CITZENS & TRAVELLERS.

THE subscriber has taken charge of the Hotel lately occupied by Wm. H. Yates, Esq. where the travelling community, as well as the citizens of Dorchester have been so agreeably entertained. It a table furnished with all the luxuries of the season, honest, and pol servants; hambers and bedding clean and comfortable, stables in good order and ostlers always at hand; a short, if a quiet, comfortable and orderly house can offer any inducement to the community, he flatters himself that his exertions to please will not be unrequited by a generous public. His wish is, to make the interest as well as the pleasure of the public to bestow upon him a share of their patronage.

He intends always to keep in readiness, carriages and horses, by which he will be enabled to convey persons to any part of the peninsula on moderate terms.

SMUT MACHINE.

The subscriber has, at an expense of over $100, attached a Smut Machine to the Lower Cabin Creek Mills, belonging to T. K. Smith, esq. This machine is from the house of Kirk & Johnson, Wilmington, Del. and is an admirable cleanser of wheat. It takes out some garlic, much of the darnel or cheat, smut, dirt, dust, white-cap, &c, and with but little waste of the grain, will clean wheat better than many fannings.—Although the customer gets purer and whiter flour without any charge, yet the miller has considerable extra trouble, and the tax on the water power is such that it will be a considerable draw back upon his profits in dry weather. The public are invited to make a trial of it. The public's obt. serv't.

NOTICE.

The subscriber is again under the painful necessity of warning all persons from hunting with dog or gun on any part of his farm, Glascow, on the main road leading from Cambridge to Eldy Hill, which is about one third of the entire tract, leaving about two thirds, to their entire pleasure to hunt and gun all they please, until further notice. Parents will please caution their sons, and others to be so kind, as to leave one third, as above named, unmolested, as myself and family are in danger of being shot, which has occurred three times, not further back than this very day—on walking to the door, I discovered a boy in the act of leveling his gun at a bird in a direct line with my two little daughters and servant on the opposite side of the yard.

All persons neglecting the above notice, I shall certainly extend the full extent of the law, without respect to persons.

THOMPSON'S
VEGETABLE WORM SYRUP,

PREPARED BY
DOCTOR A. C. THOMPSON,
CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion. Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food; hence Worms are most common to children, although many grown persons are subject to them. I have known persons to advantage to have them [illegible]

It is [illegible] to the medical profession, that many [illegible] have been brought on, and continued by reason of [illegible] and many children die annually in consequence [illegible] being timely expelled from them. [illegible] comes a subject of great importance, [illegible] they do exist, and to be prepared with a [illegible] certain to expel them.

It is [illegible] better to expel worms, from children [illegible] remedies have been resorted [illegible] that purpose; yet there are [illegible] and judiciously used, will seldom [illegible] the object.

In consequence [illegible] quent failures in 30 years practice [illegible] children, with the remedies [illegible] have been induced to prepare a remedy which I have but seldom failed. [illegible] the cause of humanity and to be instrumental in saving the lives of many children, I offer [illegible] public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable Extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in alluding in no measured terms of praise to [illegible] vermifuge properties of the compound; which I [illegible] at pleasure in recommending as an [illegible] anthelmintic, which if properly [illegible] can complications so often manifest [illegible] tion, will seldom disappoint us [illegible] expectations.

[illegible] respectfully yours,
HY. HANDY, M. D.

[illegible] BRIDGE, April 26, 1845.

My D[illegible]

I [illegible] *reparation for Worms,*" will give [illegible] —being an excellent combination [illegible] anthelmintics.

Yours very truly,

I c[illegible] in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM L. WINGATE, M. D.

THOMPSON'S
VEGETABLE
ANTI-BILIOUS PILLS,

PREPARED BY
A. C. THOMPSON, M. D.
Cambridge, Md.

As Dr. Thomas justly observes "it is impossible to give a concise and proper definition of the disease known by the name of fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers, act directly or indirectly on the Liver, and bilious diseases partake more or less of a bilious character, whether of the intermittant, remittant or continued type; hence the frequency of those cases, where the Viscera, Glands and membranes are attacked, as input in all the various forms of Rheumatic, and inflammatory affections, so often met with in districts of country where bilious diseases prevail.

Therefore to repel these complicated varieties of disease, depending on a derangement of the Liver, I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, and efficient, and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases arising from a redundancy or a deficiency of bile in the system—and may be used in all cases where purging is necessary.

And in the following diseases in particular.

Bilious Ague, Inflammatory and nervous Fevers; all affections of the liver, Bilious Colic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or Fits, Rheumatism, Pleurisy, dyspepsy, foul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the Eastern Shore of Maryland, he seems to them entirely unnecessary, as the medicine will recommend itself in every family where it may be used and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti bilious Pills, to give them a character. Nor does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommend them to all who may stand in need of medicine.

RICHARD NORRIS, Esq., *President.*
JNO. S. LAFITTE, *Secretary.*

The Board avail themselves of this opportunity to draw the attention of the Public to some of the important features of their Charter:

1st. In this Company, all interests are equal; there is no privileged stock.

2d. Persons effecting insurance are not answerable for losses beyond the amount of premiums paid by them; and will divide amongst themselves annually the nett profits.

3d The capital of the Company is limited to half a million of dollars, and at the expiration of the Charter, that sum is to be divided pro rata amongst all persons holding the Policies of the Company, without reference to the time when they were issued, or to the fact of their having expired.

4. In the selection of persons to act as Directors of this Company, there can be left none of that *proxy* influence which has destroyed, or weakened some of our strongest corporations; with us, the direction of the affairs of the Company *must* be in the hands of those most deeply interested in its proper and prosperous management.

5th. Any Policy holder has the right and the privilege of looking at the monthly statement of its affairs.

6th. Persons insuring in this Company, upon a renewal of their risks, are entitled to a deduction of 5 per cent on the amount of premiums.

☞ Our Tariff of rates has been carefully revised and the form of our Policies has been amended under the best legal advice, so as to embrace all the modern improvements suggested by Experience. The classification of the Fire Risks, as well as the direction given to represent them in the applications are so modified as to avoid all doubt and ambiguity, and with a view to avoid all possible difficulties in the settlement of losses.

I have accepted the agency of the above Company, and persons desirous of insuring their Property will find me at all times at my store, where I will receive their proposals, give the necessary information, and have their insurance effected as soon as returns can be had from the office in Baltimore.

THOS. HAYWARD, Agent
