CONFESSION.

I, THE SUBSCRIBER, publicly confess that I have been afflicted with a SECRET DISEASE ever since 1823; I had thirteen eminent physicians whose names are recorded at the French Medical House; some of them abated the disease, but it always returned worse than before, until it carried away both sides of my throat and pierced the top of the palate. I also lost several bones of my nose and was almost blind of an eye, and my face was covered with an immense quantity of scabs, between which the skin was as red scarlet, and I was indeed in a most deplorable condition, so much so that the learned professor S. pronounced me incurable. It was obvious to me, then, that a common doctor could not extricate me from the jaws of death—for they all follow the same old *rote,* with their train of mercury, mixtures or pills, invented by ignorance and continued by cupidity, and do no good to any but the *venders.* Several persons recommended the French Doctor of the Medical House, 16 South FREDERICK ST., as a scientific man and a rare genius in those complaints. I went to him and he pledged himself to cure me on written guaranty, and he furnished me with one room in his house, as he generally does with strangers, at no cure no pay. I did not hesitate at all, on seeing so many likenesses of patients who are living evidences of the many wonderful cures he has performed in almost every kind of disease. Then he had my daguerreotype likeness taken and I took his medicine for about a year, which completely cured me. He had then my other likeness taken, and both are to be seen at his office. If this meets the eye of some wretched being in the grasp of death, as I was, let him fly to this praiseworthy philanthropist, whose deep knowledge of the vital principles which animate and move the human frame, are known in both hemispheres; and I believe from my very soul (not forgetting that I am on oath) that his exquisite genius will discover as many new and well appropriated remedies, as new diseases may be formed.
