TO BOOST THE EASTERN SHORE.

A Large and Enthusiastic Meeting Held at Easton.

The committee of one from each of the nine Eastern Shore counties to boost and advertise the Eastern Shore of Maryland, together with a number of interested and influential business men and farmers of the shore met in Easton Thursday afternoon at the court house and affected a preliminary organization. The meeting was called to order by Mr. M. Nicols, of Easton. Gen. Joseph B. Seth was chosen chairman and Watson Webb, of Cambridge, was made secretary. The meeting was a very enthusiastic and interesting one. A number of addresses were made. Prof. Norton, of the Maryland Agricultural College, read a most interesting paper on what the Eastern Shore is and can do. He compared the crop reports of this section with those of a number of other state's statistics which he quoted from the government reports. The Eastern Shore was shown to be far in advance of any of the other sections quoted.

A committee of one from each of the nine Eastern Shore counties is to be appointed by Gen. Seth, chairman of the meeting. The duties of this committee will be to ascertain if it is advisable to form a permanent organization, and if the committee deems it advisable they are to prepare a set of by laws and formulate a plan of permanent organization. They were also instructed to invite the three Delaware Peninsula counties and the two Eastern Shore counties of Virginia to join in the movement. This committee is to call a meeting in the near future and make a report.

She is especially successful in awakening and attaining a high degree of interest in her theme. She is also so reasonable in her claims that she carries conviction in her statements."

CORN SHELLERS.
Our No. 7½ Sheller with roller bearings is the easiest running sheller on the market, and we are selling them on account of an early buy at only a little advance over last year's prices.
We have a good two-hole sheller with fly wheel starter and belt wheel, can be used for hand or power at only $14. It is a good sheller, and is a bargain at the low price we make on it.

3 H. P. "I. H. C." ENGINES
As you are aware, everything in iron and steel is advancing rapidly, causing all manufacturers to advance prices We made a contract some time ago for a few of these engines, and we are offering them on the basis of the old prices. The 3-Horse Power International is so well-known that it needs no recommendation from us. It has made its own reputation by its good works. We would advise an early action on these as there are only a few of them to be had at the price we offer them.

ROOFING
We have a liberal stock of Corrugated Iron Roofing and the price is probably lower than you would think.
Rubber Roofing, too, is here at most any price you may wish, from 85c roll up, according to weight and quality.

Yours to serve
