THE CHRONICLE.

CAMBRIDGE—MD

SATURDAY MORNING, August 15th, 1846.

☞Mr. V. B. PALMER is our authorized agent to receive supscriptions and advertisements for the "CAMBRIDGE CHRONICLE," in the cities of Baltimore, Philadelphia, New York and Boston,

The Orphan's Court of Dorchester county will sit on the 24th August.

☞CONGRESS adjourned on the 10th, having passed the odious Subtreasury, the Warehousing bill, and destroyed the Tariff of '42.—Had the party in power only succeeded in getting the whole of Oregon, and a war with England, which Senator Cass thought an inevitable consequence, they would have succeeded in bringing the country into that complete state of beatitude anticipated by the notorious Baltimore Convention when it adopted their resolutions.

☞DEDICATION.—The new Methodist Episcopal Church in this town is now completed and will be dedicated on Wednesday next. Bishop JANES, Dr. PITMAN and other distinguished ministers of the Church will be in attendance. Great credit is due the Rev'd. JOHN D. ONINS the minister in charge, and the Building Committee, for the energy, activity and taste displayed in having such an edifice erected in so short a time, and to members and the community for their very liberal contributions. By the notice of the building committee, it will be seen that *all* are invited to witness the interesting services of Wednesday.

☞CONVENTION.—We do not desire to disturb the quiet and rest which the people of this county now enjoy in their absence of all political excitement, but as the time is fast approaching when they will be called upon to elect Delegates to the General Assembly, and two County Commissioners, we hope the Whigs will not forget to meet according to notice, and send delegates to the convention. If we would be always ready for a conflict we must always remain united and harmonious.

THE COURT OF INQUIRY.—The defence of Gen. Gaines was concluded on Monday, when the court adjourned over to the next day.—Having re-assembled on Tuesday, it proceeded in private session to make up its decision, which it did, and having ordered it to be forwarded to the war department adjourned *sine die*. The nature of the decision has not transpired.

THE VACANT JUDGESHIP.—The Annapolis Herald of Thursday says:—"We learn that Col Wm. T. Blackstone, of St Mary's county, formerly speaker of the House of Delegates, is spoken of to fill the vacant judgeship occasioned by the late death of Judge Dorsey."

THE ELECTIONS.—*Indiana.*—The Indiana State Sentinel (Dem.) expresses the opinion that Gov. Whitcomb is reelected by a small majority, and says that the whigs will have the House, and perhaps the Senate. So far as heard from, there are 25 democrats and 22 whigs chosen to the senate.

North Carolina.—The Beleigh Register give returns from 37 counties, (just one half of the State,) from which it appears that the democrates have gained *five* members, viz: one Senator in Davidson, and four Commoners; viz one in Orange, two in Halifax, and one in Moore. They have lost *three* members, viz: one Senator in Granville, one Senator in Franklin, and one Commoner in Person. In the last Legislature the Senate was equally divided, and the whig majority in the Commons was twenty two; so that the whigs will now, in each branch of the Legislature, have a majority. The whig candidate for Governor is elected by a large majority.

☞Mr. Jefferson is often quoted by the Locofocos as authority for their doctrines, and, with the exception of General Jackson, is pretty generally regarded by the party as the "greatest and best man that ever flourished in the tide!" of Democracy. We have before us an extract from one of Mr. Jefferson's annual messages which we commend to those who profess to guide their feet by the light of his genius. He says:

To cultivate peace, and maintain commerce and navigation, in all their lawful enterprises; to foster our fisheries, as nurseries of navigation and for the nurture of seamen, *and to protect the manufactures adapted to our circumstances*; these, fellow-citizens, are the landmarks by which we are to guide ourselves in all our proceedings.

The present Administration and its friends in Congress have paid precious little attention to these "landmarks." Instead of cultivating peace, they have thrust the country into an unnecessary war; instead of fostering our fisheries as nurseries of navigation, they are endeavoring to abolish the fishing bounties and, instead of protecting the manufactures adapted to our circumstances, they are using all their influence to prostrate our manufactures. What beautifully consistent and sincere disciples of Jefferson the Locofocos are!

FEMALE EDUCATION. Fashionable female education is said to be, teaching a young lady to *talk* French, *walk* Spanish, *faint* gracefully and *dance* the Polka.

NAVIGATION OF THE COLUMBIA RIVER.—The Washington Union, of Wednesday evening, says:

"The Baltimore Sun seems to take for granted, with others, that the charter of the Hudson Bay Company, granted by Charles II. in 1671, extended to the west of the Rocky mountains—that is, to the territory called Oregon; whereas it would really appear, that the charter was confined to the territory to the east of the Rocky mountains, and that the only privilege conceded to the company to the west of the Rocky mountains, now rests on the "crown grant to the Hudson bay Company, of the exclusive trade with the Indians in certain parts of North America for a term of *twenty one years*, and upon a surrender of a former grant." This crown grant was made to the company previous to 1838; and as it runs only for 21 years, it expires in 1859; and with it all the benefit of the navigation of the company, which is secured to them, and those trading with them, by the late convention between the United States and Great Britain."

RELIGIOUS CHANGE. We learn from the New Hampshire Sentinel, that the Rev. Mr. Hoit, of Sendwich, N. H., a clergyman of the Episcopal Church at St. Albans, has gone over at the Catholics. Bishop Hopkins, of Vermont, lately issued a pastoral letter, censuring Mr. Hoit for attending a Roman Oatholic service in Burlington.

BALTIMORE MARKET.

Office of the American, Aug. 13, 5 P. M.

FLOUR.—There were sales of howard street Flour on Friday, after the close of our last review, of 300 bbls. at $4.06 -1-4; 300 bbls. at $4.12 1-2, and 200 bbls. on Saturday, at $4. 12 1 2, all strictly fresh ground and of choice brands. To-day dealers are all holding fresh-ground Flour at $4.12 1-2, and we quote this rate with sales of some small parcels. There were settlements for receips from cars on Saturday at $4..

We hear of no transactions in City Mills Flour. Holders ask $4.25.

GRAIN.—The demand for Wheat to-day is quite limited and the millers show but little disposition to operate. Prices are 2 or 3 cts. lower, and sales are difficult to be effected at thereduction. We quote good to prime new Md. reds at 80a85 cts, and ordinary to good 70a80 cts. A load of Pennsylvania old, red and white mixed, sold at 91 cts., and another of prime red at 90 cts. Nothing doing in white Wheates.

Sales of white Corn to-day at 51a53 cts. and of yellow at 53a54 cts.

Oats have further declined. Sales to-day at 25 cts.

There was a sale of a lot of Western Mess Pork to-day at $10.50, also one of Prime at $8.44. We quote Prime at $8.44 a $8.50, and Mess at $10.50. There was a sale of a small parcel Baltimore packet No. 1 Beef at $8.50 time. We quote Western Mess Beef at $9.50; No. I at $6.75a$7; and Prime $5a $5.50. There is not much stir in Bacon.—Small parcels of prime Western Shoulders are selling at 4 a 4 1-4 cents, and inferior 2 3-4 a 3 cents. We quote Sides at 5 1-2 a5 5-3, and Hams 5a7 cents; sales of Hams at 6 1-2 a7 cents. We note a sale of Lard in kegs at 7 1-4 cents, time. Bbls. are held at 6 1-4 a6 3-4 cts.

WHISKEY.—We continue to quote hhds. at 21 cts. and bbls. at 22 cts.

LET ALL THE WORLD KNOW

THAT SELLERS VERMIFUGE is the Best in Jusel Here is the proof.

LICKING STATION, Ky., Dec. 17th 1845.

Mr R E Sellers—I have the pleasure to inform you hat I have used in my practics your celebrated Vermiuge with the most happy results. I have formerly ised Fahnestock's but being persuaded to try yours I have found it far superior in every respect, and can ay without the fear of contradiction, that your Vermifuge possesses more virtue than any I ever used, and most cordially recommend it to the attention of the public. I will state a case where I gave one vial of your vermifuge: My brother's child was pining and wasting to a mere skeleton; in 30 hours after I gave the Vermifuge, the enormous quantity of upwards of six hundred worms were passed. The child that was given up as lost is now well and as hearty as any in the neighborhood.

DR WISTAR'S BALSAM OF WILD CHERRY

This is a chemical extract of Wild Cherry and Tar Every body knows that Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption, and Lung affections generally, by our oldest and safest physicians.

Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs, and some have been discovered, it is admitted by physicians, and all we have witnessed its effects, that none has proved as successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

This Balsam is made from materials which Nature has placed in all northern latitudes, as an antidote for diseases caused by cold climates.

"Nature is but the name for an effect
Whose cause is God."
Let us not neglect her plainest dictates.

STEAM BRICK PRESS.

These works, situate on the South Side of the Basin, immediately opposite Fells Point,

Are now in full operation, and a large quantity of BRICKS on hand of a superior quality. The waste is ascertained to be much less than from any other: *no washed* bricks—all of full size—fewer broken in handling—a wheelbarrow will hold the waste from 50,000.

Those who reside on the waters of the Chesapeake, may obtain their supplies at a cheap rate, by taking them from the wharf at the Kiln, thus saving the expense of cartage. Vessels may be loaded with despatch, by giving only a few hours notice. $6 50 per at the Kiln wharf.

FIRE BRICKS.—Steam pressed Fire Bricks, now in high repute after six years trial in most of the foundaries in this City, in Mr. John Gamber's Furnace, Middletown, Pa. and several others,—have been used exclusively at the Munson Iron Works, Canton, and highly commended by Mr. Mowel, the agent. They are made of all required shapes at one price.

For the large Stourbridge size, $25 00 per M. $3 per hundred.

Size of common building brick, $20 00 per M. $2 50 per hundred.

SEMI FIRE BRICKS,—being two-thirds Fire Clay, suitable for Hot Air Chambers, setting Boilers and Kettles, and similar work not requiring a perfect Fire Brick—made of the size and finish of pressed fronts, and peculiarly suited for the backs and jams of fire places, as they will not burn out. $12.50 per M.

FRANCIS H. SMITH.

Office Jarvis' Building.

BALTIMORE, July, 1846.

The bricks made at the Steam Brick Press on the south side of the Basin, from the superior quality of the clay now used and the improvements recently introduced in the machine, are free from the defects which existed when the works were located near the Maryland Hospital.

When thoroughly burnt, the Steam Pressed Bricks possess all the essentials required for a solid and durable structure. The smoothness of the surfaces and the accuracy of the edges are advantages which they possess over bricks made by the ordinary process.

R. CARY LONG,
Architect.

BALTIMORE COPPER SMELTING AND MINING CO.

The Steam Pressed Bricks made by Francis H. Smith, have been extensively used at these works in buildings, furnaces, wells, pavements, &c.—About one million have been thus used. They give satisfaction, and we shall continue to use them. When they are well burned, they are stronger and better for all purposes than any I have ever seen.

DAVID W. DAVIS, *Superintendent.*

The Commercial Buildings on Gay street, and the adjoining warehouses on Lombard street were built for me last year of Steam Pressed Bricks. The masons showed some prejudice against them at first but finally spoke highly in their favour. I am satisfied myself, not aware of any objection to them, and should I have occasion, would have no objection to use them in any future building. JOHNS HOPKINS.

July, 1846.

I have had an opportunity this year of laying several hundred thousand Steam Pressed Bricks at the Iron Works of Reese & Mills. I consider them equally as good as the hand made bricks. Being square and true, and regular in size, they make a smooth wall, and work up cleaner and with less waste than other bricks.

INSURANCE AGAINST FIRE.

THE mutual Insurance Company of Talbot county are now effecting insurance against loss by fire upon every description of property at low rates, and on terms highly advantageous to the parties assured.—Policies will be issued upon property in any county of the Eastern Shore.

The company is composed exclusively of those who insure their property in it, and is intended to have the same effect as if an agreement had been entered into by the same individuals, that whenever any one of them may loose his house by fire the others shall unite in raising such a portion of the sum required to rebuild it as they have previously agreed to pay.

Applications for insurance or for information in relation thereto will be punctually attended to if addressed to the Secretary, post paid.
