Preparing to Feed The Nations

The Boy's Agricultural Club of the Chestertown High School, held their monthly meeting last Friday, April 20. The County Agent, Mr. L. L. Burrell, and Mr. R. F. McHenry, Assistant State Boy's Club Agent, aroused much patriotism among the members, showing them that these meetings are in keeping with the demands of the world. There is a serious scarcity of food stuffs, especially grains and meats, throughout the different countries and Mr. Burrell urges every boy to put forth a strenuous effort to make the acres produce the very largest yields possible. It is an excellent idea for the boys to get interested in the tilling of the soil as the time may come when we may have to take the place of the men who are called away to the service of their country. Every boy should see that it is his patriotic duty to join the club as they not only realize a profit, but they will be serving their country just the same as the man with the gun.

These clubs may seem insignificant when taken separately, but when taken collectively they have a magnitude of strength.

Come boys and join us to relieve the suffering of humanity.
