A recent article in a weekly magazine of wide circulation forecasts a revival of Dry strength. However, we would like to point out that the history of Prohibition is that it never has succeeded wherever it has been attempted and its apparent gains have been small. Absolute Prohibition still prevails in Prince Edward Island, the smallest of the Canadian Provinces. In the United States there hasn't been a single year since national repeal in which a state has not left the Dry ranks to join the Wets. At this writing the mockery of Prohibition, in respect to state-wide areas, is in effect only in Oklahoma, Mississippi and Kansas. If Prohibition taught us anything it proved that lawmakers cannot keep liquor out of dry areas or out of the hands of those citizens who want it.
