he was reviled, reviled not again," trusting that their pitiless purposes may be frustrated; that God will grant to them a more politic, a more considerate, and a more Christian mind; that the fanatical strife which they have decided upon, notwithstanding all our commissions and pleas for peace, may be arrested by that Supreme Power who maketh the wrath of man to praise Him; and that thus, through a divine blessing, the prosperity of these sovereign and once allied States may be restored under the governments to which they now and henceforth respectively belong.

Resolved, That we do recommend to the Christians of the Baptist denomination in the Southern States to observe the first and second days of June as days of humiliation, fasting and prayer to Almighty God that He may avert any calamities due to our sins as a people, and may look with mercy and favor upon us.

Resolved, That whenever calamities may come upon us, our firm trust and hope are in God through the atonement of His son; and we earnestly beseech the churches represented in this body (a constituency of six or seven hundred thousand Christians) that they be present, and importunate in prayer, not only for the country, but for the enterprises of the gospel which have been committed to our care. In the war of the Revolution, and in the war of 1812, the Baptists hated no lot of heart or hope for the Redeemer's cause. Their zeal and liberality abounded in their deepest afflictions. We beseech the churches to cherish the spirit and imitate the example of this noble array of saints and heroes; to be followers of them who through faith and patience inherit the promises; to be steadfast, unmovable, always abounding in the work of the Lord, for as much as they know that their labor is not in vain in the Lord.

Resolved, That these resolutions be communicated to the Congress of the Confederate States, at Montgomery, with the signatures of the president and secretaries of the convention.

Letter of Hon. A. R. Boteler, of Va., on the Action of his State.

In reply to your inquiry contained in your last letter, I have no hesitation in answering that I heartily approve of the recent action of our State Convention and expect to reiterate my approval at the polls.

You know with what devotion I have loved the Union, how faithfully I labored with those who struggled to maintain it upon its original Constitutional basis of justice and equality, and how reluctant I was to abandon the hope of reconstruction. But, alas! the coercive policy of this perfidious Administration and the malignant alacrity with which that policy has been responded to by all parties in the North, has abundantly testified that the Union of my love, the Union which our fathers made for our protection, has been perverted by sectional hatred into a weapon of oppression, that it is no longer a shield of safety over our heads, but a sword of subjugation at our hearts; and that the *only alternative* now left to us is either *base submission* or *revolutionary resistance*.

I, therefore recognize no other rallying point for my patriotism than the unfurled flag of our good old Commonwealth, and no true Virginian will hesitate to follow its fortunes or to fight beneath its folds.

I am, as ever, truly your friend,

A. R. BOTELER.

England and the Confederate States.

Views of an Irish Journal.—The Dublin Morning News of the 7th inst., contains an editorial on the troubles in this country. It denounces the resolution of the Confederate States to fit out privateers, and thinks that an energetic protest from the maritime powers will put a stop to it. The News then proceeds:

It is now quite plain that in this quarrel, despite all that has been said and written about slavery, England sides with the Confederate States. She does so, indeed, compelled by the strongest motives of self-interest.—Her cotton manufactures cannot cannot flourish, or even exist, without the usual supplies of raw material from the South. The North has just adopted a Protectionist Tariff, very unfavorable to English interests, and, in resisting the enforcement and extension of this prohibitory tariff, the South is virtually fighting England's battle. Still more, the jealousy of the United States, as a maritime power, is a fixed principle of British statesmanship; and we may be certain that the news of the blow just inflicted on a navy which, in some respects, was formidable to England, has given satisfaction, not fond but deep, to the great bulk of Englishmen. *It is so easy to bring about a collision, and, under present circumstances, it would be so safe and advantageous for England to pick a quarrel with the government of the United States, that we shall not be surprised to find Her Majesty's government assuming a position with regard to this civil broil which may easily lead to war. That they will allow the cotton supply to be cut off by the blockade of the Southern ports is hardly to be expected.*

PRAYER FOR THE PRESIDENT OF THE U. STATES.—Bishop Whittingham, head of the Protestant Episcopal Church in Maryland, hearing that in one or two instances prayer for the President had been omitted by the clergy of his diocese, addressed a circular to each clergyman enjoining the church prayer without omission. In the circular he says:

"Such omission in every case may subject the clergyman liable to presentment for willful violation of his ordination vow, by mutilation of the worship of the church; and I shall hold myself bound to act on any evidence of such offence laid before me after the issue of this circular." They are clearly enjoined, he says, "by the word of God, to make supplications and prayer for the Chief Magistrate of the Union, and for all that are in authority."

The Galveston (Texas) City News of the 3d inst., says:

"Well filled roasting ears of Indian corn are among the delicacies of the season; and we have now before us a moderate feed from the garden of Col. Rose, of the fourth ward. We have already mentioned a receipt of flour from new wheat, and we rejoice in the midst of the ears of the aboriginal grain."

Schedule of Business for the Extra Session of Congress.

The New York *Courier and Enquirer* is of opinion that it would be highly improper for Congress to do anything beyond registering the edicts of the President, which, to save that sanctionary trouble, have been prepared by the editor of the paper aforesaid. The following is the schedule:

Their duty, in our judgment, is easily defined, and can be very rapidly discharged. *It consists in doing precisely what the Executive may ask of them, and nothing more.* In the interim between this and the 4th of July, the President should have matured the necessary bill to carry into effect his determination to put down the existing rebellion, and they should consist as follows:

A bill to authorize the necessary loans.

A bill to increase the Army.

A bill to increase the Navy.

A bill to authorize the calling into service the necessary number of Volunteers, &c., &c.

A bill defining more accurately Treason against the United States, and punishing with death every *attempt* to give aid or comfort to the Enemy.

A bill making it obligatory on the part of every commander of a U. S. vessel, or vessels in the employ of the United States, upon the capture of Privateers fitted out by the Rebel Government, to hang all on board as Pirates, within an hour after such capture, and without trial—the Pirate's papers to afford all the testimony required for the execution of captain and crew.

Such other bills having special relation to putting down the rebellion, as the Executive and his constitutional advisers may deem expedient.

A REGIMENT OF INDIANS.—The Petersburg Express thus refers to a regiment of Indians, three hundred strong, now among the forces of the Confederate States at Norfolk:

These stalwart sons of the forest are from the county of Cherokee, N. C., and under the skillful training of General Jackson, a distinguished member of the North Carolina Senate from Cherokee, are now ready for immediate action. A more formidable looking body of men, we are informed by a gentleman who has seen them, never have been congregated on this continent. Not one of them is under six feet in height, and being built in proportion, they look more like modern Sampsons than any thing else to which we can compare them. The rifle has been their constant companion almost from infancy, and they are confessedly the best marksmen the world has ever seen. They shoot running or standing with the same unerring certainty, and load and fire with a rapidity which is really surprising. Each man, carries, besides his rifle, a scalping knife and tomahawk, and should they encounter Billy Wilson's cut-throats, or Ellsworth's Zouave pet lambs, the Lord have mercy on the hirelings, for it is well known the Cherokees will not. It is gratifying to know that the tribe numbers several hundred, and should their services be needed, they can all be transported to Virginia in forty-eight hours.

The Massachusetts Legislature has appropriated three millions for State war expenses, and seven millions to the General Government.

Gov. Hick's proposition to raise four regiments to be employed only in Maryland, has been rejected by Secretary Cameron. They will be accepted for general service.

THE CURES MADE BY PROF DE GRATH with his "Electric Oil," are almost miraculous and so wonderful and instantaneous, so satisfactory, and mitigating of human ill, as to call upon public functionaries, and those having charge of public institutions for the sick and suffering, to look well into the well attested merits, the simple efficacy of this "Electric Oil." Prof. CHAS. DE GRATH'S Electric Oil—The Friend of Man.

THERE is a perfect innocent, soothing and gently stimulating Medicine, that may be justly called "THE FRIEND OF MAN."—It was discovered by Prof. Chas. De Grath while travelling in South America—lately brought out by urgent solicitations—and has cured more cases of Rheumatism, Gout, Neuralgia, Lumbago, Sciatica, Spinal and Bronchial complaints, Tic Doloreux, Headache, Cramps, Croup, Piles, Felons, Sprains and Bruises, Cuts and Wounds, Swelled Glands, Stiff Joints, Scrofula, Erysipelas, Sore Nipples, Swelled Breast, Womb Disorders, Salt Rheum, Canker in the mouth and stomach, Palpitation, Eruptions, Caked Breast, Quinsy, Sore Throat, Palsy, Pleurisy, Ulcers, Lock Jaw, Heart Burn, Tooth and Ear-ache, Nervousness, Costiveness, Burns, Sore Gums of teething infants, &c., than all and every other medicine in Philadelphia.

☞It will be seen this great remedy does not claim to cure everything, but only a certain class of complaints.

☞It is an external remedy, but sometimes is taken internally (by the Doctor's advice.) It stimulates to action the absorbents and secretions, drives pains of all kinds from the body, and reduces all swellings, in an incredible short time, as all know who have used Prof. De Grath's "ELECTRIC OIL."

CERTIFICATE OF JOHN WILLIAMSON.

I, John Williamson, Attorney at Law, Huntingdon, Pa., do certify that Prof. De Grath's Electric Oil is infallible for rheumatic pains. My wife who for some time past has been greatly afflicted and unable to walk has been restored by the application of this Oil almost instantaneously and I can cheerfully recommend it to others.

JOHN WILLIAMSON.

STIFF NECK.

[Editor of Law Magazine cured instantaneously.]

GIRARD HOUSE, Philadelphia.

Prof. Chas. DeGrath:—I freely give it as my opinion, that your Electric Oil is among the most wonderful remedy of modern times. At the earnest request of a lady, who alleged that she had been relieved of a most painful affection by its use, I was induced to try a bottle, though at the time of purchasing, I fully believed it to be a quack medicine and a catchpenny humbug. But a trial convinces me that it possesses a magic power, and its use will prove a blessing to suffering humanity.

I recently took a cold from sleeping in damp sheets, and my neck became so much swollen and painful, that I could not turn my head.

After using, without success, everything prescribed by my physician, I last evening tried your Electric Oil. This morning I am well, the relief having been as complete as it was instantaneous. Yours, very truly,

Holloway's Pills.

NERVOUS DISORDERS.

WHAT is more fearful than the breakdown of the nervous system? Irritable or nervous in a small degree, distressing, for where can a remedy be found? There is one:—drink but little wine, no spirits, or far better, none; take no coffee, weak tea being preferable; get all the sleep you can, take three or four Pills every night, eat plenty of solids, avoiding the use of tea, and if these golden rules are followed you will be happy in mind and strong in body, forget you have any nerves.

MOTHERS AND DAUGHTERS.

If there is one thing more than another which these Pills are so famous it is the purifying properties, especially their power of cleansing the blood from all impurities, removing dangerous and suspended secretions. Universally adopted as the one grand remedy for female complaints, they never fail, they weaken the system, and always bring about what is required.

SICK HEADACHES AND WANT OF APPETITE.

These feelings which so sadden us, more frequently arise from annoyances or troubles, obstructed perspiration, or from eating and drinking what is unfit for us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. These Pills, if taken according to the stomach, will follow as a natural consequence, a good appetite and a clear head. In the East and West Indies scarcely any other medicine is even thought of for these disorders.

DISORDERS OF THE KIDNEYS.

In all diseases affecting these organs, whether they secrete too much or too little, or whether they be afflicted with stone or gravel or with aches and pains settled in the loins, over the regions of the kidneys, these Pills should be taken according to the printed directions and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

FOR STOMACHS OUT OF ORDER.

No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They regulate the liver and reduce it to a healthy action; they are wonderfully efficacious in case of spasms, in fact they never fail in curing all disorders of the liver and Stomach.
