This To Happen When Draft Becomes A Law.

Here is what will happen when the draft bill becomes a law:

1. The President will designate a day of registration. The Governors of the various States will be asked to have Sheriffs of the counties appoint registers to take the names of all males between the ages of 19 and 25. Those who refuse to enroll will be arrested.

2. The State officers will exempt from military service "persons engaged in industries found necessary to the maintenance of the military establishment."

3. Those not exempted will be reported to the War Department, which will make futher exemptions.

4. It is estimated that by August 1 the 500,000 men desired will be in training camps.

5. It is estimated that the registration will result in an enrollment of 7,000,000, and about 40 per cent. of this number will be weeded out on account of physical disabilities. The 500,000 to be selected from the remaining 60 per cent. will be chosen by lot.

Speculators Hold Eggs.

About two hundred car loads of eggs, approximately 30,000,000, are on railroad tracks in Chicago today, and they are being held by speculators according to Herbert A. Emerson, who is on his way home in New York.

Mr. Emerson said that the Pacific Coast states this year, instead of importing eggs as they have done usually will have a surplus of 75,000,000 to 100,000 cases. This will release the supply from the Northern and Middle Western States, which has been going to the Coast in past years and will turn that supply toward the East.

Mr. Emerson said he had no evidence of an egg trust but he is sure there is a mighty close understanding among the big dealers.

Subscription to the Transcript $1.00 per annum.

TO THE PUBLIC!

On or about April 1st, we will offer to breeders the service of a fine MISSOURI JACK. 12 years old. He is sure and his Colts make fine sized and serviceable Mules. That he is no experiment is proven by the size and qualities of numerous of his get now working in Talbot county, where he has been in the stud for 10 years.
