others who have interested themselves with this important subject, in which the vaccine infection had been received, remained unsusceptible to the impression of Small Pox, after a lapse of twenty, forty, and even fifty years, a sufficient proof of its perpetuity. "Persons who have been vaccinated twenty years, resist the contagion of Small Pox, as well as those who have undergone the operation a few years or months before.'—Cazenave.

The protecting power of the vaccine virus, on persons who have been duly subjected to its influence, is not diminished or destroyed by the length of time from its first introduction into the bodies of such persons; and no proportion whatever exists between its efficacy and the recency or remoteness of the time when the constitution was placed under the influence of the virus, "vide Journal of Health." Does the impression of Small Pox on the system wear out, after a certain number of years? Unquestionably it does not. Does the system after being once affected by the contagion of measles, after a certain number of years become again liable to its effects? It assuredly does not. Why then should this anomaly exist with regard to vaccinia? Is it not a disease alike capable of being propagated by inoculation, or in other words a contagious disease, governed by the same laws that govern them? There is a law which governs all contagious diseases, that after having affected the system once, they are ever afterwards incapable of making impressions on it.—It is true idiosyncrasy sometimes defies this general rule. Such cases are extremely rare, and it is a wise provision of Providence which makes them so.

It is urged as an objection against vaccination, that some persons after having been subjected to its influence, nevertheless contracted the Small Pox. There are also incontestable facts to prove that those who have been inoculated, or who have contracted the Small Pox in the natural way, were again attacked by it. I could mention persons, whose names are familiar to some in this town, who having had the Small Pox, were a second time attacked by it. The following is a very uncommon, but well authenticated case. "The mother of six children, was six different times attacked by this disease, contracted by suckling her children, whilst they were under the influence of inoculation. Each time the eruption and eruptive fever were slight but the course of the pustules was that of Small Pox, and the course of the attack, was evidently the inoculated Small Pox, under which the children were laboring."—Thomson, *vid.* Cazenave.

The physician and two of the nurses now attending the Small Pox in the Neck District of this county, where it is raging with great violence, have only been vaccinated (upwards of fifteen years ago) and they have been with the disease, time after time with perfect impunity.

Vaccination is nothing more or less, than Small Pox modified by the system of the cow, as recent experiments in Europe by Dr. Sonderland of Bremen, and others made in this country, prove in the most incontestable manner. In the year 1825 Dr. McPhail of the Medical Staff, U. S. Army, from the close resemblance between the two diseases, was led to institute a series of experiments, which were conclusive. "From a man (a confluent case) who died on the 16th day of the disease, I obtained matter which I introduced into the udders of many cows herded in a pasture near the city of Baltimore (Whetstone-Point.) In several it took effect and from them took matter which proved to be the same as vaccine virus when it was inserted into the human subject, running the same course, and attended by the same phenomena and producing the effects of those described by Jenner, Thomson, Bryce, Willibert and others as being characteristic of cow pock. These experiments were made known at the time to several of my friends and their considerations brought before the Medical Society of Baltimore, and were the subject of a notice before the Royal Academy of Sciences of the Institute of France. Among the persons vaccinated by the matter artificially produced were two children of James Curly (city commissioner.) A farmer of Fontainbleau also succeeded in procuring it from a young fresh milch cow." Baltimore Med. and Serg. Journal, vol. II.

In Germany there is a law which makes it obligatory on all parents to have their children vaccinated at a certain age, and if persons are poor, and unable to pay for it, Government has it done at its expence. The police officers are required to see that the law is carried into full force, a neglect of that important matter is punishable as a high misdemeanour. By such a judicious law the disease has become nearly extinct in that country. A case of Small Pox there is a very rare occurrence. Let us look at Ireland where no precautionary means are used, and see what a pock marked condition her inhabitants present. There is hardly one Irishman in one hundred whose face is not disfigured by the foul marks of that disease. There vaccination is hardly thought of.

This fact of itself speaks volumes. My readers adopt vaccination in your families. It can do you no harm, and you may rest assured it will preserve you from that pestilential and remorseless destroyer—the Small Pox.

PHILANTHOPY.

HON. WM. COST JOHNSON.—In our last (says the Frederick Herald) we notice that Hon. W. C. Johnson was then in N. Orleans. We hear that Mr. J. also received a delicate compliment to his abilities in the shape of a $100,000 fee, for settling an extensive old claim. His visit to New Orleans was no doubt connected with this interesting business.

SPORTSMEN ATTEND.

There will be Sweep stake purse run for on Monday the 7th of July next in Sandy Hill lane near Cambridge—free for all Sir Hampton Colts four years old.—Entrance 25 dollars, subscription list closed on 30th of June. 3 entries already made.

June 28 1845 tr

TO RENT.

The subscriber will rent for the ensuing year or for a term of years, the house and lots where he formerly resided, with a large addition. As a country location it is one of the best medical stands in the State of Maryland. It has a very convenient two story frame house, with every necessary out house in good repair. There is a large garden containing a quantity of choice fruit trees, the ground is layed of in four lotts. As to advantages from the water they are equal to any in the State—all kinds of fish and splendid oysters at your door.

Also, three small farms, about sixty thousand in a field. Call, see, and examine for yourselves.

ROBERT F. TUBMAN.

June 28 1845 3t Dorchester County, Md.

The Baltimore American, Easton Gazette, and Delaware Gazette, Wilmington, will please insert the above three times, weekly and charge this office.

WE are authorized to announce EDWARD LONG Esq. of Somerset County as a candidate to represent this Congressional district in the next Congress of the United States.

June 21, 1845. tf

FOURTH OF JULY.

The sixty ninth anaversary of our national Independence will be celebrated at Church Creek. Exercises to commence at 10 o'clock A. M.

Judge Goldsborough, S. Dexter LeCompte Esq. and others are engaged to address the meeting. The public are respectfully invited to attend.

June 21, 1845.

PROPOSALS FOR THE ERECTION OF A CHURCH IN CAMBRIDGE, —MARYLAND.—

THE subscribers, (a building committee) will receive sealed proposals up to the 15th of July, for the erection of a Methodist Episcopal Church in said town, and let it out to the lowest responcible bidder or bidders; to be commenced and completed as soon as practicable.

Said house to be built of suitable building stone 45 by 60 feet; wall 29 feet high including foundation, 2 1 2 feet thick for the basement story (11 feet) and 2 feet for the remainder; a partition wall 1 foot thick the entire width of the house the hight of the basement.

The basement story will have 10 windows; each 5 feet wide by 6 feet in length; the door of do. will show 8 feet by 15;—The body of the Church will have 12 windows each 5 feet by about 12 in length, and 1 window in do, same as those in basement.

There will be 2 flight of stairs from basement to the body of the church, with 4 1 2 or 5 feet steps, and 2 do into gallery from the body of the church of 4 feet.

A gallery will be erected at the end of the church of about 20 feet in depth. The seating to be plain and neat in the modern stile. There will be 2 ailes each 3 1-2 feet in width, running the length of the church from the vestibule;—The floor and sash all to be of good heart yellow pine. Proposals to include a roof of Zink or of the best cypress shingles.

The whole to be Plastered throughout; and all the wood work well painted. The plastering of the basement will include three rooms and entry. The proposals for plastering should embrace the expenses either of an arch or of a square ceiling.

Proposals will be received for the whole church including all the material and work, or for each branch of the work separately.

We deem it unnecessary to go into further particulars, as the above will be sufficient to give to persons familiar with the subject, a general idea of the character of the proposed building. It is sufficient to say that the whole material must be of the best quality, and the work executed with neatness and durability.

Proposals may be directed to all or either of the undersigned.

Geven under my hand by order of the Board of Commissioners Dorchester County, June 9th 1845.
With a copy of expences Almes House annexed.

WILLIAM REA, Clerk C. D. C.

Alms House, Dorchester county May 10 1845.

TO THE HON. THE COMMISSIONERS OF DORCHESTER COUNTY.

GENTLEMEN:—In Compliance with the late law of the State. We have the Honor of submitting to your Honorable Body a Statement of the expenses of the Institution over which we have presided during our official year ending this day and in submitting this our annual report we have the pleasure of congratulating you and through you the citizens of tho County, upon the flourishing condition of the Institution and the general good health and comfort of those, who are by necessity and advence circumstances, constrained to solicit a portion of the county Alms so generously appropriated by you.

Paid for out Pensioners	
do do Provisions	$748 49
do do Groceries	489 32
do do Clothing, Blankets &c.	93 07
do do Brogans, Women's Shoes &c.	125 14
do do Blacksmith Work	18 74
do do Wages	6 00
do do Medicines	300 90
do do Physician	28 75
do do Repairs	55 00
do do Carrying paupers to Alms House	80 63
do do Waggon	10 00
do do Hogs	45 00
do do Services of Trustees	15 96
do do Over drawn on Late Col. Jno. H. Hodson Esqr.	118 59
do do Services of Clerk	100 00
	20 00
	$2,255 64
Cr.	
By amount of grain sold	142 83
Whole amount of expenditures	$2,112 81

Gentlemen:—You will perceive from the above (if you compare this, with our last account) that our expenditures have somewhat increased but if you compare the different items, you will see that the increase has been entirely for incidental expences such as repairing waggon, Hogs &c &c. We have now in the hands of the present Collector the sum of $1256 85, which is not as much as we had last year by upwards of a hundred dollars. We do not think that the institution can be carried on successively with a less sum than $2000,00 in addition to the surplus now on hand. We therefore ask you to levy the sum of $2000,00 for the use of the poor of the County for the ensuing year.

By order of the Board of Trustees

JOHN F. H. VINCENT, Clerk.

June 21 1845. 3w

LAND FOR SALE.

BY virtue of competent authority I will expose to public sale on *FRIDAY the 11th day of JULY* next, if fair, if not the next fair day, at the Store of John W. Traverse on Taylors Island, all that tract or parcel of land called "PLEASANT GROVE," containing 109 acres. The said land is situated on Taylors Island, was formerly owned and occupied by Mace Barnes, & more recently by Henry Barnes.—The buildings and farm intolerable good repair. The above tract will be sold free of any incumbrance of dower.

I will sell at the same time and place all that tract of land formerly occupied by Moses Simmons, on which he formerly resided, situated on Taylors Island, in Hooper's neck, and containing about 20 acres. The above tract of land is beautifully situated on the Little Choptank River, has a dwelling house and kitchen in good order, and enough woodland for all the purposes of the farm. A long credit will be given on each of the above farms if the purchase money is well secured.

SAMUEL DUNNOCK.

June 21 1845 tf

IN CHANCERY, 12th June 1845.

ORDERED that the sale of the Real Estate of Peter Corkran deceased, made and reported by the Trustee Joseph R. Eccleston be ratified and confirmed unless cause be shewn to the contrary on or before the 21st day of August next, provided a copy of this order be published in some Newspaper in Dorchester county once in each of three successive weeks before the 21st day of July next.

The Report states the amount of Sales to be $806,00.

DORCHESTER WHIG CONVENTION.

PRIMARY MEETINGS.

THE whigs of Dorchester County are requested to assemble at the usual places of holding elections in each election district in the county on *Saturday the 12 day of July*, next for the purpose of electing five suitable persons from each district to represent them in general convention to be held in Cambridge on *Monday 21st day of said month*, to nominate four candidates for the House of Delegates, a candidate for the Sheriffalty, and two candidates for the office of county commissioners for the 3rd commissioners district.

THOMPSON'S VEGETABLE WORM SYRUP,

PREPARED BY

DOCTOR A. C. THOMPSON,

CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion, Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food; hence Worms are most common to children, although many grown persons are subject to them, I have known persons of advanced age to have them.

It is well known to the Medical profession, that many diseases are brought on, and continued by reason of Worms, and many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with a remedy that will be certain to expel them.

It is often a difficult matter to expel worms, from children, although numerous remedies have been recommended, and used for that purpose, yet there are articles if properly combined, and judiciously used, will seldom fail in accomplishing the object.

In consequence of my frequent failures in 30 years practice to expel worms from children, with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable Extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in alluding in no measured terms of praise to the Vermifuge properties of the compound; which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the pretean complications so often manifested in Verminose irritation, will seldom disappoint us in our most sanguine expectations.

Very respectfully yours,
THOS. HY. HANDY, M. D.

CAMBRIDGE, April 26, 1845.

My Dear Sir,

I believe that your "*Preparation for Worms,*" will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM L. WINGATE, M. D.

THOMPSON'S VEGETABLE ANTI-BILIOUS PILLS,

PREPARED BY

A. C. THOMPSON, M. D.

Cambridge, Md.

As Dr. Thomas justly observes "it is impossible to give a concise and proper definition of the disease known by the name of Fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers, act directly or indirectly on the Liver, all febrile diseases partake more or less of a bilious character, whether of the intermittant, remittant or continued type; hence the frequency of those cases, where the Viscery Glands and membranes are attacked, and put in all the various forms of Rheumatic, and inflammatory affections, so often met with in districts of country where bilious diseases prevail.

Therefore to repel these complicated varieties of disease, depending on a derangement of the Liver. I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, and efficient, and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically-arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the system—and may be used in all cases where purging is necessary.

And in the following diseases in particular.

Bilious Ague, Inflamatory and nervous Fevers; all affections of the liver, Bilious Cholic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or Fits, Rheumatism, Pleurisy, dysentery, foul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the Eastern Shore of Maryland, he deems them entirely unnecessary, as the medicine will recommend itself in every family where it may be used, and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti-bilious Pills, to give them a character. Nor does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommended them to all who may stand in need of medicine.

HEMSLEY'S WORM DESTROYING —SYRUP.—

PREPARED & SOLD, BY R. F. HEMSLEY, EASTON MD., AND BY HEMSLEY & BEERS *Forty Seven, Ann Street New York.*

AS a safe and certain cure for worms it is believed that *this preparation, stands unrivalled* among the various anthelmintic remedies which have been offered to the Public. Its reputation is already sufficiently established, and it is not therefore our object at this late period to indulge in any ostentatious boasting for the purpose of effect. The testimony of the Faculty of Medicine, and the numerous certificates afforded from highly respectable private sources, place its character as a remidial agent for the expulsion of worms beyond the reach of controversy or even doubt. It has even claimed and asks none but a fair trial of its virtues, and we add desires thereafter no fictious props to bolster up its success. This is no quack Medicine, but has been and continues to be prescribed by many of the most distinguished medical gentlemen of our country.

For sale by W. F. RUDENSTEIN, Cambridge.

WM. W. LECOMPTE Esq., Justice of the Peace, besides attending to all business immediately connected with his office, will draw Deeds, Bills of Sale, Mortgages, Insolvent papers, Bonds &c. His office is immediately opposite the Residence of Thomas White.

May 10, 1845.

$50,000 REWARD.

I wish to purchase any number of Slaves from eight to forty years of age with good titles. As I am buying for the New Orleans market and not for speculation in this State owners of slaves will find it to their advantage to see me before they sell, as I will give the highest cash prices. I can at all times be found in Cambridge as I have taken up my residence here. All communications addressed to me through the post office will be attended to without delay.

CHARLES WILLIGMAN.

HENRY W. COOKE.
of the late firm of Flint Cooke & Co., corner of Hanover & Lombard street, BALTIMORE.
May 31 1845, tf

FRCIS. GUERAND from Paris, has been established as a *French dyer* for the last ten years in Baltimore; the success he has met with in his business as well as in the esteemed confidence of the public generally, has enabled him to make great improvements in his establishment and thereby extend his business proportionably. He therefore respectfully solicits the patronage of the Ladies and Gentlemen of Cambridge and vicinity who will be kind enough to leave their orders with Mr. Francis J. Henry, who will faithfully transmit them to F. G. to be executed in the shortest possible time.

All kinds of woolen, silk and cotton goods dyed to any colors. F. G. also cleans and removes stains on Merino and Silk dresses, cashemere and crape shawls, all returned equal to new, guaranteeing that the whole of his dyes shall be so finished that none of the colors shall rub off or soil any clothing with which they come in contact.
