AS AN evidence of the value of the TRANSCRIPT as an advertising medium and the confidence of our merchants in the paper as a producer of results, we refer you to our advertising columns this morning. The paper contains ten pages of matter, comprising 60 columns of advertising matter and ten columns of good local news. This is a record breaker and shows the value of the paper to our merchants.

IT IS a mighty good thing those people in Baltimore city gave those Western and Southern Governors a taste of canvasback duck and terrapin. That clinched their preference for Baltimore as *the* place for holding the next National Democratic Convention.

THE nominee for the presidency of the United States should be determined by a popular primary. That is to say, the people should have the same right to vote for their choice for president as they have now for their choice for United States Senator. This plan has been determined upon by several of the States of the Union and it is hoped that Maryland will adopt the preference primary.

THE INTERESTS of our merchants is the first thing to be considered in the permanent location of the hitching posts. When the interests of the merchants are considered, the buyer is also considered, because in this respect their interests are mutual. There has been a great deal of complaint on the part of the country people about the inconvenience of the location of the hitching posts, and we are afraid the interests of the merchants have suffered somewhat. We are quite sure that the commissioners have the interests of all concerned in town improvement at heart, and they will do what they think is best. We would suggest, however, that before they decide to make a paddock of the little square in front of Lofland & Culp's store, they consult the wishes of the Ladies' Town Improvement Association.

GOVERNOR CROTHERS' "first instalment" of his message shows the State's finances to be in excellent shape. The recent assessment of property has added about $125,000,000 to the taxable basis and unless there is a great waste of the people's money by the next Legislature, the State tax rate should be materially reduced. We urge economy on the part of the next Legislature in order that the State tax rate may be reduced.
