FOR

CONSUMPTION.

THE best medicine known to man for incipient Consumption, Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding at the Lungs, Shortness of Breath, pain and weakness in the side, breast, &c. and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this *"Balsam"* exerts a very powerful influence, is that of a "DISEASED LIVER." In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long severe suffering from the disease, without receiving the least benefit from various remedies, and even when MERCURY has been resorted to in vain, the use of this BALSAM has restored the LIVER to a healthy action, and in many instances effected permanent cures after every known remedy had failed to produce this disired effect.

Besides its astonishing efficacy in the diseases above mentioned we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success even in cases of years standing.

NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Prunus Virginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chemical process, approved and recommended by the most distinguished physicians, and universally acknowledged the most valuable medicine ever discovered.

The universal celebrity which this medicine is rapidly gaining in every section of the country, and the many astonishing cures it has effected, have now established its efficacy beyond all doubt, but it should be remembered, that in diseases of the LUNGS or LIVER, as in all other chronic affections, a little time is always necessary to effect a cure. Although in most cases the Balsam will afford a most immediate relief, and often effect great changes in a few days, it cannot reasonably be expected to produce the same salutary effect in every case in so short a time; yet, from the high celebrity it has acquired, we find many persons are apt to expect too much at the commencement, while others expect a *Single Bottle* to afford them greater relief than all the medicine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its *worst form* but it has cured many after all other means of relief had been tried in vain. And why no? It seems that the WILD CHERRY was destined by Nature to be our PANACEA for the ravaging diseases of this latitude. Let not the despairing invalid waste his money and lose time, to him so all important, in *experimenting* with the trashy nostrums of the day, but use *at once* a medicine that will cure, if a cure be possible—a medicine that science approves, and many years of experience have demonstrated that it *always* relieves. "There is no such thing as fail" in the history of this wonderful Balsam. Evidence the most convincing—evidence that no one *can* doubt, fully establishes this fact.

In presenting this highly useful and valuable medicine to public notice as a remedy for *Consumption* and *Pulmonary* diseases in general, the proprietor has been actuated solely by the great success attending its use in his practice and a desire to benefit the afflicted, and would therefore wish particularly to impress upon the public mind that it is entirely different from the *nostrums* daily ushered into notice by *boasting quacks*, and not only emanates from a regular *Physician* but has also been well tested in all the complaints for which it is recommended. It is not my intention therefore, either to cloak it in mystery or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous that CONSUMPTION may and "CAN BE CURED," if this medicine be resorted to in time.

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicsne, are, in every respect TRUE.

☞ *BEWARE OF COUNTERFEITS AND IMITATIONS.*—The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended—curing many cases after the skill or the best physicians was unavailing—has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

Be careful and get the genuine DR WISTE'S BALSAM OF WILLO CHERRY. None genuine unless signed by I. BUTTS. Address all orders to SETH W. FOWLE, Boston, Mass.

SADDLERY AND HARNESS MAKING.

PROSPECTUS.

THE NATIONAL PRESS.

A JOURNAL FOR HOME;

A REPOSITORY OF LETTERS: A RECORD OF ART; A MIRROR OF PASSING EVENTS

To be Published every Saturday, at Two Dollars a Year, in Advance.

GEORGE P. MORRIS, *Editor and Proprietor.*

A NUMBER of the most eminent literary persons of this country, have proposed to the undersigned to publish under the above title

A REFINED AND VALUABLE NEWSPAPER.

Upon a plan combining the highest resources of National Talent with the best elements of extensive popularity, and at so trifling an annual cost, as will place it within the convenient reach of

ALL CLASSES OF SOCIETY.

The control and management of this publication will form the exclusive and undivided attention of the Editor—Whose long experience, ample facilities and practised care, will be exerted to select, unite and harmonise the various skill which is willing to seek development under his direction. The

SCOPE, DESIGN, AND CHARACTER OF THIS PAPER will differ from those of any journals heretofore established, while it will comprehend all that they contain of importance to the community. The contents will be fitted to engage the attention of the men of business and be a source of elegant instruction and entertainment to the.

DOMESTIC FIRESIDE AND FAMILY CIRCLE.

The leading characteristics of this paper will be as follows:

1. Early and Copious Intelligence of all interesting occurences in Literature, Society, and Art, both at home and abroad.

2. A Foreign Correspondence of tried popularity and acknowledged merit has been engaged, and will be commenced with the first number.

3. Productions in fiction, romance and historical narrative; Sketches of the taste and manners of the time; Essays, after the manner of the Tattler and Spectator, on subjects connected with social interests; biographical notices and anecdotes literary and professional, bon mots, epigrams, and elegant trifles of every kind, the rumors of the day, and the comments that float upon the conversation of the hour—materials of this kind will form the ordinary staple of the work.

4. The department of Criticism will exhibit a Discriminating and popular survey of the Literary productions of the day. There will be a thorough and careful chronicle of every thing of value accomplished in Painting and Sculpture; and a candid and patriotic estimate of the National productions in comparison with other countries. Such exposition of the character and special excellencies of what is exhibited in Music will be constantly given; as may lead to the more intelligent enjoyment of that most imaginative and delicate branch of the Fine Arts.

5. No original papers will appear but those of obvious and decided merit; and the selections (which will commonly be from the foreign journals the least known in this country) will be made with the utmost attention and care.

The predominant design of the Editor is to add to the Republic of Letters a Weekly Journal, distinctly and decidedly national in tone and features, and at the same time, to avoid all connection with mere party politics. THE NATIONAL PRESS will, in brief, combine the striking and novel attractions of the newspaper, with the more abiding interest of the higher class of periodicals. It will be printed in the folio form, on large and superior paper, on a new and clear type, obtained expressly for the purpose, and will be, in its whole arrangement and details, a favorable specimen of the best typographical skill of the country. In addition to these, and as one of its most valuable peculiarities, it will be, in reference to the diversity of talent that will be employed upon it, the cheapest paper in the United States.

TERMS—Two dollars a year, or three copies for five dollars, invariably in advance.

It will be sent by mail to all parts of the United States, and to the British Provinces, done up in strong wappers, with the utmost punctuality and despatch.

Postmasters are requested to act as agents, receive subscriptions, and make remittances.

The first number will be issued on SATURDAY, the fourteenth of February next.

That a probable estimate may be formed of the number of copies that will be required, subscribers would oblige the Editor by sending in their names at as early a period as possible.

Newspaper and periodical agents and newsmen supplied on liberal terms. Burgess, Stringer & Co. 222 Broadway, wholesale agents.

Subscriptions, orders, remittances, and all communications, to be addressed, post-paid, to

GEORGE P. MORRIS,
222 Broadway, corner of Ann st. New York

THE GREAT DIGESTOR

TROYER,

THE most anti flatulent Medicine ever known: in the world, which cures and prevents the formation of *Dyspepsia* Consumption, Disease of the Heart, Rheumatic pains, *Costiveness*, Liver Complaint, Pains in the Side or in the Small of the Back, Palpitation of the Heart, Headache, Sore Throat, Shortness of Breath, gout, cold, cholic, and is a perfect emmenagogue. This Medicine has been invented more than a score of years ago by the French Doctor of the FRENCH MEDICAL HOUSE, 16 south Frederick street, *Baltimore*, when he was living in Paris as a practicing physician and lecturer. He then made a chemical extraction of the juice of blossom of certain flowers, which acts wonderfully on the nervous system and reestablishes its own circulation.—The Dr. has used it ever since in the above named Diseases, with great success. Many persons think that the French Doctor confines his practice solely to Secret Diseases, but such is not the case; any disease whatever will be treated and cured on written guaranty and forfeiture, if desired, with strict honesty—even those given up by Regular Doctors. Persons at a distance may consult the French Doctor by letter, and have the medicine sent to them. Advice gratis.

FOR SALE.

THE subscriber will sell at private sale, two good Horses, both kind to harness, having no immediate use for them.

WM. A. SULLIVANE.

Jan. 17. '46 tf

For Sale.

I WILL sell at private sale, a negro Woman and two children, (both girls.) The woman to serve two years, and the children until they arrive at the age of 16 years, one of them being now 5 or 6 years old, and the other younger.

JAMES WALLACE, ex'tr.
of Aaron Cook.

Jan. 17 '46 tf

TAILORING.

THE subscriber takes this occasion of returning his thanks to those who have heretofore favored him with their patronage, and also to inform them that he has taken the shop formerly occupied by Mr. William C. Littleton. He still continues to carry on the above business in all its various branches; such as cutting and making COATS, PANTS & VESTS, and all other GARMENTS in his line of business, with neatness and despatch.

☞ All garments made by him warranted to fit.

THE PARIS AND PHILADELPHIA FASHIONS

are regularly received, and his work warranted to be executed in the neatest style.

Having been in the habit of cutting for a long time, the subscriber flatters him self he can give general satisfaction. He hopes, therefore, by strict attention to business, to share a liberal part of the public patronage.

EDWARD STREET.

Cambridge, Feb. 7th 1846. 1y

N. B. Those having accounts of long standing will please call and settle by note or the cash. All work and no pay makes Tailoring a dull business.

ADMINISTRATOR'S SALE.

BY virtue of an order of the Orphans' Court of Dorchester County, I will sell at private sale, to some person residing in the county, a very valuable negro boy, named "PETER," a slave for life, about sixteen years of age, healthy and sound.—The terms of sale are, that the said boy is not to be carried out of the county, except on temporary occassions with a view of returning, and a credit of six months will be given with note and approved security. Persons disposed to buy will make known to me their wishes.

JERE. L. PATTISON.
adm'r of Wm. H. Pattison

NOTICE.—I also avail myself of the occasion, to give notice to persons indebted to the late James Pattison, or Wm. H. Pattison, to make immediate payment and those having claims, will please present them to me, properly authenticated for settlement.

JERE. L. PATTISON, surv'g ex'tr of
James Pattison, senior
of Wm. H. Pattison.

Dec. 13 1845 tf

"CONFESSION."

THE subscriber publicly confess that I have been afflicted with a Secret disease ever since 1823, I had thirteen eminent physicians whose names are recorded at the French Medical House; some of them abated the disease; but it always returned worse than before, until it carried away both sides of my throat and pierced the top of my palate. I also lost several bones of my nose and was almost blind of an eye, and my face was covered with an immense quantity of scabs, between which the skin was as red as scarlet, and I was indeed in a most deplorable condition, so much so that the learned professors pronounced me incurable. It was obvious to me then that a common doctor could not extricate me from the jaws of death—for they all follow the same old routine with their train of mercury, mixture or pills, invented by ignorance and continued by cupidity, and do no good to any but the venders. Several persons recommended the French Doctor of the Medical House, 16 South FREDERICK St. as a scientific man and a rare genius in those complaints. I went to him and he pledged himself to cure me on written guaranty, and he furnished me with one room in his house, as he generally does, with strangers, at no cost to pay. I did not hesitate at all on seeing so many likenesses of patients, who are living evidences of the many wonderful cures he has performed of almost every kind of disease. Then he had my daguerreotype likeness and I took his medicine for about a year which completely cured me.—He had then my other likeness taken, and both are to be seen at his office. If this meets the eye of some wretched and being in the grasp of death, as I was, let him fly to this praiseworthy philanthropist, whose deep knowledge of the vital principles which animate and move the human frame, are known in both hemispheres, and I believe from my very soul (not forgetful that I am sworn oath) that his exquisite genius will discover as many new and well appropriated remedies, as new diseases may be formed.

HENRY BRUMMER.

Sworn before Justice Wm. McJilton, Oct. 30, 1845.

Dec. 13, 1845 1y.

NO MERCURY OR COPAIVA.

THERE are two ways to treat a Secret Disease; the first so much boasted of is merely the temporary disappearance of the symptoms, by means of mercury or copaiva, and requires but a day or two, but it is very injurious indeed; the second way is to eradicate it out of the system, slowly, safely, and surely, without *Mercury or Copaiva.*

Sound in a day or two,
Tis too good to be true.

Thirty odd years of experience in the scientific practice of curing Secret Diseases in Paris and America, have enabled the French Doctor of the French MEDICAL HOUSE, 16 south Frederick street, near Second st. to eradicate the most virulent disease, no matter from what cause it may have originated, in a very short and reasonable time, without Mercury or Copaiva.—Victims of Advertisements and wearied with disappointment are confidently apply. Persons who have impaired their Health by a certain practice calculiar to youth, which brings impotency, will be restored to prime vigor. This is the only place in BALTIMORE where a sure cure can be had on written guaranty and forfeiture, with strict honesty and terms moderate. The most respectable city reference will be given. Advice gratis.

Juny. 8 '46 1y

Dorchester County Orphan's Court, 5th January 1846.

ON application of James R. Phillips administrator of Francis Webb late of Dorchester County, dec'd. it is ordered, that he give the notice required by law for all creditors to exhibit their claims against the deceased's estate and that he cause the same to be published once in each week for the space of three successive weeks, in the Cambridge Caronicle, a paper selected by him

In testimony that the foregoing is truly copied from the minutes of the proceedings of Dorchester County Orphans' Court I have hereunto set my name and seal of my office affixed, this 5th day of January, in the year of our Lord, 1846.

THOMAS H. HICKS,
Register of Wills, Dorchester co.

In compliance with the above order. This is to give Notice, that the subscriber of Dorchester County, hath obtained from the Orphans' Court of Dorchester county, in Maryland, letters of administration on the personal estate of Francis Webb, late of Dorchester county deceased. All persons having claims against the said deceased, are hereby warned to exhibit the same, with the vouchers thereof, to the subscriber on or before the 5th day of July next they may otherwise by law be excluded from all benefit of the said estate.

Given under my hand and seal this 5th day of January 1846.

Oct. 11 1845

THOMPSON'S VEGETABE WORM SYRUP,

PREPARED BY

DOCTOR A. C. THOMPSON,

CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion. Worms appear most frequent in children of relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food: hence worms are most common to children, although many grown persons are subject to them, I have known persons of advanced age to have them.

It is well known to the Medical profession, that many diseases are brought on, and continued by reason of Worms, and many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with remedy that will be certain to expel them.

It is often a difficult matter to expel worms, from children, although numerous remedies have been recommended and used for that purpose, yet there are articles which if properly combined and judiciously used, will seldom fail in accomplishing that object.

In consequence of my frequent failures in 30 years practice to expel worms from children with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your *"Vegetable Worm Syrup,"* and their anthelmintic power, seriously considered, justifies me in alluding in no measured terms of praise to the Vermifuge powers of the compound; which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the precean complications so often manifested in Verminose irritation, will seldom disappoint us in our most sanguine expectations:

Very respectfully yours,
THOS. HY. HANDY, M. D.

CAMERIDGE, April 26, 1845.

My Dear Sir,

I believe that your *"Preparation for Worms,"* will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM L. WINGATE, M. D.

THOMPSON'S

VEGETABLE ANT-BILIOUS PILLS,

PREPARED BY

A. C. THOMPSON, M. D.

Cambridge, Md.

As Dr. Thomas justly observes, "it is impossible to give a concise and proper definition of the disease known by the name of fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers act directly or indirectly on the Liver, all febrile diseases partake more or less of a bilious character, whether of the intermittant, remittant or continued type; hence the frequency of those cases, where the Viscery Glands and Membranes are attacked, and put in all the various forms of Rheumatic, and inflammatory affections, so often met with in districts of country where bilious diseases prevail.

Therefore to repel these complicated varieties of disease, depending on a derangement of the Liver, I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, an efficient and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the system— and may be used in all cases where purging is necessary.

And in the following diseases in particular:

Bilious Ague, Inflammatory and nervous Fevers; all affections of the Liver, Billious Colic, Jaundice or obstruction of the Liver, Indigestion or dyspepsia, convulsions or Fits, Rheumatism, Pleurisy, dysentery, foul stomach, colds and costiveness.

Agents for Dorchester County.
