In regard to the election which takes place on Wednesday next, we have every cause to congratulate ourselves upon the cheering prospect before us. Our party is in good plight, and animated with the best spirits, whilst on the other side, confusion, gloom and despair are visibly marked in all their movements and arrangements. They are out of gear in reference to their congressional candidates, with every prospect of being defeated by an immense majority.—They are at sixes and sevens so far as their candidates for Sheriff are concerned, and their ticket for the Legislature is not much calculated to give strength and efficiency to their operations—I deed they are and have been, making so much fuss about their Congressional candidates to the neglect of their other candidates, that they are likely to endanger whatever chance they otherwise might have had of coming off victoriously in the county election. Had they not better, under the circumstances, let their Congressional election have gone by default and rallied the more strongly, if possible, upon their other ticket. They might with great propriety ask themselves, what possible chance they have of succeeding in their congressional election, when they have two candidates in the field?

In this position of things, by making a useless effort, they will find their disappointment the greater. Why not then let Stewart come in as a matter of course, and endeavor afterwards, to have their party better organized. No party can expect to succeed without organization. They are not organized.—If Stewart thus succeeds, it will only have the effect to settle this Somerset dispute, perhaps to the greater satisfaction of both parties. At all events, we have only to say that our course is onward throughout the country, throughout the State, throughout this district and throughout the county. When our *peculiar* opponents hear from the polls in Somerset and Worcester, they will find, that the suggestions we make now, are fully authorised in regard to the Congressional election.—The returns in this county too will show, if they are not very careful, that by tugging at a "dead horse" for Congress, they have lost the main chance. "*Be just and fear not*," is a motto that would well apply under the circumstances of this election.

We have not time just now to trouble ourselves with the frothy effusion of "A Young Whig" displaying his *beauties* in the last Chronicle.—He may pass along for what he is worth, with his admirers. We do not feel disposed, nor do we think it necessary to disturb his equanimity by making a thrust at him.

VERMONT.—Affairs in this state are all right, and the republicans have a majority on joint ballot as at first reported. The Vermont Patriot, published at the capitol, has returns from nearly all the towns in the state, and puts down the strength of the parties in the Legislature thus:—Senate 12 democrats, 18 federalists; House 119 democrats, 110 federalists. Democratic majority on joint ballot, 3.—Jenison's (fed.) majority for Governor, about 1300.—*Balt. Post.*

Highly Important.

Nervous diseases, liver complaint, dyspepsia, bilious diseases, piles, rheumatism, consumption, coughs colds, spitting of blood, pain in the chest and side, ulcers, female weakness, all delicate and mercurial diseases are successfully treated at Dr. EVANS' Medical Office, 100 Chatham street, New York.

DR. EVANS'

CAMOMILE and APERIENT PILLS

ON LOW SPIRITS.

Low spirits has a certain state of the mind accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers suppose this disease to be confined to those particular regions of the abdomen technically called hypochondria which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunts the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakest.

Causes. A sedentary life of any kind, especially severe study, pratracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principle objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anotyne, and antispasmodic) are an infallable remedy, and without dispute have proved a great blesisng to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to, in many cases it greatly aggravates the symptoms.

DR. W. EVANS' SOOTHING SYRUP
FOR CHILDREN TEETHING.
Prepared by himself.

To Mothers and Nurses—The passage of the Teeth through the gums produces troublesome & dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretions of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts; the child shrieks with extreme violence, and throws its fingers in its mouth. If these precursory symptoms are not speedily alleviated spasmodic convulsions universally supervine, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans's Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

A REAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums the child will recover. This preparation is so innocent, so efficacious and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

☞ *Proof positive of the efficacy of Dr. W. Evans' Soothing Syrup.*

To the Agent of Dr. Evans' Soothing Syrup:

Dear Sir:—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent how essential an early application of such an invaluable medicine is to relieve infant misery and torture. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions, and my wife and family supposed that death would soon release the babe from anguish, till we procured a bottle of your Syrup; which as soon as applied to the gums, a wonderful change was produced, and after a few applications the child displayed obvious relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint has since occurred; the teeth are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

WM. JOHNSON,

☞ A gentleman who has made trial of Dr. W. Evans' Soothing Syrup, in his family, (in case of a teething child) wishes us to state that he found it entirely effectual in relieving pain in the gums, and preventing the consequences which sometimes follow. We cheerfully comply with his request.—[New York Sun.

☞ We believe it is generally acknowledged by those who have tried it, that the Soothing Syrup for Children Cutting Teeth, advertised in another column, is a highly useful article for the purposes for which it is intended. Highly respectable persons, at any rate, who have made use of it, do not hesitate to give its virtues the sanction of their names.—[Boston Traveller.

☞ *A severe case of Teething, with Summer Complaint,* cured by the infallible American Soothing Syrup by W. Evans. Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical office of Dr. W. Evans, 100 Chatham street, N. Y., and purchased a bottle of the Syrup for her child, who was suffering excruciating pain during the process of dentition, being momentarily threatened with convulsions, its bowels too were exceeding loose, and no food could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the syrup on the gums, the bowels in a short time became quite natural. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and freely sanctioned publicity to the above. Pray be particular in applying at 100 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

☞ *Important to Mothers.*—Children generally suffer much uneasiness from the cutting of their teeth. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and soften, soothe, and relax the gums. If that is effected, the infant is preserved from subsequent fever, inflatulation, spasmodic cough, twitching of tendons, croup, canker, and convulsions, displaying their fatal consequences.—If mothers, nurses, or guardians, have their babes tortured with painful and protracted dentition, and this notice attracts their attention, they should not be deterred from purchasing a bottle of EVANS' SOOTHING SYRUP for Children *Teething*, the incomparable virtue of which, in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The remedy has restored thousands of children when on the verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortiferous malady—Convulsions.

☞ DIRECTIONS.—*Please shake the bottle when first opened.*—When children begin to be in pain with their teeth, shooting in their gums, put a little of the Syrup in a teaspoon, and with the finger let the child's gums be rubbed for two or three minutes, three times a day. It must not be put to the breast immediately, for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of lancing the gums, which always makes the next tooth much harder to come through, and sometimes causes death.

DR. W. EVANS'S CELEBRATED FEVER AND AGUE PILLS.

The pills, so admirably adapted to afford uniform relief in the different modifications of these distressing maladies, are particularly recommended to public notice. On the accession of the cold stage, when the face and limbs of the sufferer become pale, and the sensation of cold and languor is felt pervading the whole system—their administration is accompanied with astonishing success—they soon lesson the subsequent distressing shivering, and violent shaking, and by continuing in their use (as directed) will ultimately cure the most obstinate ague. These pills are of signal utility in those distressing cases, where there is a sallowness of complexion, pain in the region of the liver, tension and distress in the epigastic region, with other symptoms indicating the existence of morbid action, or chronic disease of the stomach, liver, bowels, mecentery or spleen, which consequences so generally supervene from protracted intermittents. They permanently overcome these diseases—at the same time give tone to the stomach, cleanse and strengthen the bowels, and impart health, vigor, and energy to the system.

Many persons emigrate to the rich and fertile soil of the West, in the hope of attaining a future competency, but alas! ere long that hope becomes blasted, when they appear with impaired and enfeebled constitutions, resulting from attacks of that direful terror of the West, Fever and Ague, if such persons had resorted to the use of the above pills, the sunken pallid countenance have been restored to its florid hue the vital energy re-established, and the whole system purified and invigorated. They are now regarded as an inestimable public blessing, and indispensable to the health, comfort, and even the local prosperity of the inhabitants of many portions of our western country.

In all cases of Bilious and Nervous Fever, Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Pains in the Side, Limbs, Head, Stomach, or Back, will invariably be removed by the use of the Pills.

On first feeling the premonitory symptoms occur, it is advisable *at once* to clear thoroughly the stomach & bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans's Purifying Pills.

the value and well authenticated virtues of which medicine have been and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit the Invigorating and Strengthening Pills.

Directions are as follows:

Take four or more of the *Purifying Pills* on the first accession of Fever, and continue the same number every other night, till with the additional use of the *Invigorating Pills*, a permanent cure is obtained.

Take three of the *Invigorating Pills* in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

☞ The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills.

Sold at Dr. EVANS'S Medical Establishment, 100 Chatham Street, N. Y., and by his authorized Agents throughout the Union.
