Returns his sincere acknowledgments to his friends and the public for the liberal patronage he received in the University Lottery, 3rd class, New Series, and respectfully solicits a continuance of it in the *Fourth Class*, the scheme of which he has now the honour of offering to them and the public. This lottery is also formed upon pure mathematical principles, as was the third class, and he hopes and trusts that all are so perfectly satisfied with the correctness of this mode, that it will meet with all that attention from adventurers which it merits; he fearlessly, but with due deference, invites all to a scrutiny of the scheme, certain of its pleasing them by the small number and low price of tickets therein, the rapidity of the drawing, and the very short period to elapse before its determination. Larger and more brilliant schemes on this plan will be adopted, as the demand for tickets in this kind of lottery shall increase.
