MARRIED,

On Thursday evening last, by the Rev. James A. McKenney, DANIEL MANYDIER son of John C. Henry, esq. of Hambrooks, to HENRIETTA MARIA, youngest daughter of the late Hon. Charles Goldsborough, of Shoal Creek.

☞We had the pleasure of witnessing the interesting ceremony, and looking upon the lovely bride (to say nothing of the groom) when she plighted her troth, and joined in the general prayer as it ascended to heaven for their prosperity and happiness. The above notice was accompanied with none of your meagre slices, but with a waiter of splendid Bride's cake, for which we (Editor, Printers and Devil) desire them to receive our thanks and best wishes. We have a great mind to say that we will not publish any more marriage notices without a waiter full of cake.

SMUT MACHINE.

The subscriber has, at an expense of over $100, attached a Smut Machine to the Lower Cabin Creek Mills, belonging to T. K. Smith, esq. This machine is from the house of Kirk & Johnson, Wilmington, Del. and is an admirable cleanser of wheat. It takes out some garlic, much of the darnel or cheat, smut, dirt, dust, white-cap, &c, and with but little waste of the grain, will clean wheat better than many fannings.—Although the customer gets purer and whiter flour without any charge, yet the miller has considerable extra trouble, and the tax on the water power is such that it will be a considerable draw back upon his profits in dry weather. The public are invited to make a trial of it. The public's obt. serv't.

THOMPSON'S
VEGETABLE WORM SYRUP,
PREPARED BY
DOCTOR A. C. THOMPSON,
CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion, Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food; hence Worms are most common to children, although many grown persons are subject to them. I have known persons to advanced age to have them.

It is well known to the Medical profession, that many diseases are brought on, and continued by reason of Worms, and many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with a remedy that will be certain to expel them.

It is often a difficult matter to expel worms, from children, although numerous remedies have been recommended, and used for that purpose, yet there are articles if properly combined, and judiciously used, will seldom fail in accomplishing the object.

In consequence of my frequent failures in 30 years practice to expel worms from children, with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable Extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in alluding in no measured terms of praise to the Vermifuge properties of the compound; which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the preteen complications so often manifested in Vermi nose irritation, will seldom disappoint us in our most sanguine expectations.

Very respectfully yours,
THOS. HY. HANDY, M. D.

CAMBRIDGE, April 26, 1845.

My Dear Sir,

I believe that your "*Preparation for Worms,*" will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM L. WINGATE, M. D.

THOMPSON'S
VEGETABLE ANT-BILIOUS PILLS,
PREPARED BY
A. C. THOMPSON, M. D.
Cambridge, Md.

As Dr. Thomas justly observes "it is impossible to give a concise and proper definition of the disease known by the name of Fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers, act directly or indirectly on the Liver, all febrile diseases partake more or less of a bilious character, whether of the intermittant, remittant or continued type; hence the frequency of those cases, where the Viscery Glands and membranes are attacked, and put in all the various forms of Rheumatic, and inflammatory affections, so often met with in districts of country where bilious diseases prevail.

Therefore to repel these complicated varieties of disease, depending on a derangement of the Liver, I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, and efficient, and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the system—and may be used in all cases where purging is necessary.

And in the following diseases in particular.

Bilious Ague, Inflamatory and nervous Fevers; all affections of the liver, Bilious Cholic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or Fits, Rheumatism, Pleurisy, dysentery, foul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the Eastern Shore of Maryland, he deems them entirely unnecessary, as the medicine will recommend itself in every family where it may be used, and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti-bilious Pills, to give them a character. Nor does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommended them to all who may stand in need of medicine.

THE MUTUAL FIRE AND MARINE INSURANCE COMPANY OF BALTIMORE,

(INCORPORATED BY THE LEGISLATURE OF MARYLAND AT THEIR LAST SESSION,)

Having been organized according to the provisions of its Charter, is now prepared to take

FIRE, MARINE AND INLAND RISKS,

On terms as favorable as any Institution in the United States, at their office, corner of Gay and Lombard Streets, up stairs.

DIRECTORS.

COLUMBUS O'DONNELL, Esq.
RICHARD NORRIS Esq.
B. H. RICHARDSON, Esq.
JNO. D. EARLY, Esq.
WM. LONEY, Esq.
JAS. HARWOOD, Esq.
ALPHEUS HYATT, Esq.
RICHARD NORRIS, Esq., *President.*
JNO. S. LAFITTE, *Secretary.*

The Board avail themselves of this opportunity to draw the attention of the Public to some of the important features of their Charter:

1st. In this Company, all interests are equal; there is no privileged stock.

2d. Persons effecting insurance are not answerable for losses beyond the amount of premiums paid by them; and will divide amongst themselves annually the nett profits.

3d The capital of the Company is limited to half a million of dollars, and at the expiration of the Charter, that sum is to be divided pro rata amongst all persons holding the Policies of the Company, without reference to the time when they were issued, or to the fact of their having expired.

4. In the selection of persons to act as Directors of this Company, there can be felt none of that *proxy* influence which has destroyed, or weakened some of our strongest corporations; with us, the direction of the affairs of the Company *must* be in the hands of those most deeply interested in its proper and prosperous management.

5th. Any Policy holder has the right and the privilege of looking at the monthly statement of its affairs.

6th. Persons insuring in this Company, upon a renewal of their risks, are entitled to a deduction of 5 per cent. on the amount of premiums.

☞Our Tariff of rates has been carefully revised and the form of our Policies has been amended under the best legal advice, so as to embrace all the modern improvements suggested by Experience. The classification of the Fire Risks, as well as the direction given to represent them in the applications are so modified as to avoid all doubt and ambiguity, and with a view to avoid all possible difficulties in the settlement of losses.

I have accepted the agency of the above Company, and persons desirous of Insuring their Property will find me at all times at my store, where I will receive their proposals, give the necessary information, and have their Insurance effected as soon as returns can be had from the office at Baltimore.

THOS. HAYWARD, agent.
