TENNESSEE.—We learn from the Baltimore Post, received by the Steamboat on Friday last, that 52 counties in Tennessee have been heard from, giving Col. Polk, the Van Buren candidate for Governor, a majority of about 5000 votes—10 counties to be heard from, which will probably not materially change the result,—The election of Col. Polk may, therefore, be considered certain. When it is recollected that in 1837 the majority against the administration was 20,000, this "sober second thought" of the people is most gratifying to the friends of democratic principles. The advocates of the administration have elected eight out of the twelve State Senators, certain, and probably more, and it seems to be conceded that we shall have a majority in the Legislature.

NORTH CAROLINA.—The Congressional election in this State is reported to have resulted in the election of eight Democrats and five Whigs, thus reversing the representation from that State. In 1837 the Whigs elected eight and the Democrats five.—The North State has done very well.

INDIANA.—Our friends in this State have elected a majority of democrats to the Legislature, and carried most of the Congressional districts.—The ball seems to be moving handsomely in that quarter.

The "Bucktown Convention" have nominated the following ticket for the support of the whigs of this county: Dr. F. P. Phelps, Reuben Tall, Wm. Frazier and Jacob Wilson, Esqrs. for the Assembly; John Newton, James Higgins, James Carroll, John Muir, Wm. K. Traverse, Arthur Pritchett, and Samuel J. Meekins, Esqrs. for county Commissioners.

FIRST CONGRESSIONAL DISTRICT.—It will be seen by an advertisement in to day's paper, that the Hon. John Dennis is announced as a candidate for re-election in this Congressional District.

The Democratic Reformers of Kent county have made the following nominations for the Assembly: Dr. Thos. Wilson, Asbury S. Sappington and Henry Hurtt, Esqrs.

We learn that the friends of the administration in Caroline county have nominated John Thawley, Wm. R. Sangston and Robert T. Keene, Esqrs. as candidates for the Assembly, and Tilghman Johnson for Sheriff.

TALBOT COUNTY.—The Whigs of this county have brought out Wm. Hughlett, Jno. W. Kemp and Elias Hopkins as candidates for the Assembly, and John H. Harris for Sheriff.

We observe, in the last Chronicle, that Hiram W. Woolford, Esq. is announced as a candidate for the next Sheriffalty of this county.

The papers state that the Yellow Fever is very prevalent in the City of New Orleans.

The late Elections in Tennessee, Indiana, Kentucky, Alabama, and North Carolina, are truly gratifying to the friends of the Administration, and must be gall and wormwood to the Whigs. Even in old Kentuck, Clay's own State, the ground seems to be crumbling from under him. Indeed, the demonstration which the people have made in these late contests, must operate as an avalanche upon the prospects of the Whigs. Their cause does not seem to be gaining ground much. In our next, probably, we shall be able to give the returns more in detail.

The gale which passed over this county on Friday last we hear has much injured the growing corn, and will materially curtail the crop of fodder.

The Steamers.—The steam packets Great Western and British Queen, which left N. York on the 1st. inst. were both seen by the Liverpool packet ships Roscoe and Europe, on Friday, (2nd.) When first seen at 9 A. M., the Great Western was about 150 miles distant from Sandy Hook, and the British Queen about 20 miles astern of her; but at 2 P. M. the Queen had gained considerable on the Great Western, and the latter was then only about 18 miles ahead of the former, and about 15 miles further south.—Ibid.

BALTIMORE MARKET.

August 13.

Flour—The market for Howard street continues very dull, and we have to note a decline in prices, owing to the scarcity of money—the sales for cash are very limited; the store price we quote at $5,87 1 2, and $5,75 from wagons—the receipts this week have been fair. Susquehanna is held at $5,87 1 2. Sales of City Mills at $6.

Grain—The supplies of wheat are fair, prime red is worth $1,10a1,12; white $1,12a 1,15. Rye at 75a76c, and scarce. Corn—there is but little yellow in market, we quote at 80a82c; white do. 74a75, full supplies.—Oats 31a32c.—[*Republican.*

We are authorised to announce

John Dennis, Esq.

as a candidate to represent this district in the next Congress of the United States.

LAND FOR SALE.
608 *Acres.*

THE subscriber will sell all that valuable tract of Land in Caroline county, Maryland, whereon he resides, containing 608 acres; about 250 acres heavily timbered, consisting mostly of Black Oak, and is certainly one of the best timbered Farms on the Eastern Shore, and within 2 1-2 miles of Choptank river, five miles from Denton, and the same distance from Greensborough. There is a Saw Mill within half a mile of the premises, Grist Mills convenient in the neighborhood. This property is adjoining the lands of Mr. Thomas S. Carter, W. F. Chilton, J. Saulsbury and others.

This valuable tract of land is divided into two Farms, on what is known as the Home farm, there are all necessary buildings in good repair. The dwelling is a one story, with two rooms below and ,above, kitchen, granary, two corn cribs, carriage house, cart and plough house, and upper granery 30 by 20 feet; a good well of water in the yard, with a new frame all complete, settled this season. The small farm has a small frame dwelling, one story, 24 by 18 feet in good repair, and a small corn house. This farm has heretofore been cultivated with the Home place, but is now laid off in a separate farm, of about 150 acres; the lands are mostly high and elevated, and no waste land, with fine branches to each Farm, and water in each field for stock, on both farms, and a plenty of fine branch land for meadows, &c.—the timber lies convenient to every part of the arrable land on both places—a portion of the arrable land is of a first rate soil for the growth of the Morus Multicaulis; and for any person or persons who wishing to go into the silk business on a large scale, offers every inducement that is desirable to the purchaser.—These lands will be sold altogether or separate, and possession given at the end of the present year if desired.

Terms of sale are:—$1000 cash on the day of sale, or end of the present year, and the balance in one, and two years, &c. This land will be sold at public sale at the Court House door in Denton, on Tuesday the 27th August next, between the hours of 10 o'clock A. M. and 4 P. M.

I have also about 7000 Multicaulis Mulberry trees now growing on the Farm—I would sell with the farm or separate at the same time and place if desired.

Nield Moore, John Moore and Thomas Moore.
vs.
Elizabeth, John, Hiram and Arthur George Moore.
} IN CHANCERY, 31st July 1839.

The object of the Bill filed in this cause is to obtain a Decree for the sale of the lands hereinafter mentioned, the same not being susceptible of division.

The Bill states that the complainants together with the defendants Elizabeth, John, Hiram and Arthur George Moore, children and heirs of Levin Moore, are entitled to the one half of certain tracts or parcels of land, lying and being in Dorchester county, called "Button's Desire," "Turkey Point," and "Wolverton," containing in the whole two hundred and thirty four acres—their one half of the same being one hundred and seventeen acres.—That the said complainants are each entitled to one fourth of the said one hundred and seventeen acres, and the said defendants Elizabeth, John, Hiram and Arther George Moore, children of Levin Moore, are, between them, entitled to the other remaining fourth part of the said one hundred and seventeen acres.—That the said lands are incapable of division, and that the defendants are infants under the age of twenty-one years. The Bill then prays for a sale of the said lands—It is also stated by petition that since the filing of the said Bill the complainants have discovered that two of the said defendants, to wit: Elizabeth Moore and John Moore resided out of the State of Maryland.

It is therefore ordered that the complainants, by causing a copy of this order to be published in some newspaper once in each of three successive weeks before the 5th day of September next, give notice to the said non-resident defendants of the substance and object of the Bill, that they may be warned to appear in this Court in person or by solicitor, on or before the 31st day of December next, to shew cause if any they have why a Decree should not be passed as prayed.

FOR SALE.

The splendid young horse
JOHN RANDOLPH,

6 years old last spring, sired by old John Richards, his dam Nell, by Gallitin, Expectation, by Bedford; dam Mambrina, out of a sister of Naylor's Sally and sold to Col. Alston for 4000, J. Tailoe. See American stud Book, by Mason page 345.—Nell's dam was a thorough bred mare, and raised two other colts; one at two years old sold for $400—and one at three years old sold for $700, both steed colts.

John Randolph is a beautiful Grey, with black legs, about 16 hands high, of fine form and figure; has proven himself a sure foal getter and his colts are not surpassed by any in Maryland. From the trial I have given him I am well satisfied he is a horse of great speed and bottom.

Mr. Elisha Wilson of this county now owns the dam of John, and of whom I purchased John when very young. Mr. Wilson is well known as a distinguished breeder of blooded horses and has been for many years; and from whom Gen. Emory purchased his best stock the dam or grand dam of Lady Clifden, so celebrated on the turf. I refer to Mr. Abraham Griffith, Easton, Talbot county & to Mr. E. Wilson near Denton Maryland, for further information.

John will be sold on very accommodating terms, at public Auction on the Court House Green in Denton on Tuesday 27th day of August next, if not sold previous at private sale, of which due notice will be given.

Multicaulis Mulberry trees will be taken in payment at fair prices.

IMPROVEMENTS.

IN DENTAL SURGERY.

IT HAS for many years been a great desideratum among European and American Dentists, to manufacture TEETH from incorruptible materials, which should imitate the natural living teeth.

Many have devoted years to unsuccessful experiments, and others have succeeded in manufacturing Teeth of materials similar to the porcelain ware, but generally they have an opaque white appearance, by which they are easily distinguished from the human Teeth.

After long and tedious experiments, the subscriber has succeeded in manufacturing Teeth of materials *entirely incorruptible and perfectly in imitation* of human Teeth. They have a semi-transparency, and are made of various sizes and shades.

In cases where absorption of the alveolar process, or other causes may render it necessary, he will cast of the same materials attached to the Teeth, artificial gums, which shall imitate the Gum and supply the loss of substance.

It is entirely impossible for these Teeth to change their color, or cause fœtid breath.

He will insert them from one to entire sets in such a manner that they will make articulation of the voice perfect, and materially assist in mastication, and so that they cannot be distinguished from the most beautiful natural living Teeth by the most scrutinizing observer.

He also performs all the various operations in Dental Surgery, according to the late scientific improvements in the art.

The following testimonials from gentlemen whose respectability needs no encomium, are respectfully submitted to the public.

From N. R. Smith, Professor of Surgery in the University of Maryland.

Baltimore, Oct. 28, 1836.

I have examined specimens of incorruptible Composition Teeth, manufactured by Dr. F. H. Knapp, an ingenious Dentist of this city. In their form, color, etc., they admirably imitate the natural Teeth. Being completely incorruptible by the agents which affect the Teeth, and also apparently very strong, they must be peculiarly fitted for the purpose for which they are designed.

NATHAN R. SMITH.

From Professor Ducatel,

Having examined some Artificial Teeth prepared by Dr. F. H. Knapp, and learned from him what are the principal ingredients that enter into their composition, and the nature of the materials by which they are colored, I am inclined to think that they will prove, as he represents them to be, incorruptible. Dr. Knapp having moreover acquired the art of varying the colors of the enamel which covers his Artificial Teeth, is thereby enabled to inpart to them a more natural appearance than such Teeth are usually found to possess; a circumstance that will doubtless render them more acceptable to the public.

J. T. DUCATEL, M D
Prof. of Chemistry in the University of Md

From S. K Jennings, Professor of Materia Medica, Therapeutics, &c. in the Washington Medical College of Maryland.

Having been favored with an inspection of a considerable number of Incorruptible Artificial Teeth, which were manufactured by Dr. F. H. Knapp, I cheerfully concur in the opinion expressed in respect to them by Professors N. R. Smith and J. T Ducatel.

SAML. K. JENNINGS.

He has also received the most flattering testimonials in favor of his improved Teeth from Prof. Thomas P. Jones, author of Conversations on Chemistry; Prof. F. May, Prof. H. Lindslay, Prof. J. C. Hall, and Prof. Thomas Sewell, Washington D. C. and very many other gentleman of the first standing in this country.

He offers these Teeth for sale to dentists on the most favorable terms. Teeth, Gold Foil, &c. &c. sent per mail when ordered.

TAILORING.

THE subscriber respectfully announces to his friends and the public that he has taken the shop on Race street, Cambridge, one door above the Odd Fellows Lodge, and nearly opposite White & Anderson's store, where he intends carrying on the above business in all its various branches, and he flatters himself that he will be able to give general satisfaction to all those who favor him with their custom. He will warrant all garments made by him to fit, if not he will return similar materials or money at the customers discretion. He also flatters himself from his knowledge of the business that his work will be done in a manner not to be surpassed by any one. He will receive the city fashions regularly, and he will venture to say that he will not promise that which he will not perform, but will be punctual to all those who favor him with their custom, and he hopes that the public will extend to him a liberal share of their patronage.

DR. W. EVANS'S CELEBRATED FEVER AND AGUE PILLS.

This wide-extended and most admirable Remedy, which has already rendered such benefit, and proved the *only* radical cure for the above-named disorder, is *particularly* recommended to public notice at this variable season of the year. On first feeling the premonitory symptoms occur, it is advisable *at once* to clear thoroughly the stomach & bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans's Purifying Pills,

the value and well authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit

THE INVIGORATING AND STRENGTHENING PILLS.

Directions are as follows:

Take four of the *Purifying Pills* on the first accession of Fever, and continue the same number every other night, till with the additional use of the *Invigorating Pills*, a permanent cure is obtained.

Take three of the *Invigorating Pills* in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

☞The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills

Sold at Dr. EVANS'S Medical Establishment, 100 Chatham Steeet, N. Y., and by his authorized Agents throughout the Union.

A REAL BLESSING TO MOTHERS.
Dr. W. Evans' Celebrated Soothing Syrrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficaciouse and so pleasant, that no child will refuse to let its gums be rubbed with it. When infant are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without this Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

ON LOW SPIRITS.

Low spirits has a certain state of the mind accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms The common corporeal symptoms are flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunts the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principle objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anotyne, and anti spasmodic) are an infallable remedy, and without dispute have proved a great blesisng to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to, in many cases it greatly aggravates the symptoms.

HIGHLY IMPORTANT.

☞Nervous diseases, liver complaint, dyspepsia, billious diseases, piles, consumption, coughs, colds, spitting of blood, pain in the chest and side, ulcers, female weakness, meremial diseases, and all cases of hypochondriacism, low spirits, palpatation of the heart, nurvous irratability, nervous weakness, fluor-albus, seminal weakness, indigestion, loss of appetite, heartburn, general debility, bodily weakness, chlorosis or green sickness, flatulency, hysterical faintings, hysterics, headaches, hiccup, sea sickness, night mare, rheumatism, asthma, the douloureux, cramp, spasmodic affections, and those who are victims to that most excruciating disorder, *Gout*, will find relief from their sufferings by a course of Dr. Wm. Evans' medicine.

Also, nausea, vemitting, pains in the side, limbs, head, stomach or back, dimness or confusion of sight, noises in the inside, alternate flushes of heat and chillness, tremors, watchings, agitatation, anxiety, bad dreams, spasms.

Principal Office, 100 Chatham st. New York.

Paralytic Rheumatism.—A perfect cure effected by the treatment of Dr. W. Evans.—Mr. John Gibson, of North Fourth st, Williamsburg, afflicted with the above complaint for three years and nine months during which time he had to use crutches. His chief symptoms were excruciating pain in all his joints, that especially in the hip, shoulder, knees and ankles; an agravation of the pain towards night; and for the most part all times from the external heat, in obvious thickening of the fascie and ligaments, with a comple loss of muscular power. For the benefit of those afflicted in a similar manner, Mr. Gibson conceiving it meet to say that the joints have completely recovered their natural tone, and he feels able to resume his ordinary business.

☞*Liver Complaint, Ten Years' Standing.*—Mrs. Hannah Browne, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with liver complaint, restored to health thro' the treatment of Dr. Wm. Evans. Symptoms: Habitual constipation of the bowels, total loss of appetite, excrutiating pain of the edigastric region, great depression of spirits, langour and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high colored, with other symptoms indicating great derangement of the functions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr Wm. Evans' invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

The following interesting & astonishing facts, are amongst the numerous cures performed by the use of Dr. Wm. Evans' Medicines. Principle Office, 100 Chatham Street, New York, where the Doctor may be consulted personally, or by letter (post paid) from any part of U. States, &c. Persons requiring medicine and advice, must enclose a Bank Note, or Order.
