it will probably decline rapidly. At Lisbon, by the last quotations, it was at 68s. a 70s. per bbl. Cochineal, indigo and dye woods do not sell briskly, but it is presumed, as soon as the prize sales are over, these articles will meet a more steady demand. Pot and pearl ashes are scarce, and much enquired for. The state of European politics continues particularly favorable to the advancement of American commerce, and the reports of a pacific nature have entirely subsided. The prospect of a continental coalition is also entirely over, at least for this year; and the aggrandizement of the French is still viewed with the same apathy. The new constitution has been carried into effect in Holland; and Bonaparte is now visiting Italy, to complete his assumption of the Italian crown. The Toulon squadron pased through the Straits of Gibraltar the 9th ult. and has effected a junction with the Spanish fleet; their forces together amounted to 18 sail of the line and 6 frigates; it is said they have about 12,000 troops on board; their destination is at present a matter of general speculation. Ireland, the East and West-Indies, and even the Brazils, are mentioned. No intelligence has however been received of their trach, but it is generally believed that they are gone to the West-Indies. Part of lord Nelson's fleet was seen off Carthagena the 20th ult. trying to get through the Straits, and it is confidently hoped they may still come up with them. In consequence of these movements, a general embargo has been laid on all English ships in our ports, and the greatest exertions are made to augment our squadrons. A detachment of 12 sail of the line, from the channel fleet, is immediately to be dirpatched to the Wesr-Indies."

On Sunday last arrived at the Lazaretto, the schooner Friendship, captain Hughes, from Trinidad, which he left the 5th of June, after a detention of 18 days, by an embargo. He touched at St. Thomas, which he left the 10th ultimo, and reports the following vessels left at Trinidad:—Ship Hercules, Harman, of Pepperleborough, for New-York, in 20 days; brigs Reuben, White, of Middletown, for New-York, in 4 days; Mary, M'Lellan, of and for Portland, in one day; New-Haven, Benham, of New-Haven, for New-York, in 4 days; Diana, Hitch, of New-Bedford, for New-York, in 6 days; Rola, Clapp, of and for New-York, in 4 days; barque Harper, Landen, of and for Salem, in 12 days; sloop Neptune, Much, of Pepperelborough, for Boston, in 10 days; schooner Olive-Branch, Harper, of and for Philadelphia, in 2 days.

The ship Volunteer, Conn, arrived at Trinidad on the 27th of June, who was immediately ordered to sea on account of having India goods on board, but was brought to by the guard ship King-Fisher, and detained as French property. The Volunteer's papers were taken from the captain and supercargo, and sent to Babados for examination. Left at St. Thomas's, the 11th of June, the brig Hope, Thomas, for Philadelphia, in 3 days; also, the schooner Hetty, Taylor, where bound, unknown. Accounts arrived at Trinidad the 4th June, that 12 sail of the line (British) were hourly expected at Barbados. The Friendship was boarded off the West end of St. Thomas, by a French privateer and treated politely. Spoke, June 25, the schooner Mary-Ann, Lile, from New-York, bound to North-Carolina, out five days, in lat. 36, 23, N. long. 84, 30.

SAVANNAH, June 19.

On Monday afternoon came up and anchored below the city, where she fired a salute, one of the fleet of French privateers which have for some time past invested the harbor of Charleston. This is the same which captured the ship Two Friends a few days since. Her business here is said to be to procure a supply of water and provisions.

CHARLESTON, June 21.

Yesterday arrived the British ships Nanny, Ainsworth, and Jack Park, Rimmer, 84 days from Africa, and via Surinam, 20 days.

On the 2d instant, about two legues to windward of Barbados, these ships were boarded by the British frigate Bula, and had seven men impressed from them.

The next day the Nanny was boarded by the Amphion, the repeating frigate of lord Nelson's squadron, of ten sail of the line and two frigates, and was informed by them of the arrival of the French and Spanish force at Martinique, of which they were in pursuit, and expected twelve sail of the line to join them immediately.

Arrived, ship Nanny, Ainsworth, Africa, via Surrinam, 20 days, *Tuno and Cox, & J. Price*--TWO HUNDRED & SEVENTY-FIVE SLAVES; ship Jack Park, Rimmer, Africa, via Surrinam, 20 days, *Tuno and Cox, and J. Price*—TWO HUNDRED AND SIXTY-EIGHT SLAVES.

Cleared, brig Vereinigung, Lossing, Tonningen.

June 22.

The French privateeer schooner Matilda, captain Crassin, from Guadaloupe, now cruising off our Bar, captured on the 16th June, in lat. 33, 30, long. 75, 30, the American brig Comet, John Chelton, master, owned in Norfolk by Mr. William Pennock, and bound there with a cargo of coffee from Jeremie; also, schr. Imperial, Nicholas Everson, master, of and for Baltimore from Jeremie, with coffee, on the 14th June, in lat. 33, 5, long. 75, 15; also, the British brig Clyde, from St. Thomas for Liverpool, with a full cargo of coffee.

The privateer is a large schooner of nearly two hundred tons burthen, last from Guadaloupe, had a complement of 180 men when she left it, and is reported to have now 120 men, and mounts 18 nine and six pounders. Captain Chelton, late master of the brig Comet, of Norfolk, is now a prisoner on board.

Consulate of the United States of America.
ISLAND OF CUBA.
Havana, 11th June, 1805.

For the information of the merchants and others in the United States, the undersigned consul thinks it his duty to make known, that by an official act of the captain general and intendant of this island, under date of the 29th ult. a reduction of the duties on imports in foreign vessels took place of about 7 per cent. on all duties made after the 26th ult. So that the actual duties now payable on such imports in this island are about 25½ per cent. on the valuation here.

Also, that by the said act, goods and merchandize of the growth or manufacture of Spain, accompanied with proper documents from the custom-houses from whence they were cleared in that kingdom, knowing them to be such, and imported into this island, are subject to no more duties than if imported into Spanish bottoms, viz. about 6 1-2 per cent.

Erratum.—In the last resolution of the managers of the Dispensary, published in Monday's Gazette, the sum of 260 dollars was mentioned. It should have been 200 only.

For the Federal Gazette.

The president and managers of the *Charitable Marine Society of Baltimore*, beg leave to address a few observations to *some* of the early contributors to this very humane institution, who have since refused and neglected to pay the *small* yearly contributions, by which it is supported. At the time they became members, they must have been impressed with an idea, that it was a benevolent scheme, calculated for the relief of a number of persons who are very often left in the most distressing situations, among strangers and at a distance from friends; who were able and willing to have assisted them. That the expences to be incurred in this undertaking, was a trifle, compared with what many would have to pay, were some of those persons thrown entirely lon their humanity.

How those ideas came to be altered, we cannot conceive, as the management of the society, heretofore, has been conducted on the most economical plan, the whole expence of the society, for the last year, being only 125,61*—and no probability that it will ever amount to much more. The donations of the society amount this year to 930 dollars, to sixteen distressed widows and twenty orphans of members who have died in such circumstances, that without this assistance, many of them must have suffered every evil which poverty could inflict. The society is possessed of six shares in the bank of Baltimore, and ten shares in the Union bank—But, from the increasing demands this year, they have been necessitated to borrow 200 dolls. on the credit of the debts due to the society, which amounts this day to 653 dollars.—From this sketch of the affairs of the Society, the contributors will judge whether those to whom the management has been entrusted have done their duty or not. And now permit the addressers to call on those of the members who are in arrears to pay the collector with promptitude, and not put him to the trouble to call twice for so small a sum—and those addressed in the first part of this, to re consider the motives that induced them to give up the institution, and again to come forward with their assistance and support, to comfort the widow and fatherless, and "lay up for themselves treasures in Heaven, where neither moth nor rust doth corrupt, nor thieves break through and steal."

By order, JOHN HAMILTON, Sec.

MR. PRINTER,

I would beg leave, through the medium of your paper, to solicit my brother farmers to make use of their ashes on their corn land, instead of selling them to the merchants for 12 cents a bushel. I will warrant them 45 cents a bushel clear of all expence, if rightly managed. The method is this: When your corn first comes out of the ground put one half pint of ashes around the hill; if your ashes are not good put the more. In conversation with a venerable old gentleman the other day on the subject, he assured me, that he had made use of ashes in this way for many years past, and had never failed of having one bushel of corn extraordinary for every bushel of ashes. It is the opinion of some men that half a pint of good ashes is rather too much for a hill, but this must be left to the discretion of the farmer. I am sensible it is not customary to pay much attention to what we read in newspapers; but, my brother farmers, let us try one bushel this year, and if it has the desired effect, we shall be rewarded for our trouble, and can well afford to try the experiment another year.

A. FARMER.

PEACH TREES.

Observing anarticle relative to this tree in the Farmer's Repository, I thought it might be of service to some persons, who have laisure and opportunity to make the experiment, which the writer was informed was an effectual preservative.

Make boxes around your trees about one foot in height, and in capacity (exclusive of the tree) to hold a peck, fill this in with the bark taken from tan vats, pressing it a little together, and your trees will remain free from worms around the roots, which are so destructive to trees, as it is found that worms will not inhabit this bark if ever so old. AN ACT

Further providing for the government of the territory of Orleans.

BE it enacted by the senate and house of representatives of the United States of America in congress assembled, That the president of the United States be, and he is hereby authorised to establish within the territory of Orleans, a government in all respects similar (except as is herein otherwise provided) to that now exercised in the Missisippi territory, and shall, in the recess of the senate, but to be nominated at their next meeting, for their advice and consent, appoint all the officers necessary therein in conformity with the ordinance of congress, made on the thirteenth day of July, one thousand seven hundred and eighty-seven, and that from and after the establishment of the said government, the inhabitants of the territory of Orleans, shall be entitled to, and enjoy all the rights, privileges and advantages secured by the said ordinance, and now enjoyed by the people of the Missisippi territory.

Sect. 2. *And be it further enacted*, That so much of the said ordinance of shall amount to sixty thousand, they shall thereupon be authorised to form for themselves a constitution and state government, and be admitted into the union, upon the footing of the original states, in all respects whatever, conformably to the brovisions of the third article of the treaty, concluded at Paris, on the thirtieth day of April, one thousand eight hundred and three, between the United States and the French republic: *Provided*, That the constitution so to be established shall be republican, and not inconsistent with the constitution of the U. States, nor inconsistent with the ordinance of the late congress, passed the thirteenth day of July, one thousand seven hundred and eighty seven, so far as the same is made applicable to the territorial government, hereby authorised to be established: *Provided however*, That congress shall be at liberty at any time prior to the admission of the inhabitants of the said territory to the right of a separate state, to alter the boundaries thereof, as they may judge proper;—*Except only*, That no alteration shall be made, which shall procrastinate the period for the admission of the inhabitants thereof, to the rights of a state government, according to the provision of this act.

Sect. 8. *And be it further enacted*, That so much of an act, entitled, "An act erecting Louisiana into two territories, and providing for the temporary government thereof," as is repugnant with this act, shall, from and after the first Monday of November next, be repealed. And the residue of the said act shall continue in full force until repealed, any thing in the sixteenth section of the said act to the contrary notwithstanding.

Baltimore General Dispensary.

THE Managers intending to publish as speedily as possible, for the information of those requiring the aid of the institution, an accurate list of the contributors thereto for the prerent year; and finding their subscription papers without the names of many who are able, and are probably willing to contribute, invite them to send their benefactions to Mr. P. E. THOMAS, the treasurer of the dispensary, at 106, Market-street. The payment of Five Dollars entitles the giver to recommend, during one year, to the care of the institution, as many indigent sick as fall under his notice.

And as the managers are earnestly desirous that the benefits of the dispensary shall be fully extended to the indigent sick, they particularly request every person who may be informed of any neglect on the part of any attending physician, to give information thereof to any one of the managers, that strict investigation may be made into the same.
