TRUSTEE'S SALE

—OF—

A Valuable Farm

NEAR CHESTERTOWN.

Under and by virtue of the authority contained in a decree of the Circuit Court for Kent County, Maryland, wherein Carrie D. Price Colescott et al. were Plaintiffs, and William A. Colescott, Jr., et al., were Defendants, being No. 2072 Chancery in the Circuit Court for Kent County, Maryland, I will offer at public sale in front of the Court House door, at Chestertown, Kent County, Maryland, on

Tuesday, February 24, '20

between the hours of 11 o'clock a. m. and 12 o'clock noon

all that farm known as the "Dr. Frederick Worrell Farm," purchased by Joseph W. Price in his life time, which was devised by the Will and Testament of the said Joseph W. Price, dated the 13th day of December, 1897, unto his daughter, Carrie D. P. Colescott, as will appear by reference to said will, duly executed, admitted to probate and recorded in Wills, Liber J. T. D. No. 1, folio 145.

This farm contains about

254 Acres

of land, more or less

and is one of the most productive farms in Kent county. Few opportunities have been given to secure a farm of the quality and character of the soil on this place. It lies on the right hand side of the public road leading from Worton Station to Chestertown. One of the exits is only a few hundred yards from the State Road, making the farm accessible to railroad and steamboat landing at Chestertown. This farm should attract general attention and those wanting lands in this part of Maryland will do well to examine it. The buildings are a large and substantial frame dwelling in good repair with ample outbuildings located on the farm consisting of stable, carriage house, corn crib, packing house(new), meat house, poultry house, etc. The land is naturally fertile and for years has had one of the best tenant farmers in Kent County.

This farm is in a high state of cultivation, growing good crops of all kinds, with two good asparagus plots, 1000 peach trees just in bearing, apple trees, cherry trees, etc., and is in all respects one of the most desirable farms in Kent County for either home or investment purposes.

TERMS OF SALE—One-third of the purchase money cash on the day of sale and the residue payable in one year from the day of sale, or all cash on day of sale, at option of the purchaser. All unpaid purchase money to bear interest from the day of sale. All crops are reserved and taxes for the current year will be paid by the purchaser.

...ESTERTOWN GAS CO. WANTS MORE

The Chestertown Gas Co. added its name this week to the long list of public and semi-public utilities which have complained to the Public Service Commission of financial losses suffered in the attempt to operate on pre-war tariffs with post-war expenses. It asked a meeting with the commission to consider higher rates.—From the Baltimore Sun of this week.

Do the gas users of Chestertown realize what this means? The rates of this company were raised from $1.60 per 1000 to $2.00 during the year 1919 and now they seek to increase the rate even higher. We have heard many complaints of the inferior quality of the gas at times and frequently we have had experiences where we could not get sufficient power from the gas to operate our palnt. If the gas users are satisfied with the gas conditions, all well and good; if they are not willing to have their rates raised, they had better get busy before it is too late.

Basketball Notes

Two big games are on the schedule for this week. Last night, Friday, the local Collegians played Drexel Institute of Philadelphia, while tonight the home team goes up against Temple University, of the same city. The Washington College Quintet is going good and they will probably take both of these games.

Preliminary to the main event on Saturday evening, the Ninth Grade of the Chestertown High School played the Eighth Grade, defeating them by the score of 8 to 3. The first half ended ...the score being 7 to 1 in favor of ...winners. The Eleventh Grade ...ted the Tenth Grade by the score ...16 to 4.
