SHERIFF'S NOTICE

OF THE

Division of Cambridge District.

THE Act of the General Assembly of Maryland dividing the Cambridge District is as follows:

AN ACT to amend sections ninety-one and one hundred and twenty-four of article 10 of the Code of Public Local Laws for Dorchester county, relating to the division of Election districts in said county, and apportioning the number of Justices of the Peace and Constables in said election districts:

Sec. 1. *Be it enacted by the General Assembly of Maryland*, That sections ninety-one and one hundred and twenty-four of article 10 of the Code of Public Local Laws for Dorchester county are hereby repealed and the following sections enacted as a substitute therefor.

Sec. 2. Dorchester county is divided into thirteen election districts according to their present bounds and limits, in each of which districts all elections for public officers shall be held at the place now established by law.

Sec. 3. Election district number seven is hereby divided into two election districts, viz: seven or Cambridge district and thirteen or Bucktown district, and is contained in the following bounds and limits: Begining at the mouth of Blackwater river and running up said river until it comes to the fork of the same, then with the east branch up to Maple-dam bridge, then with the county road southerly until it intersects David M. Corkan's road, then with said road to Martin's road, then by and with Martin's road until it intersects the county road leading from Bucktown to Cambridge, at or neat Levin Mobray's gate, then with said road leading from Bucktown to Cambridge north until it intersects the Cordtown road, then with the Cordtown road until it intersects the road leading from Vienna to Cambridge, then with said road to the corner of Dr. Kurtz's out field, and intersecting a road leading from the Cambridge and Vienna road, to Aireys, then by and with said road to Transquakin Bridge, then with the Transquakin river to its mouth, that they are constituted by the provisions of this act a separate election ditsrict called the thirteenth, or Bucktown, and are required to vote in the village of Bucktown "at such place as the Judges of election may determine." Notice is also given to the balance of the voters of the former Cambridge, or No 7 election district, that they are constituted a new election district under the name of No 7 or Cambridge, and are required to vote, as heretofore, in the town of Cambridge at such place as the Judges of election may determine. Gutta-Percha Roofing.

NO article ever before introduced to the public has equaled the LIQUID GUTTA-PERCHA for coating tin or other roofs, new or old. One gallon, costing $1 50, will thoroughly coat from 200 to 300 feet of roof, and this coating will render the roof perfectly waterproof, and will last three times as long as white lead or other paint. For covering roofs, either new or old, we repeat, it has no equal for durability and cheapness, and we offer it to the public fully confident of its intrinsic excellence, and with our warrantee that it will do all we claim for it. PROSPECTUS OF THE

Maryland Field & Fireside.

CONFIDENCE in the future growth and prosperity of Baltimore County, and of this, its county seat, induces the establishment here of a new paper, which, commencing with the good wishes of many of its inhabitants, it is hoped will secure the respect of all, and be found not unworthy to take its place among the first journals of the State.

The time is not so favorable to rapid success as could be desired, but it is remarkably important for the discussion and establishment of those sound principles of political and domestic economy, which lie at the foundation of all good government and of all personal comfort. A departure from those principles has brought distress upon numerous households, has covered with discredit, if it has not endangered republican principles, and reversing the course of the nation, has turned it from the paths of peace, prosperity and ascending and expanding civilization and Christianity, into those which lead with fearful acceleration to discord and adversity, to skepticism and demoralization.

Under such circumstances, great truths will probably command an attention from those who think at all, which, in periods of ease and tranquility, they might ask in vain.

With the Shield of Maryland over the head of its columns, this paper will defend those principles of civil and religious liberty which were established upon her soil, at the moment when the unrecorded reign of the Red man gave place by mutual consent to that of the White; which has been illustrated through all the vicissitudes of her career, through adversity and prosperity, storm and sunshine, upon every page of her history, and which still find among her sons, in the tempest which now sweeps over the land, devoted and faithful advocates.

The Literary, the Agricultural, the Commercial, and Educational, the Scientific, and other departments of the paper, are placed in the hands of competent parties, who will no doubt render good service in making the "Farmer" and "Fisher" of the Maryland arms, symbols of practical good in placing her motto upon every industrial pursuit of her sons, in fertilizing and adorning the "Field;" and instructing, elevating and refining the "Fireside."

With these views, the Maryland Field and Fireside commences its career in the midst of social discord, civil strife and sectional war. May it be its lot in some degree to lessen or ameliorate those calamities, to contribute to the establishment of those principles which shall prevent their recurrence in the future, and finally to rejoice with all the inhabitants of the land in that peace and harmony among all the States, which, whatever may be the political arangements, can only be restored as they were originally produced, by the voluntary consent of each one of them.

The State news will pruned of all distasteful reading, and the notice of current events confined strictly to facts without comments from the reporter, which at best, are mere individual opinions and really no better than any other gentleman capable of making a report of the same, conveying a different impression.

The news of the county will be received from weekly correspondents residing in all the districts of the county, who will furnish reports for the paper free from alloy. The paper will be distinctly a transcript of Baltimore County.

We shall endeavor to make the paper known for truth whenever seen and by whatever party perused, fully endorsing the accuracy and correctness of its reports, statistics and original statements.

With this faith, and determined course, thus outlined, we ask for the Field and Fireside, the support of all classes!

And if by any possibility, there should occur a line of mis-statement, that is not at once corrected when attention is called to it, we say, cease to patronize, and countenance a paper with pledges so fairly made and thus recklessly broken.

Terms, $2.00 per annum, payably invariably in advance.

All communications to be addressed to the editor, M. HERBERT UMBAUGH.

Important if True!

And every Word is True!

FOR upwards of three years past, I have been engaged in a business, which has yielded me at the rate of $3,000 per annum, but being desirous of going to Europe in the course of a few months for the purpose of there introducing the business, I am willing to teach it to any one who will send me $1. The business is no humbug, but of a highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours' practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York and Pennsylvania, are earning upwards of $20 per week by it, and there is no reason why any one else cannot do the same. Invalids, even, can do well by it, as it is no peddling affair, but a business that is perfectly respectable.—Gentlemen and ladies of leisure who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of $1, I will send printed instructions by which any person can readily acquire the art, and these instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the "printed instructions" will also be authorized to teach it to others; and I have sometimes received as high as $200 for teaching it personally to a single individual. I would state further that $2 50 or $3 00 will buy everything that is necessary to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them. SEAL SKIN Driving Gloves at
dec26 J. G. ROBINSON'S.

Wilcox & Gibbs'

SEWING MACHINES.

Price with Hemmer & Feller,

$35 00.

THIS MACHINE HAS POINTS OF SUPERIORITY PECULIARLY ITS OWN.

Stitching, Hemming and Felling with a Single Thread.

IT forms a flat, even and elastic seam, which is WARRANTED not to rip up in wear, even if the seam is cut at frequent intervals, and also under all circumstancas to "survive the wash-tub."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance-wheel wearing a lady's dress.

Another feature which deserves particular attention is The Wilcox Patent Needle cannot be set wrong.

Two thousand Stitches or two yards of work can be done in one minute without dropping a stitch.

These Machines so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.

Although at about half the price of the other first class machines, they will accomplish double the sewing in a given time.

"It is emphatically the good, low priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most serviceable Sewing machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Pennsylvanian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition."—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs sewing Machine. We consider that a great desideratum has been supplied by it, in proving, beyond doubt, that two threads are not, as was supposed, necessary to a good instrument."—Christian Advocate and Journal, June 21 '60.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after some six weeks' experience with Wilcox & Gibbs' Patent, he has purchased one of them, as the best adapted to the wants of his family, and as the least liable to require repair.

OLIVER CRANE.

Boston, July 3, 1860.

The undersigned, during eighteen months, has had in almost constant use, in his family, a Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family—from muslin to pilot cloth—including the clothing required for his several boys; and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is, in all respects, well appointed, efficient and durable.

MARK THESE FACTS!

The Testimony of the Whole World.

Holloway's Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.

ALL description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. Then again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system and leave the patient a vigorous and healthy. It will require time with the use of the Pills to ensure a lasting cure.

DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Gout,
Bad Breasts,	Glandular Swellings,
Burns,	Lumbago,
