The above lottery is intended to realize the desirable object of a *Town Clock* and *Alarm Bell*, which the citizens have for some years endeavored to obtain, but as yet their efforts have proved ineffectual. As they will be both useful and ornamental to the city, the managers flatter themselves, that the advantages resulting from them to the community at large, will at once strike the attention of a discerning public, especially in a city whose commerce and population is exceeded by few in the United States. The advantages of the scheme itself, (the number of blanks being less than two to a prize) and the expectation of the drawing being completed as soon as any now offered to the public, will, they hope, ensure the tickets a ready sale. All prizes in the above lottery will be paid, *without deduction*, within thirty days after the drawing is completed—those prizes not demanded within twelve months after the drawing, will be considered as relinquished for the benefit of the undertaking.
