MARRIED,

On Thursday evening last, by the Rev. James A. McKenney, DANIEL MANYDIER son of John C. Henry, esq. of Hambrooks, to HENRIETTA MARIA, youngest daughter of the late HON. Charles Goldsborough, of Shoal Creek

☞We had the pleasure of witnessing the interesting ceremony, and looking upon the lovely bride (to say nothing of the groom) when she plighted her troth, and joined in the general prayer as it ascended to heaven for their prosperity and happiness. The above notice was accompanied with none of your meagre slices, but with a waiter of splendid Bride's cake, for which we (Editor, Printers and Devil) desire them to receive our thanks and best wishes. We have a great mind to say that we will not publish any more marriage notices without a waiter full of cake.

SMUT MACHINE.

The subscriber has, at an expense of over $100, attached a Smut Machine to the Lower Cabin Creek Mills, belonging to T. K. Smith, esq. This machine is from the house of Kirk & Johnson, Wilmington, Del. and is an admirable cleanser of wheat. It takes out some garlic, much of the darnel or cheat, smut, dirt, dust, white-cap, &c, and with but little waste of the grain, will clean wheat better than many fannings.—Although the customer gets purer and whiter flour without any charge, yet the miller has considerable extra trouble, and the tax on the water power is such that it will be a considerable draw back upon his profits in dry weather. The public are invited to make a trial of it. The public's obt. serv't.

NOTICE.

The subscriber is again under the painful necessity of forwarning all persons from hunting with dog or gun, on any part of his farm, Glascow, North East of the main road leading from Cambridge to Sandy Hill, which is about one third of the entire tract, leaving about two thirds, to their entire pleasure to hunt and gun all they please, until further notice. Parents will please caution their sons, and others to be so kind, as to leave one third, as above named, unmolested, as myself and family are in danger of being shot, which has occurred three times, not further back than this very day—on walking to the door, I discovered a boy in the act of leveling his gun at a bird in a direct line with my two little daughters and servant on the opposite side of the yard.

All persons neglecting the above notice, I shall certainly extend the full extent of the law, without respect to persons.

LAND FOR SALE.

I WILL sell on a long credit, about six hundred acres of the tract of land, called "North Yarmouth," situated on a high elevation upon the Transquakin river, in Dorchester county, about eight miles from Cambridge, and four from Vienna.

This part of the tract is divided into two farms, with a dwelling house and other usual houses, on each, in good repair; and an ample proportion of excellent timber land. They are well supplied with springs of pure water.

The soil has, on frequent trials, produced the best tobacco on the E. Shore of Maryland; and is well adapted to wheat, corn and clover.

Dorchester county, to wit:

On application to me the subscriber, one of the Justices of the Orphans' court of Dorchester county, by Thomas H. Hooper jr of said county stating that he is in confinement for debts which he is unable to pay, and praying to be relieved therefrom agreeably to the acts of Assembly for the relief of insolvent debtors a schedule of his property & list of his creditors & debtors on oath so far as he can at present ascertain the same being annexed to his petition, & the said Thomas H. Hooper jr being in actual confinement, and I being satisfied that the said Thomas H Hooper jr has resided for two years last past in the state of Maryland, and he having taken the oath prescribed by the act of 1805, and having given bond with approved security for his appearance before the Judges of Dorchester County court, to be held at Cambridge in said county, on the first Tuesday after the first Monday in April next and at such other time or times as the said court may direct, to answer the allegations of his creditors, and having complied with the requisitions of the act of December session 1825 & the several supplements thereto by executing a deed of all his property, real personal or mixed, to Noah Abbott appointed by me as trustee to the said Thomas H Hooper jr, and the said trustee having given bond with approved security for the performance of the trust and certified in writing to me that he is in possession of all the property of the said Thomas H Hooper jr mentioned in his schedule—I do therefore order and direct that the said Thomas H. Hooper jr be discharged from his imprisonment and that he be and appear before the judges of Dorchester county court on the day above mentioned; the same time is appointed for his creditors to appear and show cause if any they have, why the said Thomas H. Hooper jr. should not obtain the benefit of the insolvent laws, and I do further order and direct that the said Thomas H Hooper jr give notice to his creditors by causing a copy of this application to be published in a newspaper published in Cambridge, three months before the said day, and to be continued in such newspaper once a week for four successive weeks, also a like copy to be set up at the court house door three months before said day. Witness my hand this 5th day of September 1845.

THOMPSON'S
VEGETABLE WORM SYRUP,

PREPARED BY

DOCTOR A. C. THOMPSON,
CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion, Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food; hence Worms are most common to children, although many grown persons are subject to them. I have known persons to advanced age to have them.

It is well known to the Medical profession, that many diseases are brought on, and continued by reason of Worms, and many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with a remedy that will be certain to expel them.

It is often a difficult matter to expel worms, from children, although numerous remedies have been recommended, and used for that purpose, yet there are articles if properly combined, and judiciously used, will seldom fail in accomplishing the object.

In consequence of my frequent failures in 30 years practice to expel worms from children, with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable Extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents, embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in alluding in no measured terms of praise to the Vermifuge properties of the compound, which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the pretean complications so often manifested in Verminose irritation, will seldom disappoint us in our most sanguine expectations.

Very respectfully yours,
THOS. HY. HANDY, M. D.

CAMBRIDGE, April 26, 1845.

My Dear Sir,

I believe that your "*Preparation for Worms,*" will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM L. WINGATE, M. D.

THOMPSON'S
VEGETABLE ANT-BILIOUS PILLS,

PREPARED BY

A. C. THOMPSON, M. D.
Cambridge, Md.

As Dr. Thomas justly observes "it is impossible to give a concise and proper definition of the disease known by the name of Fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers, act directly or indirectly on the Liver, all febrile diseases partake more or less of a bilious character, whether of the intermittant, remittant or continued type; hence the frequency of those cases, where the Viscery Glands and membranes are attacked, and put in all the various forms of Rheumatic, and inflammatory affections, so often met with in districts of country where bilious diseases prevail.

Therefore to repel these complicated varieties of disease, depending on a derangement of the Liver, I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, and efficient, and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the system—and may be used in all cases where purging is necessary.

And in the following diseases in particular.

Bilious Ague, Inflammatory and nervous Fevers; all affections of the liver, Bilious Cholic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or fits, Rheumatism, Pleurisy, dysentery, foul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the Eastern Shore of Maryland, he deems them entirely unnecessary, as the medicine will recommend itself in every family where it may be used and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti-bilious Pills, to give them a character, Nor does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommend them to all who may stand in need of medicine.

JNO. S. LAFITTE, *Secretary.*

The Board avail themselves of this opportunity to draw the attention of the Public to some of the important features of their Charter.

1st. In this Company, all interests are equal; there is no privileged stock.

2d. Persons effecting insurance are not answerable for losses beyond the amount of premiums paid by them, and will divide amongst themselves annually the nett profits.

3d The capital of the Company is limited to half a million of dollars, and at the expiration of the Charter, that sum is to be divided pro rata amongst all persons holding the Policies of the Company, without reference to the time when they were issued, or to the fact of their having expired.

4. In the selection of persons to act as Directors of this Company, there can be felt none of that *proxy* influence which has destroyed, or weakened some of our strongest corporations; with us, the direction of the affairs of the Company *must* be in the hands of those most deeply interested in its proper and prosperous management.

5th. Any Policy holder has the right and the privilege of looking at the monthly statement of its affairs.

6th. Persons insuring in this Company, upon a renewal of their risks are entitled to a deduction of 5 per cent, on the amount of premiums.

☞Our Tariff of rates has been carefully revised and the form of our Policies has been amended under the best legal advice, so as to embrace all the modern improvements suggested by Experience. The classification of the Fire Risks, as well as the direction given to represent them in the applications are so modified as to avoid all doubt and ambiguity, and with a view to avoid all possible difficulties in the settlement of losses.

I have accepted the agency of the above Company, and persons desirous of insuring their Property will find me at all times at my store, where I will receive their proposals, give the necessary information, and have their insurance effected as soon as returns can be had from the office at Baltimore.

THOS. HAYWARD, agent.
