We insert in to days paper, the communication of "One of the People." Although a political adversary of ours, yet our paper is open to him. The subject of which he treats, is not necessarily or properly connected with party politics, but assumes a higher ground, and is one of vast importance to the people, not only as it has reference to the present generation but in its future operations. It is one therefore requiring the grave consideration of the people of all parties,—Nor should they, in making up their minds upon it, decide hastily or from temporary motives. We think the manner in which our correspondent has called the attention of the public to it, cannot be objected to. We are ourselves of course in favor of the general dissemination of education, and desire to see every man's children instructed. The only question is, as regards the best and least expensive mode of affecting this. As to the practical operation of the present plan in this county, the information sought by "One of the People," when obtained, will throw light upon the subject. The people should be prepared to act deliberately and understandingly upon so weighty a question.

The returns from the Rhode Island election show that, although the Whigs have elected the two Congressmen there by a majority of between 2 and 300, their party has fallen off in strength of upwards of 700 votes. At the Congressional election before the last, the Whigs had a majority of more than 1,000; now they have elected their candidates by the small majority of 250. If the Whigs go on losing in this way, by the next Presidential election the Democrats will be be prepared to take possession of the little State of Rhode Island sending two representatives to Congress. So go the times.

We observe that ALEXANDER DONOHO, Esq. is announced as a candidate for Congress in this District.

Laying the Corner Stone.—We have learned that the committee of arrangements for laying the corner stone of the North Point Monument, have given invitations, which have been accepted, to the Rev. Dr. Johns to offer the prayer, and Gen. B. C. Howard to deliver the address on that occasion, on the 12th of September inst.

Health of Mobile.—On the 20th ult. the report of the board of health showed 12 cases of yellow fever, as having occurred on that and the preceding days. On the 21st, three additional cases The Commercial Register of the latter date, says "the city hospital is at this minute more free from diseases, than it has been during the season."

Health of New Orleans.—Accounts to the 21st show an increase in the number and fatality of the cases of yellow fever. Out of 54, brought into the hospital on the 18th and 19th, 42 were cases of fever, 22 of which proved fatal. On the 20th, 23 new cases were admitted to the hospital.

SENTENCE OF DYOTT.—The sentence against Dr. Dyott, the famous Banker of Philadelphia, was pronounced on Saturday last. The sentence was three years confinement in the cells of the Eastern Penitentiary, at hard labor. One of the Judges stated that he was in favor of five years. The prisoner is seventy years of age.

If certain persons in this community had justice meted out to them, they would be placed in a similar condition.—Balt. Rep.

A HOLE IN THE MOON!—"Bless my stars!" said a blue Whiggey, who had taken a glass too much of the O B joyful, as he stood leaning against a lamp post, gazing at the moon "bless my stars! if ther aint a hole in the moon, then I'm a frog! Well, it's owin to the Sub Treasury scheme, that's a fact—and if that destructive thing operates a little longer, we shan't have any moon, and shall have to go home in the dark; that's too bad—I've got the *rumatiz* so I can't but jis stand now, and when the moon's gone I shall be in a poor fix. Them Loco Fokers is the worst fellers ever I seed, to distress one that's so unwell as I is." [Here the "*rumatiz*" had such an effect upon the whig that he tumbled into the ditch, and was immediately surrounded by total darkness, owing to the "hole in the moon."]

Can't be got off.—The Albany Microscope says that the "Wild Cat" money is so infernal bad in Michigan, that the military refused to take it for wadding on the Fourth, for fear their muskets would not *go off*.

DROWNED MAN.

MR. EDITOR:—On Tuesday, the 3d inst., I discovered a drowned man who had drifted upon my shore, probably, the preceding night; from his appearance he must have been drowned several weeks; his hair was all gone, and his face dreadfully mangled and disfigured; he appeared to be about five feet high, and had on, when taken out of the water, a blue cloth roundabout and summer-cloth pantaloons. If, sir, you think from this imperfect description (the best I can give you) the cause of humanity may be served by its publication, so as to identify the deceased, you will oblige me by inserting it in your paper.

DIED,

At Reed's Grove, near Vienna, on Thursday the 28th of August, Mrs. ANN, consort of the late William Sherman after a short but severe illness, in the 58th year of her age, leaving a large circle of relations and friends to mourn their irreparable loss. Yet they mourn not without a hope.

Departed this life, in Tallahasse, Fl., on Saturday the 17th of August, Mr. THOMAS B. LOCKERMAN, formerly a resident of this place, in the 24th year of his age.

In his disposition he was kind, generous, and amiable; in his attachments, firm as he was sincere. Farewell, my friend; if virtue

VALUABLE LAND
FOR SALE.

THE subscriber will offer at public sale, on *MONDAY, the 23d. of SEPTEMBER* next, between the hours of 11 and 12, at the Court House door, in the Town of Cambridge, all that tract or parcel of land, which lies on the main road, leading from Cambridge to Bucktown, and adjoining the lands which belonged to Levi Brown, containing about one hundred and fifty acres—about twenty acres of which are in cultivation, the residue covered with excellent timber, suitable for building vessels, or cord wood, about 2 miles from navigable water, with a good road leading to a first rate landing. The whole will be offered, but if desired, the above tract will be sold in fifty acre lots. The title is indisputable.

The terms of sale are one third cash on the day of sale, the residue in equal instalments, upon a credit of six and twelve months, bearing interest from sale, to be secured by obligation, with security acceptable to the subscriber.

LAND FOR SALE.
608 *Acres.*

THE subscriber will sell all that valuable tract of Land in Caroline county, Maryland, whereon he resides, containing 608 acres; about 250 acres heavily timbered, consisting mostly of Black Oak, and is certainly one of the best timbered Farms on the Eastern Shore, and within 2 1-2 miles of Choptank river, five miles from Denton, and the same distance from Greensborugh. There is a Saw Mill within half a mile of the premises, Grist Mills convenient in the neighborhood. This property is adjoining the lands of Mr. Thomas S. Carter, W. F. Chilton, J. Saulsbury and others.

This valuable tract of land is divided into two Farms, on what is known as the Home farm, there are all necessary buildings in good repair. The dwelling is a one story, with two rooms below and above, kitchen, granary, two corn cribs, carriage house, cart and plough house, and upper granery 30 by 20 feet; a good well of water in the yard, with a new frame all complete, settled this season. The small farm has a small frame dwelling, one story, 24 by 18 feet in good repair, and a small corn house. This farm has heretofore been cultivated with the Home place, but is now laid off in a separate farm, of about 150 acres; the lands are mostly high and elevated, and no waste land, with fine branches to each Farm, and water in each field for stock, on both farms, and a plenty of fine branch land for meadows, &c.—the timber lies convenient to every part of the arrable land on both places—a portion of the arrable land is of a first rate soil for the growth of the Morus Multicaulis; and for any person or persons who wishing to go into the silk business on a large scale, offers every inducement that is desirable to the purchaser.—These lands will be sold altogether or separate, and possession given at the end of the present year if desired.

Terms of sale are:—$1000 cash on the day of sale, or end of the present year, and the balance in one, and two years, &c. This land will be sold at public sale at the Court House door in Denton, on Tuesday the 27th August next, between the hours of 10 o'clock A. M. and 4 P. M.

I have also about 7000 Multicaulis Mulberry trees now growing on the Farm—I would sell with the farm or separate at the same time and place if desired.

Nield Moore, John Moore and Thomas Moore. *vs.* Elizabeth, John, Hiram and Arthur George Moore	IN CHANCERY, 31st July 1839.

The object of the Bill filed in this cause is to obtain a Decree for the sale of the lands hereinafter mentioned, the same not being susceptible of division.

The Bill states that the complainants together with the defendants Elizabeth, John, Hiram and Arthur George Moore, children and heirs of Levin Moore, are entitled to the one half of certain tracts or parcels of land, lying and being in Dorchester county, called "Button's Desire," "Turkey Point," and "Wolverton," containing in the whole two hundred and thirty four acres—their one half of the same being one hundred and seventeen acres.—That the said complainants are each entitled to one fourth of the said one hundred and seventeen acres, and the said defendants Elizabeth, John, Hiram and Arthur George Moore, children of Levin Moore, are, between them, entitled to the other remaining fourth part of the said one hundred and seventeen acres.—That the said lands are incapable of division, and that the defendants are infants under the age of twenty-one years. The Bill then prays for a sale of the said lands—It is also stated by petition that since the filing of the said Bill the complainants have discovered that two of the said defendants, to wit: Elizabeth Moore and John Moore resided out of the State of Maryland.

It is therefore ordered that the complainants, by causing a copy of this order to be published in some newspaper once in each of three successive weeks before the 5th day of September next, give notice to the said non-resident defendants of the substance and object of the Bill, that they may be warned to appear in this Court in person or by solicitor, on or before the 31st day of December next, to shew cause if any they have why a Decree should not be passed as prayed.

IMPROVEMENTS.
IN DENTAL SURGERY.

IT HAS for many years been a great desideratum among European and American Dentists, to manufacture TEETH from incorruptible materials, which should imitate the natural living teeth.

Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing Teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human Teeth.

After long and tedious experiments, the subscriber has succeeded in manufacturing Teeth of materials *entirely incorruptible and perfectly in imitation* of human Teeth. They have a semi-transparency, and are made of various sizes and shades.

In cases where absorption of the alveolar process, or other causes may render it necessary, he will cast of the same materials attached to the Teeth, artificial gums, which shall imitate the Gum and supply the loss of substance.

It is entirely impossible for these Teeth to change their color, or cause fœtid breath.

He will insert them from one to entire sets in such a manner that they will make articulation of the voice perfect, and materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living Teeth by the most scrutinizing observer.

He also performs all the various operations in Dental Surgery, according to the late scientific improvements in the art.

The following testimonials from gentlemen whose respectability needs no encomium, are respectfully submitted to the public.

From N. R. Smith, Professor of Surgery in the University of Maryland.

Baltimore Oct. 28, 1836.

I have examined specimens of incorruptible Composition Teeth, manufactured by Dr. F. H. Knapp, an ingenious Dentist of this city. In their form, color, etc., they admirably imitate the natural Teeth. Being completely incorruptible by the agents which affect the Teeth, and also apparently very strong, they must be peculiarly fitted for the purpose for which they are designed.

NATHAN R. SMITH.

From Professor Ducatel.

Having examined some Artificial Teeth prepared by Dr. F. H. Knapp, and learned from him what are the principal ingredients that enter into their composition, and the nature of the materials by which they are colored, I am inclined to think that they will prove, as he epresents them to be, incorruptible. Dr. Knapp having moreover acquired the art of varying the colors of the enamel which covers his Artificial Teeth, is thereby enabled to impart to them a more natural appearance than such Teeth are usually found to possess; a circumstance that will doubtless render them more acceptable to the public.

J. T. DUCATEL, M D
Prof. of Chemistry in the University of Md

From S. K Jennings, Professor of Materia Medica, Therapeutics, &c in the Washington Medical College of Maryland.

Having been favored with an inspection of a considerable number of Incorruptible Artificial Teeth, which were manufactured by Dr. F H. Knapp, I cheertully concur in the opinion expressed in respect to them by Professors N. R. Smith and J. T Ducatel.

SAML. K. JENNINGS.

He has also received the most flattering testimonials in favor of his improved Teeth from Prof. Thomas P. Jones, author of Conversations on Chemistry; Prof F. May, Prof. H. Lindslay, Prof. J. C. Hall, and Prof. Thomas Sewell, Washington D. C. and very many other gentleman of the first standing in this country.

He offers these Teeth for sale to dentists on the most favorable terms. Teeth, Gold Foil, &c. &c. sent per mail when ordered.

TAILORING.

THE subscriber respectfully announces to his friends and the public that he has taken the shop on Race street, Cambridge, one door above the Odd Fellows Lodge, and nearly opposite White & Anderson's store, where he intends carrying on the above business in all its various branches, and he flatters himself that he will be able to give general satisfaction to all those who favor him with their custom. He will warrant all garments made by him to fit, if not he will return similar materials or money at the customers discretion. He also flatters himself from his knowledge of the business that his work will be done in a manner not to be surpassed by any one. He will receive the city fashions regularly, and he will venture to say that he will not promise that which he will not perform, but will be punctual to all those who favor him with their custom, and he hopes that the public will extend to him a liberal share of their patronage.

DR. W. EVANS'S CELEBRATED FEVER AND AGUE PILLS.

This wide-extended and most admirable Remedy, which has already tendered such benefit, and proved the *only* radical cure for the above-named disorder, is *particularly* recommended to public notice at this variable season of the year. On first feeling the premonitory symptoms occur, it is advisable *at once* to clear thoroughly the stomach & bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans's Purifying Pills,

the value and well authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit

THE INVIGORATING AND STRENGTHENING PILLS.

Directions are as follows:

Take four of the *Purifying Pills* on the first accession of Fever, and continue the same number every other night, till with the additional use of the *Invigorating Pills*, a permanent cure is obtained.

Take three of the *Invigorating Pills* in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

☞The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills

Sold at Dr. EVANS'S Medical Establishment, 100 Chatham Steeet, N. Y., and by his authorized Agents throughout the Union.

A REAL BLESSING TO MOTHERS.
Dr. W. Evans' Celebrated Soothing Syrrup for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

ON LOW SPIRITS.

Low spirits has a certain state of the mind accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers suppose this disease to be confined to those particular regions of the abdomen technically called hypochondria which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms The common corporeal symptoms are flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunts the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, prattracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the monses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principle objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anotyne, and anti spasmodic) are an infallable remedy, and without dispute have proved a great blesisng to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to, in many cases it greatly aggravates the symptoms.

HIGHLY IMPORTANT.

☞Nervous diseases, liver complaint, dyspepsia, billious diseases, piles, consumption, coughs, colds, spitting of blood, pain in the chest and side, ulcers, female weakness, meremial diseases, and all cases of hypochondriacism, low spirits, palpatation of the heart, nurvous irratability, nervous weakness, fluor-albus, seminal weakness, indigestion, loss of appetite, heartburn, general debility, bodily weakness, chlorosis or green sickness, flatulency, hysterical faintings, hysterics, headaches, hiccup, sea sickness, night mare, rheumatism, asthma, the doulourenx, cramp, spasmodic affections, and those who are victims to that most excruciating disorder. *Gout*, will find relief from their sufferings by a course of Dr. Wm. Evans' medicine.

Also, nausea, vemitting, pains in the side, limbs, head, stomach or back, dimness or confusion of sight, noises in the inside, alternate flushes of heat and chillness, tremors, watchings, agitatation, anxiety, bad dreams, spasms.

Principal Office, 100 Chatham st. New York.

Paralytic Rheumatism.—A perfect cure effected by the treatment of Dr. W. Evans.—Mr. John Gibson, of North Fourth st, Williamsburg, afflicted with the above complaint for three years and nine months during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, that especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the external heat, in obvious thickening of the fascie and ligaments, with a comple loss of muscular power. For the benefit of those afflicted in a similar manner, Mr. Gibson conceiving it meet to say that the joints have completely recovered their natural tone, and he feels able to resume his ordinary business

☞*Liver Complaint, Ten Years' Standing.*—Mrs. Hannah Browne, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with liver complaint, restored to health thro' the treatment of Dr. Wm. Evans. Symptoms: Habitual constipation of the bowels, total loss of appetite, excrutiating pain of the edigastric region, great depression of spirits, langour and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high colored, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

The following interesting & astonishing facts, are amongst the numerous cures performed by the use of Dr. Wm. Evans' Medicines. Principle Office, 100 Chatham Street, New York, where the Doctor may be consulted personally, or by letter (post paid) from any part of U. States, &c. Persons requiring medicine and advice, must enclose a Bank Note, or Order.
