DELAWARE is to have a newspaper devoted to the interests of the Masonic order, the first issue to appear some time in October. It will be known as the Delaware Masonic Index and has the approval of the heads of all the Masonic bodies in the State. It will be a monthly publication.

IT NOW looks as though the War Department is going to take over Kent Island as a proving ground. This would seem to be true from the statement that a project is under way to establish a ferry between Annapolis and the island. Interested in the project are the Federal Government, the Washington, Baltimore and Annapolis Electric Railway, and the State of Maryland. The Federal Government's interests lie in the fact that if Kent Island is transformed, as seems to be sure, into a guntesting site, the goveenment will have to provide a means of communication by which access will be possible for Army officers from Washington and other points. The Washington, Baltimore and Annapolis Electric Railway is the logical connecting point between Washington and the island.

REJECTS PEACE TERMS.

President Wilson has rejected the Pope's peace proposition and demands a crushing of Hohenzollernism. The President states "that to deal with such a power as the present rulers of Germany upon Pope Benedict's plan would involve a recuperation of the strength and renewal of the world domination of that power, now balked but not defeated after sweeping a continent with the blood of innocent women and children and the helpless poor as well as of soldiers.

"Permanent peace must be based upon the faith of all the peoples and upon justice and fairness and the common rights of mankind, he adds, and we cannot take the word of the present rulers of Germany as a guarantee of anything that is to endure unless explicitly supported by such conclusive evidence of the will and purpose of the German people themselves as the other peoples of the world would be justified in accepting."

AN UNTIMELY PUBLICATION.

In its issue of Saturday last, Aug. 25, the Kent News, in commenting on the names of Messrs. Harry Taylor and George Carter on the Republican ticket, lays stress on the fact that both of these gentlemen were formerly allied with the Anti-Organization faction of this county, but fail to state that prior to a few years ago both of these gentlemen were allied with the Organization faction.

The interests of the Anti-Organization we shall always endeavor to zealously guard and defend, as we believe the principles for which it stands are those of the greatest benefit to the citizens of this county and State. We have no excuse to offer for the position taken by Mr. Taylor or Mr. Carter; they must decide that for themselves, and while we deeply regret to lose them from the Democratic party, we must admit they have a right, as free American citizens, to change their politics if they wish to do so. Mr. Taylor was, up to a few years ago, an Organization Democrat and an efficient and hard worker for that wing of the party, but like hundreds of other Democrats in the county, he became convinced that the Anti-Organization represented a principle that appealed to the tax paying interests of the people of Kent county, and he devoted his interests to those principles, and worked for their achievement.

It is very apparent to any one who keeps apace with politics that the Organization seems to regard political offices as their private property, and any aspirant for political honors commits a political crime unless they first consult the Organization and get their approval before announcing their candidacy. These arbitrary methods are responsible to-day for the large and increasing independent vote that is so rapidly gaining headway each year in our body politic. This is no time, in our judgment, for the publication of editorials like that indulged in by the News. The main question before the Democrats of Kent county now is, to elect the Democratic ticket, and this cannot, we believe, be done by the publication of articles like that in the News last Saturday.

Let every Democrat in this county constitute himself a worker for the Democratin ticket until the poles close on November 6, and thus redeem to the county Democratic control.

Grange Notes.

The meeting of Still Pond Grange scheduled for the 53rd, but postponed on account of rain, was held the following day. The attendance was slim owing to sickness and absence from home of a number of the members, but all present had a good time and were loath to say good bye to the host and hostess, Mr. and Mrs. Albert Jervis. These out-of-door meetings have proved so successful that another one in September is being planned.

A full attendance is desired at the next regular meeting of the Still Pond Red Cross and Navy Leegue Unit Tuesday, Sept. 4th. It is hoped all garments being made will be finished and handed in on that date. A hearty invitation is extended to everyone wishing to unite with said unit. Place of meeting—Sunday school room.

A Worthy Fund.

In order that the Health Nurse of Kent county may do efficient work while in our midst it is necessary that she have some means of conveyance. The local society asks the public to furnish this means of travel by contributing sufficient money to purchase a Ford runabout and the Transcript's columns are open to this worthy cause. Any sum from 25 cents up will be accepted at this office or at any of the banks. The petition says:

We the undersigned subscribe the amount opposite our names for the purpose of providing a conveyance for the Health Nurse to get to various parts of the county on her mission of mercy and help:

Cash	$5.00
"	2.00
"	10.00
"	.50

Meetings Postponed.

The monthly meeting of the Red Cross and Navy League and Canning Units of of the county has been postponed until October as the Chautauqua week will interfer with that work. The State chairman, Mrs. Shumaker, has requested that the State meeting that was to have been held in Chestertown this week be postponed on account of the absence of many of the State chairmen. Reports for August and September will be given at the October meeting, when we hope the State chairmen will be present.

THE DEFENSE COUNCIL.

A Quality Circus to Exhibit in Chestertown.

The LaTena Circus and Wild West has been billed to exhibit in Chestertown Saturday, Sept. 8. This is a big 3 ring circus and carries a number of arenic stars who have made themselves famous throughout America by their cleverness. The management claim the performance to be superior to anything ever seen here before and perfectly free from any and all objectional features and particularly attractive to ladies and children.

The grand free street parade is worth seeing. It is filled with original, novel and comedy features, among which will be many open dens of wild beasts to be viewed by the spectators.

Exhibitions will be given afternoon at 2; evening at 8.

After a great deal of discussion the Democratic Organization of Queen Anne's county promised to support Constable J. P. Williams, for sheriff of Queen Annes county. He was opposed by former Sheriff Sandford E. Spry, of Crumpton, and former Deputy County Treasurer W. Emory Clough, of Centreville.

TYPHOID FEVER

How to Prevent Its Spread

ISSUED BY THE

State Board of Health of Maryland.

When TYPHOID FEVER appears in a family the source of the infection must be looked for in drinking water or food taken within the preceeding twenty days. The patient may not have been infected at home, but if a second case occurs this second infection will in all probability be traceable to the first patient. In a majority of instances the drinking water has become infected. Your first business, therefore, is to find out the quality of your drinking water.

You can do this by asking your local health officer for instructions about shipping us samples of your drinking water. *The daily supply of drinking water should be boiled.*

The infectious material of typhoid fever is produced in but one way. It grows always in the bowels and sometimes in the bladder. It therefore, escapes from the sick person in the stools and urine. If we kill the germs in the stools and urine as soon as they are passed, there can be no spread of typhoid fever. These discharges should, therefore, be disinfected as soon as possible. You will need a large quantity of a good disinfecting solution.

RECEIPT FOR A GOOD DISINFECTANT.

To four gallons of water add enough salt to make a strong brine. Put this in a five gallon demijohn or jug and add a quart of crude carbolic acid. Shake it up well and you have a good disinfectant for stools and urine.

The crude carbolic acid, known as U. S. P. 90 per cent., is very good, and a quart will cost about 50 cents. There is a cheaper grade, known as a 36 per cent. acid, which is nearly as effective.

About a pint of this solution should be put in the chamber or bed pan before it is used, so that the discharges will begin to be disinfected as soon as they leave the body. There must always be at least as much of the disinfecting solution as there is of the discharge so that more of the disinfecting solution may need to be added after the discharges are passed. If the stools are thin and watery their disinfection will be accomplished in half an hour or so, but if the stools are thick or formed very much more time will be required. On that account it is best to have a covered jar or bucket into which the bed pan can be emptied, and to empty this jar only once in 24 hours. If the discharges cannot be finally thrown into a sewer they should be buried in the soil at a convenient spot where there is no chance of their fouling a water supply. The discharge should never be thrown on the surface of the ground, for you will hardly be successful in killing all the typhoid bacilli, and you must not place them where those not killed by the acid may be blown about in the dust or carried away by flies to infect other people.

In spite of every precaution, those who wait on the sick person will get their hands infected, and it is therefore, necessary to wash the hands every time one does any service about the patient's bed or body. Whoever waits on the patient must not prepare food or drink for other persons in the house, or if it is impossible to mind this rule one must most carefully and thoroughly cleanse the hands before performing any house-hold duty outside the sick room. Good scrubbing with soap, water and a brush, and then rinsing well in fresh water will suffice for cleansing the hands.

If anyone else in the house falls sick within two weeks after the first patient, the probability is that the infection was lodged before the precautions were taken in regard to drinking water and the disposal of the discharges. But if the second case occurs more than 20 days after the first case that will signify that we have made a mistake somewhere in our precautions.

Toulson's Pharmacy.

THE REAL STANDARD.

In buying Drugs the really essential feature is PURITY.

It is impossible to get cheap Drugs and have them pure. The only advantage we get is buying in quantities. We buy the best and sell them close—the result is a lower cost to you, but we never slight the worth of the Drugs we sell and we are exact on the PRESCRIPTIONS we fill.

Supplies for home, bath, nursery and sick room are found here in great profusion.
