Metcalfe Tops Skeet Gunners

Leads Field Of Thirteen At Traps. Price Team Sunk

Dr. Carey H. Metcalfe romped off easily with first honors from thirteen marksmen at the weekly skeet shoot on the Sudlersville grounds Sunday afternoon when he cracked off a perfect round of 25 and backed it with a neat second trip of 23 for a total of 48. Following him in a close battle for second place were Clifton Green with 42 and T. A. Geiser with 41.

The event was enlivened by a challenge match in which a Price team consisting of Frank Brower and Harry Jewell stood off Ed Gillespie and Paul Phillips of Sudlersville. The Price pair were handy victims of the Sudlersville sharpshooters and finished on the small end of a 56 to 58 score.

Conditions for the shoot were good with a slightly overcast sky and little wind. A fair sized crowd turned out.

The results for two rounds of 25 birds each were: Dr. C. H. Metcalfe, 25, 23 for 48; Clifton Green, 20, 22 for 42; T. A. Geiser, 20, 21, 41; Dr. Merritt Brice, 19, 21, 40; Jim Groff, 19, 19, 38; Claude Smith, 20, 18, 38; Harry Hartley 13, 22, 35; J. Carroll, 16, 17, 33.

Ralph Cannon, 14, 20, 34; E. B. Townsend, 16, 16, 32; Ed Gillespie, 13, 16, 29; Paul Phillips, 18, 9, 27; Frank Brower, 17, 10, 27; Harry Jewell, 5, 6, 11.

"Irish" potatoes were first cultivated by Peruvian Indians in South America and were taken to Europe in 1658 by the Spaniards.

Plow Designer Whittled Models From Potatoes

The plow invented by Jethro Wood in 1814—with mouldplate, share, and landside cast separately—forecast modern plows. But Wood had great difficulty in getting workmen to mold his plows as he wanted them. He was taunted with being a "whiting Yankee" because he whittled away bushels of potatoes before he had a miniature model plow that suited him. Seward, Lincoln's Secretary of State, said, "No citizen has conferred greater benefits on his country . . . none has been more inadequately rewarded.
