CALIFORNIA AGRICULTURE.—The agricultural productions of California are becoming very large. According to recent statistics gathered in the several counties, the State has raised this year about 4,000,000 bushels of wheat, and more than 3,000,000 bushels of barley; there are 4,000,000 grape vines growing, all of which will be in bearing in two years; there are 1,000,000 peach trees, and 500,000 apple trees growing; there are 750,000 black cattle, 550,000 sheep, and 170,000 horses in the State; the weight of the wool crop approaches 1,400,000 pounds; about 380,000 gallons of wine will be made this year.

A HORSE FOR THE PRESIDENT.—Mr. J. H. Binda, U. S. Consul in Italy, has sent home a horse, only seven hands high, as a present to President Buchanan. Mr. Binda, who is an Italian by birth, married a daughter of the great Gen. Sumpter, of South Carolina. Gen. Jackson, it is stated, appointed Mr. Binda, and, on application of several persons of note, wrote, in his own handwriting, something that has prevented any President from removing him. This, it is said, is the reason why Mr. Binda, though an Italian, has been kept in office.

The Rev. Mr. Worth was arrested in Guilford, N. C., last week, for alleged incendiary language and conduct. In defending himself he read extensively from Helper's book.—He was held to bail in the sum of $5,000 for his appearance at court, and $5,000 for his good behavior.

FROM DR. LEWIS, OF VERMONT. BURLINGTON, Nov. 12, 1854.

Gentlemen: I am pleased to state, that I have tried the Oxygenated Bitters for Indigestion and Debility, and found immediate relief from using only a part of a bottle. I have the greatest confidence in it as a cure for Dyspepsia and General Debility, and recommend it with much pleasure to all persons laboring under those diseases.

You are at liberty to use this as you think proper, to promote the sale of this excellent medicine. Yours, &c., JAMES LEWIS.

The Oxygenated Bitters give a healthy tone to the Stomach and Digestive System, and act as the surest preservative against Fever and Ague, as well as other infectious diseases.

Henry, 12, Maria, 10, and John Ames, 9,
of Apalachicola, Florida, were all three affected with this disagreeable malady; Maria in particular was in a wretched plight with it, and although there were many remedies tried, yet the malady did not seem to decrease, indeed the disease spread itself all over the surface of the head, to the great annoyance of the parents and discomfiture of the child; the blood of the others was equally impure. At last the parents put the three under a course of Holloway's Ointment and Pills, which cured them all in the space of nineteen days.—Their health has since considerably improved. These remedies are also wonderfully efficacious in all diseases of the skin.

A CARD.

HAVING, a short time previous to the late election, made certain remarks in reference to John R. Keene, Esq., and finding that they have been a subject of much comment in the community, I take great pleasure in stating that I made the remarks without any knowledge of the truth of the charges contained in them, merely repeating what I had heard; and then not voluntarily, but drawn out in the course of conversation. I am now satisfied that the reports were not correct. I regret the occurrence, and, in justice to Mr. Keene, will say that I have no knowledge of anything derogatory in any manner to his political or moral character.

A VALUABLE FARM AND STORE STAND FOR SALE.

HAVING concluded to remove from the State, I offer at private sale my Farm and Store Stand, called

WHEATLAND,

It is situated on the county road leading from Cambridge to Vienna, and only five miles from Cambridge, seven miles from East New Market, and within a half mile, and in view, of the Great Choptank River; being convenient for wild fowl, fish and oysters—beside having a fine view of the Steamers and other vessels passing, and of the surrounding country in Talbot county.

The tract contains

100 Acres of high, flat Land,

of fine consistency, adapted to the growth of Wheat, Corn, Vegetables and Fruit. It has already planted upon it two hundred and twenty-five peach, apple, pear, apricot and cherry trees from the nursery of Ellwagner & Barry, Rochester, N. Y.

The improvements consist of a handsome NEW DWELLING HOUSE, two stories high, 43 ft. front and 38 deep, finished in modern style, having pantries, closets and porches (arranged with the rooms) in the most convenient manner, and designed by Thomas and John Dixon, (Archt.) of Baltimore city. Also

A New Large Barn,

two stories high, 56 ft. long and 36 wide, containing granary, threshing floor, two corn houses, carriage room and convenient and comfortable stables, with a brick well and pump in the pound yard; and also a well of excellent water in the back yard, convenient to the Kitchen.

All of the buildings are new, large and conveniently built and located, and were designed by the Messrs. Dixon, of Baltimore city, and are of the best material.

The cleared land is well inclosed with new plank fencing, and has been recently heavily limed with Shell and Magnesian Lime, ashed and guanoed, and thoroughly ditched and drained.

The STORE HOUSE in the corner of the farm is new, 18 ft. by 30, and contains a store room well fitted up and arranged, and has a good counting room and grocery.

The stand is considered one of the best in the country, being on two roads, and commanding the travel on both. Capt. Lewis Ross kept a store near this for a number of years, and very successfuly, just on the opposite corner.

I will sell, also, the

STOCK OF GOODS,

STORE FIXTURES,

FARMING IMPLEMENTS,

HORSES, CATTLE, &c.,

at a fair price. For terms apply to JAMES L. COLSTON. Near Cambridge, Md.

N. B. I will sell my stock of Goods and rent the Store to a good business man, if the whole property is not soon disposed of.

THE GREAT SOUTHERN WEEKLY.

The Family Journal for 1860.

ON the first Saturday in January will be commenced a new volume of this popular Southern Illustrated Paper. One year ago the JOURNAL was begun as an experiment to establish a literary paper south of Mason and Dixon's line, which, while it should not contain anything sectional in its columns, might be a means of freeing the South from its dependance on the North for its literary food.—It has been too long a subject of just reproach to the South, that her popular literature is almost wholly borrowed from Northern sources. This preference arises not from any lack of intrinsic merit in the writers of the South, but from an unfounded assumption that no good book, magazine or paper can be expected unless coming from a Northern publishing house.

To remove this unfounded stain upon the literary talent and enterprise of the South, was the great object for which the Family Journal was established. To aid in this high and patriotic undertaking, we earnestly invite the co-operation of the South. We pledge ourselves to devote our entire time and energies to ensure the success of so good a cause. Nor shall we rest satisfied with producing a paper whose sole claim upon Southern readers shall consist in its being published in their midst. *Unless the Journal can in every respect compare with similar papers published elsewhere,* we do not expect the support which we now solicit.

It may not be inappropriate here to announce that we have succeeded in securing the valuable services of F. H. NORVELL, Esq., late Professor in Marshall Female College, Mississippi, as Associate Editor. The exalted character of Mr. Norvell, and his acquirements as a scholar, offer our best guarantee for the moral tone and literary excellence of the Journal.

With the January number will commence a thrilling original story of intense interest, entitled

O. F. A.—A. F. O.;

Or, the Mysterious Band.

A Story of City Life.

BY JOHN B. WILLIAMS, M. D.

The scene of this story is laid in New York, and in the present day. The plot is most exciting, and the scenes depicted of the most absorbing character. From the very first number the reader's interest is most vividly excited, and maintained without flagging to the end. It will be illustrated in the highest style of art. Particular attention will also be paid in the ensuing volume to original short stories.

Each number of the paper will contain three or four complete stories by the popular authors of the day. They will be written with great care, and specially adapted to interest those persons who do not read the continued stories.

Sketches of Travel and Adventure will also form a special feature in the coming volume, as well as Biographical Essays, which will contain the lives of all the popular authors.

Useful Information.—Under this head will be comprised interesting anecdotes in Natural History, Chemistry, new inventions in Science and Art, items for the Farmer and Housekeeper, &c.

Particular attention will also be paid to original Poetry, extreme care being taken to present such only as shall command the praise of every lover of this divine art.

The Ladies' Portfolio will continue to be a prominent feature in the ensuing volume.

The Family Journal is a mammoth eight-paged paper, containing forty columns of closely printed reading matter. Each number is handsomely illustrated, talented artists having been specially engaged for this purpose. No advertisements whatever will be taken in the new volume; thus devoting the entire space to the reading matter.

The Family Journal is published every Saturday, and is mailed to subscribers at $2 per annum; two copies sent for $3. Terms invariably in advance. Any postmaster sending us eight subscribers at $1 50 each, will be entitled to a copy free.

Subscribers are particularly requested to write in a plain hand the name of the place, county and State, so as to prevent mistakes. Remittances, properly authenticated, at our risk. Single subscribers can forward postage stamps.

All subscriptions and communications must be addressed to WILLIAMS & MOORE, de21 114 W. Baltimore st., Baltimore, Md.

"It shall at all times hereafter, be the duty of every captain or commanding officer of a militia company, annually, in the month of April, or as soon thereafter as possible, to appoint the non-commissioned officer of his company, and to order them to enroll, without delay, every able-bodied white male citizen, between eighteen and forty-five years of age, who shall reside within the bounds of his company district, and to notify such citizen of the said enrollment, by one of said non-commissioned officer, or other suitable persons by whom such notice may be provided; and to designate, in said enrollment, all who are under twenty-one, and from those who are over twenty-one years of age; and in all cases of doubt respecting the age of any person enrolled, or intended to be enrolled, the person, whose age is questioned, shall prove the same to the satisfoction of the commanding officer; and if any person, called on to be enrolled, shall refuse to declare his true name and age, to the best of his knowledge, or the name of any person, an inhabitant of his house, with which he is acquainted, he shall, for each offence, forfeit and pay the sum of five dollars, to be recovered by the order and upon the certificate of the said commanding officer, as other fines and forfeitures are directed to be recovered by this act; and it shall be the duty of every captain, or commanding officer of a company, to return, in the month of May, or *as soon thereafter as possible, in every year,* to the commanding officer of the regiment or battalion to which his company is attached, and also, to transmit, by mail, to the office of the Adjutant General of this State a correct enrollment of the persons residing within the bounds of said company, liable to do militia duty; and upon his refusing or neglecting to make either of said returns, within said month, in any year, he shall be subject to a fine not exceeding fifty dollars, for each offence, to be recovered as other fines are by this act directed to be, upon the order and certificate of the officer to whom such return should have been made, unless he shall make a reasonable excuse, to be approved only by such officer."

THE UNIVERSAL

GAS LIGHT.

Edward H. Anderson's

Portable, Air-Pressure,

FAMILY GAS LAMPS.

(*Patent applied for.*)

BY this valuable invention, every family both of Town or Country, can enjoy the luxury of a first quality Gas-light which for safety in its use, brilliancy and economy, cannot be surpassed, at a cost of less than one cent per hour. It produces a light equal to four ordinary two-tube fluid lamps, and is perfectly free from *smoke or smell,* and less trouble in its management than the ordinary fluid or Coal oil lamps. They are so constructed that the flame can be reduced to one half size, when the full force is not required, thereby only consuming one half the quantity of oil.

The great desideratum that has so long been felt for a portable Gas light, simple in construction, one that is easily managed, and not requiring too much outlay in the first cost of apparatus, has now been obtained, and is fully realized in this truly valuable invention, and must be seen to be fully appreciated.

Every person in want of a superior and economical Gas-light, are respectfully invited to call and examine for themselves.

Every description of Coal oil or fluid Lamps altered to manufacture and burn the Gas, at the low price of $2 00 without shade, and $3 when a shade and attachment is required.

A good supply of GAS LAMPS, BRACKETS, Pendants, Chandaliers, &c., suitable for Churches, Halls, Stores and private residences, constantly on hand and manufactured to order. E. H. ANDERSON, & CO.,

Practical Experience better than Experimental Science.

Holloway's Ointment.

CONSOLATION FOR THE SUFFERING.

NEARLY fifty years continual use in every part of the habitable globe, amongst the savage and the civilized alike, has proved that simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abscesses, cancers, old wounds, and, in one word, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested and permanently cured, without danger, by rubbing in and using as a dressing, this inestimable Ointment.

SCROFULA, ERYSIPELAS AND SALT RHEUM.

No remedy has ever done so much for the cure of diseases of the skin, whatever form they may assume, as this Ointment. No case of salt rheum, scurvy, sore heads, scrofula or erpsipelas, can long withstand its influence.

BAD LEGS, OLD SORES AND ULCERS.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

ERUPTIONS ON THE SKIN,

arising from a bad state of the blood or chronic disease, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

PILES AND FISTULA.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolument; warm fomentations should precede its application.—Its healthy qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Skin Diseases,
Burns,	Swelled Glands,
Chapped Hands,	Sore Legs,
Chilblains,	Sore Breasts,
Fistula,	Sore Heads,
Gout,	Sore Throats,
Lumbago,	Sores of all kinds,
Mercurial Eruptions,	Sprains,
Piles,	Stiff Joints,
Rheumatism,	Tetter,
Ringworm,	Ulcers,
Salt Rheum,	Venereal Sores,
Scalds,	Wounds of all kinds.

☞CAUTION!—None are genuine unless the words, '*Holloway, New York and London,*' are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending them to be spurious.

**Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 62 cents and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.
