Gutta-Percha Roofing.

NO article ever before introduced to the public has equaled the LIQUID GUTTA-PERCHA for coating tin or other roofs, new or old. One gallon, costing $1 50, will thoroughly coat from 200 to 300 feet of roof, and this coating will render the roof perfectly waterproof, and will last three times as long as white lead or other paint. For covering roofs, either new or old, we repeat, it has no equal for durability and cheapness, and we offer it to the public fully confident of its intrinsic excellence, and with our warrantee that it will do all we claim for it. Sold in barrels of forty gallons each, at a liberal discount to dealers. Address all orders to

Important if True!

And every Word is True!

FOR upwards of three years past, I have been engaged in a business, which has yielded me at the rate of $3,000 per annum, but being desirous of going to Europe in the course of a few months for the purpose of there introducing the business, I am willing to teach it to any one who will send me $1. The business is no humbug, but of a highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours' practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York and Pennsylvania, are earning upwards of $20 per week by it, and there is no reason why any one else cannot do the same. Invalids, even, can do well by it, as it is no peddling affair, but a business that is perfectly respectable.—Gentlemen and ladies of leisure who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of $1, I will send printed instructions by which any person can readily acquire the art, and those instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the "printed instructions" will also be authorized to teach it to others; and I have sometimes received as high as $200 for teaching it personally to a single individual. I would state further that $2 50 or $3 00 will buy everything that is necessary to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them. TREGOE'S

Cereal and Plant Food

AND

RUST PREVENTIVE,

Tested and Approved by David Stewart, M. D., Chemist Maryland State Agricultural Society.

Sold by P. MALCOM & CO., General Agents, BALTIMORE.

THIS Compound contains all the SEVEN ELEMENTS that compose CEREAL & PLANT FOOD. It hastens, by ten or twelve days, the maturity of the Plant and Grain, and is peculiarly adapted to crops requiring an early and vigorous start to bring them to perfection. For late seeding (especially upon Corn grounds) where the soil plant food has been rapidly removed by the previous crop, it SECURES THE WHEAT FROM RUST and insures a good yield of the best quality of grain.

We submit the following results of the use of the "Plant Food."

PORT PANN., Del., Sept. 7, 1861.

Messrs. TREGOE & SON, Baltimore:—The "PLANT FOOD" spread this spring, both here and at the experimental farm at St. John's College, Annapolis, doubled, and, I think, trebled, (as the weight will prove) my product of both grain and straw. There was no doubt about that. No marks nor stakes were required at any period, the dark green color, the *stooling* of the grain, the *appearance* of DOUBLE the number of plants from the same number of seed; the earlier ripening or maturity of the crop where the Plant Food was applied; the stoutness and height of the plant and straw, all told the same story, viz: that the Plants there had Food, of which the soil elsewhere was deficient. No other reason could possibly be assigned, as the crop was sown and harrowed in *before* the manure was spread as a top dressing. Yours respectfully,

DAVID STEWART,
Professor of Agricultural Chemistry,
St. John's College.

NORTH EAST, Md., Sept. 5, 1861.

Messrs. Wm. Tregoe & Son, Baltimore:—I applied the "Plant Food" at the rate of one to two hundred lbs. per acre on Oats ground last spring, and the crop was very good, fully up to my expectations. I also applied it to Corn in the hill, putting in a very small quantity in each hill; the corn started and has kept far ahead of that on the side of it, which was manured with ashes in the hill.

From the little experience I have had with it, I think it preferable to Guano or Bones—and shall so recommend it. Yours respectfully,

RUSSELL THOMAS.

☞The PLANT FOOD is put up in substantial bags of 150 lbs. each. sep25-3t

MARK THESE FACTS!

The Testimony of the Whole World.

Holloway's Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.

ALL description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and succesful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

FILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. Then again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system and leave the patient a vigorous and healthy. It will require time with the use of the Pills to ensure a lasting cure.

DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Gout,
Bad Breasts,	Glandular Swellings,
Burns,	Lumbago,
Bunions,	Piles,
Bite of Mosquitoes and Sand-Flees,	Rheumatism,
	Scalds,
Coco-bay,	Sore Nipples,
Chiego foot,	Sore-Throats,
Chilblains,	Skin-Diseases,
Chapped Hands,	Scurvy,
Corns, (Soft)	Sore-Heads,
Cancers,	Tumors,
Contracted and Stiff Joints,	Ulcers,
	Wounds,
Elephantiasis,	Yaws.
Fistulas,	

☞CAUTION!—None are genuine unless the words, *"Holloway, New York and London,"* are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending them to be spurious.

***Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 63 cents and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.
