CAMBRIDGE:

MONDAY, JUNE 25, 1838.

REPUBLICAN NOMINATION.

FOR GOVERNOR OF THIS STATE,

WILLIAM GRASON,

OF QUEEN ANNES COUNTY.

It is said that James K. Paulding of New York will be appointed Secretary of the Navy, in the place of Mahlon Dickerson, resigned. This will be an excellent appointment. Mr. Paulding stands high before the Country as a scholar, and gentlemen of first rate attainments. We have no doubt, it will be a popular appointment with the Navy.

Talleyrand, the celebrated French politician, died in Paris, recently, at the advanced age of 84. His life has been full of incident.

LAMENTABLE DISASTER.—We learn by the last Baltimore papers, that the Steam Packet Pulaski, bound from Charleston to Baltimore, on last Friday week in a gale of wind at sea, burst her boiler, killing 8 or 10 passengers, and was so disabled by the explosion as to cause her sinking in a short time, and involving her passengers, near 200 in number, in a watery grave. Amongst those on board, we see it stated were Dr. Stewart and his wife, and William A. Stewart, formerly of this county, and Col. Hodson, which we suspect is the former estimable cashier of the Smyrna Bank, who has so frequently sojourned with us in this county. The mate of the steam boat and a few passengers, in a boat, reached the shore after being at sea two days.—It is his impression that all the other passengers were lost; but we hope he may be mistaken. There were four small boats attached to the Pulaski, and it is possible the other passengers may have got off in them. It was night when the dreadful accident occurred, and the other boats may have got off and reached some shore, without the knowledge of the Mate. We fear, however, that the rest have sunk in the billowy deep, to rise no more.

The Whigs, since they have had the rule in this State, have run us in debt, to the amount of 15 millons of dollars, and yet they ask the intelligent freemen of Maryland, to continue them, still longer in power. What right have they to expect it? What have they done for the people? Alas! they have been weighed in the balance, and found wanting. The Reformers are determined to rescue the state, from the misrule, which has characterised the course of the whigs. Grason, the intelligent farmer of Queen Anne's, with Reform inscribed upon his standard, will be the rallying word, with the Republicans of the State. Let every man who regards his own welfare, and would protect the interests and rights of his children rally under this banner. If every man does his duty, we can overthrow the whigs with their legions of office holders.

If success is certain to follow from harmony and a disinterested devotion to the cause, then are we sure that WILLIAM GRASON will be the next Governor of long abused State of Maryland. We never saw a better feeling manifested than is evinced by our friends in this city, and from the counties we hear nothing but the most cheering information. *"Every thing for the cause—nothing for men,"* is the watchword, and all are assured that the great principles for which we have been so long contending, cannot be better sustained than by rallying to a man in support of the FARMER OF QUEEN ANNE'S. The shameful abuses and headlong extravagance which have so onerously thrown an insupportable burden of oppression upon the best interests of Maryland, have roused the people to an appreciation of the mighty importance of the coming contest. Let us remain, then, united and actuated by a singleness of purpose, and the victory must be ours.—Balt. Rep.

GREAT BRITAIN.

The British House of Commons was occupied on the 4th of May with the bill for regulating the practice by which persons in the Church of England are to be allowed to hold more than one living—called the Bill on the Plurality of Benefices. Mr. Hume complained that the bill was not an efficient measure of Church reform. He thought that all livings ought to be reduced to a scale of 300l., and moved that the committee should be instructed to report that hereafter no appointment of a person should be made to more than one benefice of living. Lord John Russell said in reply, that many of the single livings were not sufficient for the subsistence of a minister, and that if money should be taken from the larger livings and added to the small, it would occasion discontent among the clergy. The House then divided: For Mr. Hume's motion, 38; against it 107.

☞The U. S. ship Natchez arrived at New Orleans on the 8th inst, brought $60,000 from the Mexican coast.

FOR SALE.

THE subscriber offers for sale on reasonable terms, all his land on Little Choptank river opposite Tobacco Stick. The farm whereon he lives is a very handsome situation, located about one mile on the river, and about the same distance on the main road, and is a first rate place for fishing, oystering, and gunning.

The other is a tract of land consisting of 107 acres on the opposite side of the main road, pretty well wooded, running to back creek, where a vessel drawing eight feet water can load within one hundred yards of the shore. Further description is deemed unnecessary as doubtless those wishing to purchase will come and view for themselves.

THE LITERARY PEARL.

THE subscriber proposes to publish, on the first of June inst. in the city of Philadelphia, a magazine under the above title, which will be punctually issued on the first of every month. The work will be under the superintendence of several literary gentlemen, and will contain the choisest gems of literature, selected with the utmost care, from the best European and American literary journals.

The PEARL will be printed on good type and fine paper, and will comprise a greater variety of literary miscellany than any similar publication in the country. Each number will contain 48 royal octavo,—forming a volume of about 600 pages, with a copious index and a beautiful title page, which will adapt it as well to the library as to current use.

The terms of the PEARL are unusually low, being TWO DOLLARS per annum in advance, or THREE COPIES for FIVE DOLLARS.

A discount of 25 per cent will be allowed Post Masters and others disposed to extend its circulation.

Editors of newspapers, by giving the above six or more insertions, and forwarding their paper to the "LITERARY PEARL," shall be entitled to a copy.

☞All communications to the publisher must be free of postage, otherwise they will not be opened,

IMPORTANT TO FARMERS.

A NEW AND IMPROVED
PORTABLE HORSE POWER AND THRESHING MACHINE.

Having obtained Letters Patent, bearing date Feb. 6th, 1838, for an improvement on a *PORTABLE HORSE POWER*, for propelling Threshing Machines, Clover Mills, Small Grist Mills, &c.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consists in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings being surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect, and hazardous to those who may superintend them, consequently produced by applying oil during the operation or from a neglect of its mechanical construction. The vertical and horizontal bearings are supplied with oil by nutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain, it also answers the purpose of cleaning clover seed, and with my late improvement is far superior to my former machines.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufactory, north of Brandywine village, Del., where orders will be received and the machines sent to any part of the neighboring States. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Delaware, Chester and Lancaster, Pa; New Castle, Kent and Sussex, Del.; Cecil, Kent and Harford, Md; Salem, Cumberland, Gloucester, and Burlington, N. J., where these machines have been justly celebrated and given entire satisfaction.

HEALTH SECURED BY THE USE OF THE HYGEIAN VEGETABLE UNIVERSAL MEDICINES,

As formerly prepared under the supervision of the late Mr. THOMAS MOAT, Vice President of the British College of Health, London. Manufactured in this country in their original purity by H. SHEPHEARD MOAT, eldest son of the above.

Which have obtained the approbation and recommendation of Thousands, who have been cured in Consumption, Cholera Morbus, Inflamations, internally or externally, and all diseases of the liver, yellow fever, gout, rheumatism, lumbago, tic doloreux, dropsy, St. Vitus's dance, epilepsy, apoplexy, paralysis, palsy, green sickness, and all obstructions to which the Female form is so distressingly liable, and which send so many of the fairest portion of the creation to their untimely graves; small pox, measles, whooping cough, scarlet fever, asthma, jaundice, gravel, stone, and all urinary obstructions, fistula, piles, structures, ruptures and syphilisis in all its stages; constipated bowels, worms, scurvy, itching of the skin, kings evil and all cutaneous disorders; in short, every complaint to which the human frame is so direfully subject, under all their varied forms and names; as the Hygeian conviction is, that *man is subject to only one real disease*, that is, to the IMPURITY OF THE BLOOD, from which springs every complaint that can possibly assail his complicated frame, and that it is the perpetual struggle of this vital, pure stream of life, (the gift of Almighty power) to disencumber itself of its viscious, acrid humors, with which it has become commixed.

This valuable medicine, being composed only of vegetable matter, of medicinal herbs, and warranted on oath, as containing not one particle of mercurial, mineral, or chemical substances, (all of which are uncongenial to the nature of man and therefore destructive to the human frame,) is found to be perfectly harmless to the most tender age, or weakest frame, under every stage of human suffering, the most pleasant and benign in its operation, and at the same time the most certain in searching out the root of every complaint, however deep, and of performing a cure that was ever offered to the world. This wonderful effect, too, is produced by the least trouble to the patients, with the least possible sensation of pain, exhaustion or bodily strength, and without the fear of catching cold or attention to dress or diet, in any way different from their accustomed habits.

These Pills cure in all cases, and cannot be taken in excess. Experience, which is the touchstone of all human knowledge, has long borne testimony to the fact, and extensive use of them has already verified its truth in this country.

These medicines cure by purging, and yet the weak, the feeble, the infirm, the nervous, the delicate are in a few days strengthened by their operation, because they clear the body of its bad humors, and invariously produce sound sleep. They are the safest and most efficacious Medicine to take to sea; preventing scurvey, costiveness, &c.

The operation of this mild medicine, which conveys immediate conviction of its utility, from the first dose, is as beneficial to the mind as the body; first calming, then curing all mental derangements, eccentricities, nervous affections, irritabilities and restlessness, from whatever source,—complaints, which have hitherto not been properly understood, as the Hygeists have found them all to proceed from acrimonious humours in the blood, and, happily for the present and future race of mankind discovered a cheap and universal mode of purifying, curing and preventing

The being cured of any disease, infirmity, or sore, is now no more a dubious or uncertain proceedure—perseverance in the Vegetable Universal Medicines will always restore nature to her due course. The literary and sedentary of both sexes, whose pursuits so much impair the faculties, will find a sure remedy in the Universal Medicines for preserving the energy and sprightliness of the imagination, and improving their health; old age will be attained by the use of them, and passed free from pain and infirmities.

They are not enveloped with the mysteries of other medicines; they only require to be persevered in with sufficiently large doses, and the patient will come off well; when a disease is obstinate, patients frequently do not take doses large enough.

The medicines are comprised in three different articles only, viz: in two kinds of pills, of different strength or power, designated by No. 1, and No. 2; the first is a powerful, but most mild and gentle aperient, or opening medicine, detaching and partially removing the billious ropy humors, while the No. 2 Pills carry off those and the serious acid and putrid humors, incidental to the body; and act together as a ferret in a warren, never resting until every avenue of the human frame is thoroughly searched, and cleansed of its impurities.

The Vegetable Cleansing Powders are of great assistance to patients, and facilitate the evacuation of bad humors; they soften, cleanse, and detach the acrimonious phlegm; are cooling and allay thirst. One, two or three powders may be taken throughout the day, mixed in a half tumbler of water.

The pills are sold in 25 cent boxes, and packets of $1, $2 and $3 each. The powder in boxes 37 1-2 cents.

CAUTION.—Medicines of such great virtue as these, have been, and will be most certainly counterfeited. To protect those desirous of obtaining the Genuine Hygeian Medicines, every packet has a facsimile of the signature of H. Shepheard Moat, on one side, and on the other a yellow label, with the written signatures of the agent for the district, and the actual seller of the medicine.

The publications in proof of the Hygeian Theory, are:

Morisoniana 2 vols. 8vo—price $2,75 per vol
The Family Adviser, 3 vols. 8vo—$1 per vol
Practical Proof, containing many attested cures, price 37 1-2 cents. And just published.

☞Respectable parties may be appointed Agents on liberal terms, by applying to the General Depot, No. 3 1-2 SOUTH SEVENTH STREET, three doors below Market Street, Philadelphia—and at No. 10 North street, Baltimore, nearly opposite the Post Office, where the Genuine Medicine may always be obtained.
