Talk about the temporary character of our country's prosperity? Just read the statements of the banks of the town. The Third National Bank has $1,026,000 in resources this morning, the great majority of which belongs to the farmers and business people of this town and county. Never in the history of our country have our people been so prosperous as they are now, and they are putting it "on ice" for a "rainy day," too.

The beautiful chinese wool flower has been in its glory during the past three weeks, and has created a sensation among the lovers of flowers. This lovely garden flower was introduced in Chestertown last year by Mr. Thomas D. Bowers. Its gorgeous wine red ball shaped blooms completely covering a graceful and narrow green leaved plant about two feet in height make it the most beautiful of all border or hedge plants, and those who saw the flower for the first time last summer in Mrs. Bowers' yard on the avenue were so charmed with its beauty that she distributed a number of seed among friends in the town and county. A lady from Centreville saw the flowers in Mr. James H. Brice's pretty yard last Sunday and she declared they were the prettiest flowers she had ever seen. To get the best results for next season, save the seed from the large central blooms after it turns dark in color.

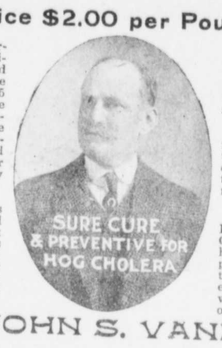
HOG CHOLERA CURE.

Price $2.00 per Pound.

Mr. Wm. Cooper, Jr., near Worton Station, came to me on Friday, Feb. 4, 1916, and purchased 1 lb Cholera Remedy. When he returned home, two of his 15 hogs were dead and four were down with the disease. He telephoned me Sunday that all were getting better, and wanted another package by mail. He called Tuesday and said all were better and eating. He did not lose any after giving the remedy.

Mr. Thos. Smith, Queen Annes county, near Chestertown, had 22 large shoats. Six were sick and refused food. Used 2 pounds of remedy, cured all but one. All are well and two left over for another year. I advise keeping Hog Cholera Cure on hand. Sure preventative and cure.



Mr. George Hatcherson, near Chestertown, had forty hogs. They all died but eight. When he began giving it to the jowelers, four were down. All are up and well now.

Mr. Frank Skirven, a few miles from Chestertown, says he had twenty hogs, lost ten. I heard of your remedy and tried it on the other ten. Lost one and the rest are all right.

I sent John Comegys of Black's Station, this county, Hog Cholera Cure free of charge and he came in and insisted upon paying for it, as he said it was the best he ever tried, and farmers should know about it, as hogs were the most profitable thing on the farm.
