LOCAL MATTERS

Elected Rural Dean.—At the late annual convention of the Diocese of Easton held at Salisbery the Rev. T. Manley Sharpe, Ph. D., rector of St. Luke's Parish, Church Hill, Md., was unanimously elected "Rural Dean" of the Middle Convocation, which embraces Queen Annes, Caroline and Talbot counties. Dr. Sharpe attends a Sunday school, preaches three times every Sunday and travels over 60 miles. The generous spirit and far-sightedness of Mr. Dudley G. Roe, of Sudlersville, who presented Dr. Shape with a new automobile enables him to do this amount of work with less fatigue than formerly.

Shark Caught.—It was reported yesterday that the man-eating shark, which has been catching men and boys in bathing along the Jersey cost, was caught on Thursday in Inland Creek, New Jersey, by fishermen who had stretched nets at the mouth of the creek to catch him. In the stomach of the shark was the body of the boy attacked some days ago, as well as the leg of the man who went to the boy's rescue. The shark had been playing havock with bathers along the cost, and only Wednesday he attacked a man and boy, ripping the flesh on the man's leg from the hip to the knee, and taring to shreads the flesh on the boy's leg from the knee to the ankle. This is the first instience on record of man-eating sharks appearing in rivers and creeks. Look out Chestertown bathers.

The price will go back to the original figure—65 cents a dozen next week.

She is delighted with the palatial homes of the strange though beautiful city, which she says are superior to many of America's finest homes, but, says Miss Duyer, "I would not give the smallest shack on 'Scott's Point' or in Santiago, Chestertown, for the whole country of Central America." Miss Duyer has visited the great coffee fields in Central America the cultivation and harvesting of which she states is most interesting. She reports her patient extremely happy in her home country.

County Road Engineer Gault Applegarth has adopted the three-district plan of working the roads in the county, and has purchased 12 mules, a number of wagons and other equipment for the purpose. He has appointed the following supervisors for these districts: Michael Burns, whose stable will be located in Galena; Edward Smith, whose stable is located on the old fair grounds at Worton, and T. N. McGinnis, whose stable will be located near St. Paul's Church. A gang of men will be employed by each supervisor, each of whom will be responsible to the road engineer. This is a new method of working the roads in Kent, and we believe it will prove successful.

The Baltimore postoffice posted 4,815,616 packages, which totaled saving to the shippers of $1,000,000.

In Memoriam.

SHROPSHIRE.—In sad, but loving remembrance of our dear and loving daughter, Isabella Starr Shropshire, who departed this life July 12, 1909.

There is no death! What seems so is transition;
This life of mortal breath
Is but a suburb of the life elysian,
Whose portal we call death.

She is not dead, the child of our affection,
But gone unto that school
Where she no longer needs our poor protection,
And Christ himself doth rule.

—Sadly missed by her
PARENTS AND DAUGHTER.
