The Transcript

R.H.COLLINS, T.D.BOWERS
EDITORS.

James H. Preston, mayor of Baltimore; Cy Cummings, of Montgomery county, and others will speak at Rock Hall this (Saturday) evening, July 31, at 8 o'clock.

VERY frequently it is not so much what a man does as what he fails to do that puts him in bad with the people.

THE nomination of William W. Beck for the State Senate means another six years of Gibbs and Gibbsism. Beck is tied hand and foot to Gibbs and can't get away from him if he tried for years.

JAMES ELWOOD MORRIS is the people's candidate for State Senator. He is a plain man of excellent character, and will make a most capable representative for the farmers and business interests of the county in the Senate.

THERE will be a big mass meeting at Rock Hall to-night. Mayor Preston, of Baltimore, and Mr. Cy. Cummings, of Montgomery county, and others will make addresses. This will be a great meeting. Go out and hear the issues.

JUDGES Constable, Adkins and Hopper, in the Caroline Court at Denton this week sentenced "Aris" Sheppard, colored, to be hanged for feloniously assaulting a little girl in that county several weeks ago. The date for the hanging will be shortly set by Governor Goldsborough.

GOV. GOLDSBOROUHG announced on Thursday that he would not be a candidate for renomination for Governor. The Governor's decision is in accordance with the advice of his closest friends. This leaves Chairman E. O. Weller and Mr. Wm. T. Warburton as the contestants in the Republican camp.

MR. HARRINGTON'S statement that he favors the strictest economy in the conduct of the S ate's business reminds us of the old story of "locking the stable door after the horse has gone." $1,500,000 got away from the State treasury under Mr. Harrington's leadership in the last Legislature, and now he favors ocking the door.

OME on now boys, don't get excited. Barroll is not abusing anybody. He nply telling the people the plain rnished truth, and if it hurts, take medicine, don't endeavor to play aby act and call the truth abuse. back at him with counter argu- if you have any, but don't stop Mr. Barroll a boss. Keep that up, for it is doing the Antis a ful lot of good.

ENATOR John Walter Smith had ab- te control of the last Legislature manipulated things to suit himself ough his candidate for Governor, Mr. herson C. Harrington. Were the af- fairs of the last Legislature conducted in the interests of the tax-payers? That is the question for every voter in this State to settle, and if you study the situation as you should, you cannot fail to see that your financial welfare received no consideration whatever.

THE candidacy of L. Wethered Barroll, Esq., for State's Attorney has certainly put ginger in the Antis, and salt on the poor old Possums. Mr. Barroll's candidacy is appealing to all classes of voters because they regard him as a man eminently qualified for the position, and they believe he will administer the duties of the office in a fair and impartial manner. He is making a most aggressive campaign, and will be nominated beyond a doubt.

OUT in the counties Congressman Davey Lewis is telling the people that the representatives of Baltimore city in the Maryland Legislature should be kept down, and that the danger of Baltimore city controlling the counties is very serious. Over in Baltimore city when Harrington speaks he says he and the Legislature will be perfectly fair to Baltimore city. Now, who's fibbing? Somebody's doing a lot of joshing, and it looks mighty like Lewis is as bad as Harrington.

FOOLISH QUESTIONS.

The questions asked by Mr. Emerson C. Harrington in his Baltimore speech on Wednesday night have about as much to do with this campaign as what kind of apples grow on the Fiji Islands. Let Mr. Harrington tell the people of this State why David J. Lewis has left the friends of President Wilson in this campaign with whom he has always been allied, and is parading the State with Mr. McMullen in the interest of the John Walter Smith ticket. Don't everybody believe that Lewis has been promised the U. S. Senatorship by the Smith people. And let Mr. Harrington tell the people of this State why he and his friends are so interested in President Wilson at this time when they did everything in their power to prevent his nomination, and if they control the State machinery, they will turn the State delegation in the national convention over to any one but Wilson. Let Senator Smith agree to loosen the shackles that bind his federal and State appointees and see what happens. Senator Lee is quitting the Senate because the Progressive Democrats of Maryland who regard him as their leader want him for Governor, and because they *know* that if Lee is elected Governor the delegation to the National Convention from Maryland will be for Wilson to the last ditch. If Senator Lee had staid in the Senate and been a candidate for re-election, not a man of those who are now asking why he does not remain in the Senate to uphold the hands of the President, would have voted for him. Don't worry about upholding the hands of the President. Senator Lee is doing that in the best possible way by seeking the governorship, and Dave Lewis is the man to condemn for deserting the President at this critical moment.

A WORD TO THE "SPLIT" VOTER.

We advise the voter who intends to "split" his ticket in his primaries to be very careful how he makes his selection for he may do his financial interests very great harm. If he wants to vote in the interest of all the people he should vote for the Anti-Organization legislative ticket—J. Elwood Morris, James G. Harris and Jefferson D. Ayres, and for the Anti-Organization candidates for County Commissioners—Thos. J. Dunn, W. Fletcher Melvin and Harry Nicols. The one great reason that county expenses have been piled so high during the past four years is because the Kent representatives in the legislature have been out of sympathy with the Board of County Commissioners, and they have sought to embarrass the County Commissioners by the passage of laws that have taken thousands of dollars out of the pockets of the tax-payers. Any observer of conditions knows that is so. Now, then, Mr. Voter, if you propose to split your ticket in the primaries, we take it for granted that by so doing you are considering your own interests. Public business often actuates a man to "split" his ticket because he has friends on both sides. We doubt very seriously the merit of a position like this, because a business man may gain a few dollars in trade, only to put them back into constantly increasing county expenses. When the average business man in Chestertown considers the fact that his tax rate is $1.92½, only 2½ cents less than Baltimore city, and with every prospect of an increase next year, what in the world should govern his split ticket except the principle of self-interest? If a vote for the Anti commissioners and the Organization legislative ticket costs me a tax rate of $1.92½, it is mighty dear friendship for me, when I could combine the Anti commissioners and legislative ticket and save money. We urge the man who is going to split his ticket to think seriously about this matter. The bitter experience of the past four years should certainly have convinced the voters by this time of the folly of returning those persons to power who have been responsible for such waste of the people's money. And if friendship is going to actuate your voting, take the course that will be to your financial interest while satisfying your friendly inclinations.

Proposals for Coal.

Bids will be received at the office of the County Commissioners of Kent county until 11 o'clock A. M., AUGUST 10th, 1915, to furnish coal as follows for use of Almshouse, Court House and Jail:

40 Tons Stove Coal, for Almshouse, and 35 Tons Egg Coal, 20 Tons Nut Coal for Court House and Jail,

with the privilege of more of either upon order of the commissioners, same to be delivered in house at the commissioners order. The commissioners reserve the right to reject any and all bids.

By order of Board,
W. FLETCHER MELVIN, Pres't;
THOMAS C. ROE,
T. BENJ. CREW,
HARRY NICHOLS,
CHAS. D. WOOD,
Commissioners.
SAMUEL HICKS, Clerk. jy30-2t

BAYSIDE INN, BETTERTON, MD.

TYPHOID FEVER

HOW TO PREVENT ITS SPREAD

ISSUED BY THE

State Board of Health

OF MARYLAND.

When TYPHOID FEVER appears in a family the source of the infection must be looked for in drinking water or food taken within the preceding twenty days. The patient may not have been infected at home, but if a second case occurs this second infection will in all probability be traceable to the first patient. In a majority of instances the drinking water has become infected. Your first business, therefore, is to find out the quality of your drinking water.

You can do this by asking your local health officer for instructions about shipping us samples of your drinking water. *The daily supply of drinking water should be boiled.*

The infectious material of typhoid fever is produced in but one way. It grows always in the bowels and sometimes in the bladder. It, therefore, escapes from the sick person in the stools and urine. If we kill the germs in the stools and urine as soon as they are passed, there can be no spread of typhoid fever. These discharges should, therefore, be disinfected as soon as possible. You will need a large quantity of a good disinfecting solution.

RECEIPT FOR A GOOD DISINFECTANT.

To four gallons of water add enough salt to make a strong brine. Put this in a five gallon demijohn or jug and add a quart of crude carbolic acid. Shake it up well and you will have a good disinfectant for stools and urine.

The crude carbolic acid, known as U. S. P. 90 per cent., is very good, and a quart will cost about 50 cents. There is a cheaper grade, known as a 86 per cent. acid, which is nearly as affective.

About a pint of this solution should be put in the chamber or bed pan before it is used, so that the discharges will begin to be disinfected as soon as they leave the body. There must always be at least as much of the disinfecting solution as there is of the discharges, so that more of the disinfecting solution may need to be added after the discharges are passed. If the stools are thin and watery their disinfection will be accomplished in half an hour or so, but if the stools are thick or formed very much more time will be required. On that account it is best to have a covered jar or bucket into which the bed pan can be emptied, and to empty this jar only once in 24 hours. If the discharges cannot be finally thrown into a sewer, they should be buried in the soil at a convenient spot where there is no chance of their fouling a water supply. The discharges should never be thrown on the surface of the ground, for you will hardly be successful in killing all the typhoid bacilli, and you must not place them where those not killed by the acid may be blown about in the dust or carried away by flies to infect other people.

In spite of every precaution, those who wait on the sick person will get their hands infected, and it is, therefore, necessary to wash the hands every time one does any service about the patient's bed or body. Whoever waits on the patient must not prepare food or drink for other persons in the house, or if it is impossible to mind this rule one must most carefully and thoroughly cleanse the hands before performing any household duty outside the sick room. Good scrubbing with soap, water and a brush, and then rinsing well in fresh water will suffice for cleansing the hands.

If anyone else in the house falls sick within two weeks after the first patient, the probability is that the infection was lodged before the precautions were taken in regard to drinking water and the disposal of discharges. But if the second case occurs more than 20 days after the first case that will signify that we have made a mistake somewhere in our precautions.
