passed the careful scrutiny and critical ordeal of an ABLE COMMITTEE OF LEARNED MEN, the work may be placed in the hands of the youth of the country without danger or distrust. The popularity of the work in England may be judged of from the fact that, during the first year of its publication,

MORE THAN 80,000 COPIES

the monthly parts were disposed of. The whole work consists of about 4,000 large imperial octavo pages, and is Illustrated with **2,000** ENGRAVINGS.—The original cost of the Stereotyping and Engraving, to the London publishers, was $25,000.

FOR

CONSUMPTION.

THE best medicine known to man for incipient Consumption, Asthma of every stage, Liver Complaints, side, oretis, Influenza, Coughs, Colds, Bleeding at the Shortness of Breath, pain and weakness in the ast, &c. and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this "*Balsam*" exerts a very powerful influence, is that of a "DISEASED LIVER." In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long severe suffering from the disease, without receiving the least benefit from various remedies, and even when MERCURY has been resorted to in vain, the use of this BALSAM has restored the LIVER to a healthy action, and in many instances effected permanent cures after every known remedy had failed to produce this disired effect.

Besides its astonishing efficacy in the diseases above mentioned we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success even in cases of years standing.

NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Prunus Virginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chemical process. approved and racommended by the most distinguished physicians, and universally acknowledged the most valuable medicine ever discovered

The universal celebrity which this medicine is rapidly gaining in every section of the country, and the many astonishing cures it has effected, have now established its efficacy beyond all doubt, but it should be remembered, that in diseases of the LUNGS or LIVER, as in all other chronic affections, a little time is always necessary to effect a cure. Although in most cases the Balsam will afford a most immediate relief, and often effect great changes in a few days, it cannot reasonably be expected to produce the same salutary effect in every case in so short a time; yet from the high celebrity it has acquired, we find many persons are apt to expect too much at the commencement, while others expect a *Single Bottle* to afford them greater relief than all the medicine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its *worst form*, but it has cured many after all other means of relief had been tried in vain. And why not? It seems that the WILD CHERRY was destined by Nature to be our PANACEA for the ravaging diseases of this latitude. Let not the despairing invalid waste his money and lose time, to him so all important, in *experimenting* with the trashy nostrums of the day, but use *at once* a medicine that will cure, if a cure be possible—a medicine that serence approves, and many years of experience have demonstrated that it *always* relieves. "There is no such thing as fail" in the history of this wonderful Balsam. Evidence the most convincing—evidence that no one *can* doubt, fully establishes this fact.

In presenting this highly useful and valuable medicine to public notice as a remedy for *Consumption* and *Pulmonary* diseases in general, the proprietor has been actuated solely by the great success attending its use in his practice and a desire to benefit the afflicted, and would therefore wish particularly to impress upon the public mind that it is entirely different from the *nostrums* daily ushered into notice by *boasting quacks*, as it not only emanates from a regular *Physician* but has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cloak it in mystery or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter myself that its surprising efficacy will enable me to furnish such proofs of its virtues as will satisfy the most incredulous that CONSUMPTION may and "CAN BE CURED," if this medicine be resorted to in time.

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicsne, are, in every respect TRUE.

☞ *BEWARE OF COUNTERFEITS AND IMITIONS*:—The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended—curing many cases after the skill of the best physicians was unavailing—has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam

Be careful and get the genuine DR. WISTE'S BALSAM OF WILLO CHERRY. None genuine unless signed by I. BUTTS. Address all orders to SETH W FOWLE, Boston, Mass.

STAINBURNS VEGETABLE PILLS.

THIS MOST POPULAR OF ALL MEDICINES has truly gained the confidence of the many thousands of sufferers who have used it, in many forms of disease with unfailing success.

The following complaints have always been cured when the Stainburn Pills have been taken according to the directions which accompany each:—

A vast number of communications have been received by the proprietor, each proving a cure of some of the above diseases, and which might here be introduced, would space permit, but it is hoped the following will be sufficient to place beyond all doubt *their curative virtue*:

From DR. REED, of Virginia.

Norfolk, June 12, 1844

Dr. Stainburn:—Sir: Since I last wrote you, have seen several persons who have been using the Vegetable Extract Pills and in every case they have proved themselves worthy the name they bear. A young man by the name of John Forsythe, had been wasting away in a sealed consumption for several years, and by using the Extract Pills for about two weeks, his cough, pains, &c., left him entirely, and he is now so well as to be about his ordinary business. Indeed sir, from the rapidity of the sales, the value of your pillsmay be safely discerned. I am entirely out, have daily calls for them, and wish you would forward me more as soon as possible. Yours, &c.

THOS. S. REED,

[From Massachusetts.]

Worcester June 17, 1844.

Dr Stainburn:—My daughter, who had a distressing cough, raised a great quantity of phelegm, and who was afflicted with palpitation of the heart, had taken a box of your Vegetable Extract Pills, and is now quite well. Others bear testimony to their good effects. Yours respectfully,

JOHN STRIKER, Jr.

[From Pennsylvania.]

EASTON, July 1, 1844

Dr. Stainburn. I have considerable matter to tell you concerning the Extract Pills, where they have performed cures, when those who have bought them had scarcely any faith in their effects. There is a lady here, now able to attend to her domestic concerns, who was, at the time she commenced taking them, confined to her chamber, and prostrated on her bed. I will tell you more when I see you: please credit my account with the enclosed twenty dollars, and send me by the bearer another gross of pills.

Respectfully, &c. GEO. S. SMITH

[From Connecticut.]

New Haven, June 27, 1844.

Dr Stainburn:—Your Vegetable Extract Pills have had wonderful effects in several cases in this town; I sold a box to a man who had been sick with consumption and rheumatic complaints for four or five years, and who was unable to dress himself without any trouble, and think he has wholly recovered. I am quite out of the pills; will you send me a lot by the first opportunity?

"CONFESSION."

I THE subscriber publicly confess that I have been afflicted with a Secret disease ever since 1823, I had thirteen eminent physicians whose names are recorded at the French Medical House; some of them abated the disease; but it always returned worse than before, until it carried away both sides of my throat and pierced the top of my palate. I also lost several bones of my nose and was almost blind of an eye, and my face was covered with an immense quantity of scabs, between which the skin was as red as scarlet, and I was indeed in a most deplorable condition, so much so that the learned professor S. pronounced me incurable. It was obvious time then that a common doctor could not extricate me from the jaws of death—for they all follow the same old routine with their train of mercury, mixture or pills, invented by ignorance and continued by cupidity, and do no good to any but the venders. Several persons recommended the French Doctor of the Medical House, 16 South FREDERICK St. as a scientific man and a rare genius in those complaints. I went to him and he pledged himself to cure me on written guasanty, and he furnished me with one room in his house, as he generally does, with strangers, at no cure no pay. I did not hesitate at all on seeing so many likenesses of patients, who are living evidences of the many wonderful cures he has performed of almost every kind of disease. Then he had my daguerreotype likeness and I took his medicine for about a year which completely cured me.—He had then my other likeness taken, and both are to be seen at his office. If this meets the eye of some wretched ed being in the grasp of death, as I was, let him fly to this praiseworthy philanthropist, whose deep knowledge of the vital principles which a climate and move the human frame, are known in both hemispheres, and I believe from my very soul (not forgetful that I am sn oath) that his exquisite genius will discover as many new and well appropriated remedies, as new diseases may be formed.

NO MERCURY OR COPAIVA

THERE are two ways to treat a Secret Disease; the first so much boasted of, is merely the temporary disappearance of the symptoms, by means of mercury or copaiva, and requires but a day or two, but it is very injurious indeed; the second way is to eradicate it out of the system, slowly, safely, and surely, without *Mercury* or *Copaiva*.

Sound in a day or two,
'Tis too good to be true.

Thirty odd years of experience in the scientific practice of curing Secret Diseases in Paris and America, have enabled the French Doctor of the French MEDICAL HOUSE, 16 south Frederick street, near Second st. to eradicate the most virulent disease, no matter from what cause it may have originated, in a very short but reasonable time, without Mercury or Copaiva.—Victims of an improper treatment, and wearied with disappointment mas confidently apply. Persons who have injured their Health by a certain practice called solitary vice, which brings impotency, will be restored to prime vigor. This is the only place in BALTIMORE where a sure cure can be had on written guaranty and forfeiture, with strict honesty and terms moderate. The most respectable city reference will be given.
