OBITUARY.

Departed this life at Church Creek on Saturday orning October 19th, in the 39th year of her age, rs. *Elizabeth Richardson*, consort of Levin Richdson, Esq.

It is not the intention of the writer to eulogise the aracter of Mrs. Richardson, for to her slightest ac aintance such eulogium would be unnecessary. ll less necessary would it be to recapitulate her *virues* to a bereaved and disconsolate husband and chilen; who knew and appreciated her worth. Suffice to say that in her were centered all those endearing alities which render the family and social circle easant and agreeable. But in the midst of the prouud grief with which this dispensation has shrouded er friends, it should be an alleviation to reflect that he died with the brightest assurance of Eternal Happiness beyond the grave; and I doubt not that her ure spirit is now enjoying the company of the just made perfect, in the presence of her redeemer.

May Angels guard her dust,
And on her grave may roses ever bloom.

CABIN CREEK, July 29th 1839.

DEAR SIR:—A becoming respect for myself as well as a proper sense of justice to Mr. James Davis, require me to say to you as his Counsel, that on reflection, the facts and circumstances on which I at first relied, and which at that time really induced me to believe what I then said, seem to me, on reflection, altogether insufficient to sustain the charge brought against Mr. Davis.

His previous personal good character and other circumstances fully vindicate him in my opinion, and I am gratified now to think so, which I say to you—you are at liberty to communicate to Mr. Davis.

Your obedient servant,
JAAMES T. SMITH.

LATE SHERIFF'S & COLLECTOR'S

NOTICE.

AFTER having waited patiently for a considerable time for persons to liquidate their accounts, I am at last compelled to give notice to all persons indebted to me for county charges and officers fees, that unless their accounts are adjusted by the first day of January next, I shall proceed to collect them in the most summary manner. My deputies have orders to that effect. My term of office has now expired, and it is of primary importance to me that my Books should be closed as speedily as possible. Nothing would be more unpleasant to me than to pursue a rigorous course towards those indebted to me, but my own interests (which should always first be considered) require me to loose no time in closing my business. I have yet to pay large sums of money to persons who are pressing me for their dues, and to meet my engagements I must of course make large collections.—I hope I shall be able to do so without the necessity of executing any one, but if I am unable to collect without resorting to rigorous means, I shall most certainly adopt them. I therefore shall be under many obligations to those indebted if they will save me the trouble of executing, and themselves the mortification of being executed.

JAMES A. WADDELL,
late Shr'ff. and Collector.

NOTICE TO CREDITORS.

WHEREAS Matthias W. Bonner, lately petitioned for the benefit of the Insolvent laws, & the Judge of the Orphans' Court, who discharged him from confinement, appointed me Trustee for the benefit of his creditors. Whereas the said Matthias W. Bonner before his discharge conveyed his farm to one Solomon Frazier, for the consideration of $1450, 00 as mentioned in the deed, and whereas doubts are entertained whether or not Mr. Frazier ever paid him that sum, and as Trustee I am bound to ascertain the fact. It is my wish, and beg it as a favour for all persons who Mr. Frazier has paid off, or become security for Mr. Bonner, to lodge the amount with Mr. Nathaniel E Green at New Market, on or before the first day of December next, and all persons having claims against Mr. Bonner, not settled by Mr. Frazier, to file them in the Clerks Office, on or before the first day of December next. It is not my object to deprive Mr. Frazier of any amount he has paid for Mr. Bonner.

IMPROVEMENTS.

IN DENTAL SURGERY.

IT has for many years been a great desideratum among European and American Dentists, to manufacture TEETH from incorruptible materials, which should imitate the natural living teeth.

Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing Teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human Teeth.

After long and tedious experiments, the subscriber has succeeded in manufacturing Teeth of materials *entirely incorrupt ble and perfectly in imitation* of human Teeth. They have a semi transparency, and are made of various sizes and shades.

In cases where absorption of the alveolar process, or other causes may render it necessary, he will cast of the same materials attached to the Teeth, artificial gums, which shall imitate the Gum and supply the loss of substance.

It is entirely impossible for these Teeth to change their color, or cause fœtid breath.

He will insert them from one to entire sets, in such manner that they will make articulation of the voice perfect, and materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living Teeth by the most scrutinizing observer.

He also performs all the various operations in Dental Surgery, according to the late cisentific improvements in the art.

The following testimonials from gentlemen whose respectability needs no encomium, are respectfully submitted to the public.

From N. R. Smith Professor of Surgery in the University of Maryland.

Baltimore, Oct. 28, 1836.

I have examined specimens of incorruptible Composition Teeth, manufactured by Dr. F. H. Knapp, an ingenious Dentist of this city.

In their form, color, etc., they admirably imitate the natural Teeth. Being completely incorruptible by the agents which affect the Teeth, and also apparently very strong, they must be peculiarly fitted for the purpose for which they are designed.

NATHAN R. SMITH.

From Professor Ducatel.

Having examined some Artificial Teeth prepared by Dr. F. H. Knapp, and learned from him what are the principal ingredients that enter into their composition, and the nature of the materials by which they are colored, I am inclined to think that they will prove, as he represents them to be, incorruptible—Dr. Knapp having moreover acquired the art of varying the colours of the enamel which covers his Artificial Teeth, is thereby enabled to impart to them a more natural appearance than such Teeth are usually found to possess; a circumstance that will doubtless render them more acceptable to the public.

J. T. DUCATEL, M. D.
Prof. of Chemistry in the University of Md.

From S. K. Jennings, Professor of Materia Medica, Therapeutics, &c. in the Washington Medical College of Maryland.

Having been favored with an inspection of a considerable number of Incorruptible Artificial Teeth, which were manufactured by Dr. F. H Knapp, I cheerfully concur in the opinion expressed in respect to them by Professors N. R. Smith and J. T. Ducatel.

SAML. K. JENNINGS.

He has also received the most flattering testimonials in favor of his improved Teeth from Prof. Thomas P. Jones, author of Conversations on Chemistry; Prof. F May, Prof. H. Lindsley, Prof. J. C. Hall, and Prof. Thomas Sewell, Washington D. C. and very many other gentlemen of the first standing in this country.

He offers these Teeth for sale to Dentists on the most favorable terms Teeth, Gold Foil, &c. &c. sent per mail when ordered.

PULMONARY CONSUMPTION CAN BE CURED.

Dr Higbee: Dear sir—I think it a duty incumbent upon me which I owe to you and the world, to make this statement of facts, which I am ready and able to prove. My daughter Eliza 17 years of age, was laboring under a distressing cough, and bleeding of the lungs. We had the advice of physicians, and she was pronounced in the highest stage of consumption and incurable. She had a continual pain in her right side, cough from a half to one hour at a time, and discharge more than a pint of corruption per 24 hours, and discharges of large quantities of blood, which the Doctor pronounced to be from the lungs, loss of appetite, could not sleep long by continual coughing, shortness of breath, and discharging from the lungs. My daughter was confined three weeks to her bed, we had to stay by her night and day, expecting every minute to be her last. I providentially saw your advertisement in the papers, and the respectable signers to it. I felt a strong inclination to purchase a bottler and in three days after she commenced taking you; medicine, she was able to dress herself and walk down stairs, and her cough left her. It is now about ten months since she began to take your medicine.—She took about five bottles of it; and she is in as good a state of health as she has been for a number of years. I have recommended your medicine to several of my acquaintancee; they have all found immediate relief. I refer you to John Greenleaf, between Jarman and Milestown, Mrs. Hart, in Callowhill st. at the Post Office; Mr. Johh Stanecliff, keeper of the prison at Cherry Hill. These are persons I recommended your medicine to, and you can can refer any person to them for the particular benefit received from taking your medicine. I live in Callowhill st. 315, near Ninth, where you may refer them to me, and they can have every particular, and see my daughter, or apply to any of the other persons named.

WM. CONSTABLE.

We the undersigned do assert the above statement to be true, for we were eye witnesses to the whole facts.

William Sinkler and Mary Sinkler, Race street, near Tenth.

H. D. Welsh, and Jane M. Welsh. Garden st, between 8th and 9th.

Martha Ostler, and Mary Ostler, No. 361 Callowhill st.

Philadelphia, April 14th, 1838.

Messrs. Editors—I wish through your paper to remove a wrong impression from the minds of many who think the letter I wrote to Dr. H. H. Higbee, is nothing but a ficticius letter with borrowed names attached to it; for many who have called on me were under the same impression—but when they saw my daughter, they found it was no deception but an astonishing fact, and more so when they saw some of of the other persons referred to in my letter; but in particular, John Greenleaf, a man sixty-two years of age, who was perfectly cured by taking Dr. Higbee's medicine, when he was reduced almost to a skeleton by a violent cough, and discharging of blood from the lungs, in a similar way as my daughter. When I saw the effect the medicine had on my daughter, I strongly recommended it to him, and with difficulty I prevailed on him to try it, for he said he was given up as incurable by his Physician, and that he had tried almost every kind of medicine before and found no relief from any. I did not know Dr. Higbee, nor had I ever seen him at that time. I have no interest in selling the medicine—I am no agent direct or indirect. I purchased Dr. Higbee's medicine (previous to his removal to this city) of his agents. Messrs. Stokes and Brown, in Market st. If any persons doubt my statement, they will please call on me, and I will give them satisfaction, for I have no other motive in view but that the afflicted may find speedy relief. You may depend on these statements to be true, for a I expect to stand before the judgement seat of Christ, to give an account for the deeds of my life, I have made these statements, knowing them to be true. I have not been solicited by Dr. Higbee, or any other person, to make these statements, and I repeat them in order to remove the doubts from every mind.

WM. CONSTABLE.

No. 315 Callowhill st. between 8th & 9th.

☞The author of the above letter is well known as an honest and upright man and a sincere Christian, having for many years been a citizen of Philadelphia and an exemplary member of the Methodist Church. It is but an act of justice to Dr. Higbee, to say, that the above statement was unasked for, and that Mr. Constable wrote it because he believed that by so doing he might be the means of saving many valuable lives which under the usual practice would inevitably be lost. Dr. Higbee's medicine, which continues (though not offered as a panacea) to perform the most astonishing cures in Chronic diseases of the lungs, throat, liver, kidneys, &c &c. may be obtained at the residence of the Proprietor, 37 North Fifth st. Philadelphia, at the residence of the Rev. Daniel Higbee Moorestown N. J.; also, of Stokes and Brown, 295 Market st, and at Joseph Scott's Bookstore, Wilmington, Del. A REAL BLESSING TO MOTHERS.

Dr. W. Evans's Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the children will recover. This preparation is so innocent so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores.—Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

ENVIABLE DISTINCTION.

In the midst of a general, and in many instances not unfounded prejudiced against many of the medical remedies of the day, DR W. EVANS' Pills have the enviable distinction of an universal approbation. They are perhaps the only medicine publicly advertised, that has the full and unreserved testimony of medical men in its favor; if not the only one which gives full satisfaction to its purchasers. DR. W. EVANS has the satisfaction of knowing that the Camomile or Tonic Pills are not only regularly recommended and prescribed by the most experienced physicians in their daily practice but also taken by those gentlemen themselves, whenever they feel the symptoms of these diseases in which they know them to be efficacious. He knows this to be generally the case in New York, Philadelphia, Albany, Boston, and other large cities in which they have extensive sale. That they should thus conquer professional prejudice and interested opposition, and secure the agency of the most eminent and best informed physicians in the country to render them useful to all classes, can only be fairly ascribed to their undeniable and preeminent virtues.

Enviable, however, as this distinction is, it can easily be accounted for from the intrinsic and peculiar properties of the medicine itself. It does not pretend to too much, and it accomplishes all that it promises Dr. W. Evans does not pretend, for instance, that either his Camomile or Aperient Pills will cure all diseases by merely purifying the blood, but he certainly does pretend, and has the authority of daily proofs for positively asserting that these medicines, taken as recommended, will cure a great majority of the diseases of the Stomach, Lungs and the Liver by which impurity of the blood is occasioned. The blood is made from the contents of the stomach; has its red color and vitally given it by the action of the lungs, and as it performs its duty in circulating through the veins and arteries, has its yellow billious or excrement, which may be termed its refuse or worn out sediment, collected and discharged by the liver. These viscera, then, are the anatomical mechanism or apparatus by which the blood is manufactured and preserved; and it is therefore obvious that the state of these should be the first consideration of the physician. Now there are various
