CAMBRIDGE:

MONDAY, MARCH 23, 1840.

FOR PRESIDENT,

MARTIN VAN BUREN,

OF NEW YORK.

The Friends of the National Administration in this County are requested to meet at the Court House in the town of Cambridge, on Monday the 6th of April next, at half past 2 o'clock, for the purpose of appointing Delegates to the National Convention which meets in Baltimore on the 5th of May next.

The Legislature we learn adjourned on Friday last.

Our County Court will soon be held in this place, and our subscribers and patrons will have an opportunity of either bringing or sending to us, such amounts as they owe us. Those who are in arrears, will do us a favor by settling up, either in whole or part.—Prompt payments are the life of the press.—Our subscribers have usually been very punctual, and we have no general cause of complaint. We hope they will continue to be so.

OUR TOWN.—We understand the Legislature have passed a law, appointing Commissioners and authorizing a Lottery, for the purpose of raising the sum of ten thousand dollars, to extend the Cambridge Wharf upon a good stone foundation. We hope the Commissioners, as industrious and business men, will go to work as soon as possible, and let us have the benefit of this desirable improvement.

INCREASED MAJORITY.—At the recent election in the State of New Hampshire, we learn that the Harrisonites scarcely made any show of opposition, and the Democratic ticket succeeded by an overwhelming and increased majority. We wonder if the whigs claim this old granite State. They take very good care to publish their own victories and say as little as possible of elections that go against them by thousands of majorities. If one had credulity enough to believe in all their prophecies, he would certainly come to the conclusion that it is, in a measure, useless to oppose the Hero of Hippecanoe, but we must confess that we have not such faith in the chance of success of the "hard cider," "apple toddy," 'raw-whiskey' or by whatever *soubriquet* they may be pleased to call their candidate. The salt-water candidate has generally been quite successful, and we doubt not, will sufficiently beat any prarie candidate that a heterogeneous opposition may think proper to amalgamate upon.

The election for members of the Legislature takes place in the State of Virginia, during the month of April next. We shall be able to tell from the result, whether all the boasts and brags made by the opposition in regard to changes in Virginia are true. The Whigs for the want we suppose, of better grounds, appear to go upon the braging principle. If one had believed all their prophecies, he might have supposed, that Adams would have been re-elected, when he was a candidate against Gen. Jackson—that Clay by this time, would have been the Presdent. That Gen. Harrison, at the last election, would have succeeded. But the polls exhibit facts, and put to flight all their fancies.—Indeed it has become proverbial that Whig predictions are to be interpreted contrariwise, like an old woman's dreams. Parties heretofore have been close in Virginia, but we cannot believe for a moment that the old commonwealth will ever give her vote for Harrison.

We learn the Legislature have enacted a law, in regard to the Pilot system. We have have not yet seen the Bill and therefore cannot speak particularly of its provisions.—We understand, however, that it takes off sundry burdens from the commanders and owners of vessels. Much credit is due to Captain Frazier, one of the Delegates from this county, for his efforts in behalf of this measure. The Captain is one of those "go ahead" fellows that rarely fails in any thing he undertakes. He has adhered very closely to the vessel interest, in his Legislative course.

THE EMPIRE STATE, *alias*, THE NEW YORK WHIG, has wheeled its whole array into the service of the Abolitionists. The last number contains line upon line of the most violent abuse of Southern men and Southern principles—it calls upon the North to think no more of dissolution, but exclaims "dissolve if you dare and take the consequences." It enters into an exposition of the probable results of a dissolution, and, after determining a civil war inevitable, exclaims "Wo to the South, in such a contest. The North would invade the South, with a supply of arms for the slaves, grant them an armed emanciation, and at once place their masters between two fires." We doubt if the columns of the Liberator or Emancipator contain a piece of more exciting and dangerous tendency than these articles in the Empire State. We deem it a duty to be informed of the proceedings at the North on this subject and give our readers such as we may obtain. It is necessary to our own defence. The articles under notice are written in reply to some remarks made in the New York Sun on the right of petition. In conclusion we repeat one of the questions it propounds, and answer decidedly and unequivocally in the negative. "Cannot the Union survive the abolition of slavery in the District of Columbia, in Florida, and in the Territories west of Missiouri and Arkansas?" We repeat it, the Union cannot survive such abolition *if it is done without the consent of the South.—Worcester Banner.*

U. S. BANK.—The New York Star contains an extract of a letter from a London Banker, which states that Mr. Jaudon has borrowed £3,000,000, on pledges of State Stocks, at 10 and 11 per cent interest.—On those state bonds the Bank obtains 5 or 6 per cent interest, and pays for the loans obtained upon the pledge of them double the rate. This is doing a rapid business. How long it will be able to bear up under such operations remains to be seen. When it is recollected that the regular rate of interest in England is 5 per cent it shows pretty clearly the estimation in which the Regulator is held in that country. That the Bank is now insolvent is very manifest, from the statement which was recently made of the state of its affairs; and it is going on, as rapidly as possible to diminish its means. What is to be the result of all this? Is it not manifest that it would be for the benefit of all its creditors, that it should be deprived of its charter, and required to wind up its affairs as rapidly as possible? It really appears so to us. And if this were done it would go very far towards relieving the other Banks and the country from existing embarrassments.—*Balt. Rep.*

The Mississippi.—Great apprehensions were felt at New Orleans on the 5th inst., for the safety of the levee. The river was rising rapidly, and the expectation was that it would overflow the banks.

More Croaking.—The arrival of the Great Western has again set the New York merchants to croaking. They were not able at first to decide whether the news was favorable or otherwise, until a large number of them met together on 'Change, when, on comparing notes, they agreed that the accounts were not *encouraging.—Delaware Gazette.*

NOTICE.

THE subscriber informs the public that the CAMBRIDGE PACKET now owned entirely by him, and commanded by Captain MOWBRAY, having resumed her regular trips between Cambridge and Baltimore will sail on the following days: on Saturdays she will leave Cambridge for Baltimore, and on Wednesdays will leave Baltimore for Cambridge.

This vessel was built of the best materials, and in the best possible manner by the most skillful workmen. She is a remarkably fast sailer, and has every convenience on board for the comfort of her passengers. Her cabin is of the largest size, her beds good, and her table is constantly supplied with the best provisions the market will afford. Passengers are promised that every attention will be paid to them on board.

Freight will be carried by her on moderate terms, and particular care in all cases will be taken of it.

I am obliged to inform the public that all orders left either with the Captain or myself, for articles to be purchased, must be accompanied with the cash. The scarcity of money compels me to adopt this rule, which I trust no one will think either improper or unreasonable.

DR. W. EVANS' SOOTHING SYRUP,

FOR CHILDREN TEETHING.

Prepared by himself.

To Mothers and Nurses—The passage of the Teeth through the gums produces troublesome & dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretions of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts; the child shrieks with extreme violence, and thrusts its fingers in its mouth. If these precursory symptoms are not speedily alleviated spasmodic convulsions universally supervine, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans's Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

A REAL BLESSING TO MOTHERS

Dr. W. Evans' Celebrated Soothing Syrrup for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c.

☞*Proof positive of the efficacy of Dr. W. Evans' Soothing Syrup.*

To the Agent of Dr. Evans' Soothing Syrup:

Dear Sir:—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent how essential an early application of such an invaluable medicine is to relieve infant misery and torture. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions, and my wife and family supposed that death would soon release the babe from anguish, till we procured a bottle of your Syrup; which as soon as applied to the gums, a wonderful change was produced, and after a few applications the child displayed obvious relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint has since occurred; the teeth are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

WM. JOHNSON,

☞A gentleman who has made trial of Dr. W. Evans' Soothing Syrup, in his family, (in case of a teething child) wishes us to state that he found it entirely effectual in relieving pain in the gums, and preventing the consequences which sometimes follow. We cheerfully comply with his request.—[New York Sun.

☞We believe it is generally acknowledged by those who have tried it, that the Soothing Syrup for Children Cutting Teeth, advertised in another column, is a highly useful article for the purposes for which it is intended. Highly respectable persons, at any rate, who have made use of it, do not hesitate to give its virtues the sanction of their names.—[Boston Traveller.

☞*A severe case of Teething, with Summer Complaint*, cured by the infallible American Soothing Syrup by W. Evans. Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical office of Dr. W. Evans, 100 Chatham street, N. Y., and purchased a bottle of the Syrup for her child, who was suffering excruciating pain during the process of dentition, being momentarily threatened with convulsions, its bowels too were exceeding loose, and no food could be retained on the stomach Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the syrup on the gums, the bowels in a short time became quite natural. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and freely sanctioned publicity to the above. Pray be particular in applying at 100 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

☞*Important to Mothers.*—Children generally suffer much uneasiness from the cutting of their teeth. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and soften, soothe, and relax the gums. If that is effected, the infant is preserved from subsequent fever, inflatulation, spasmodic cough, twitching of tendons, croup, canker, and convulsions, displaying their fatal consequences.—If mothers, nurses, or guardians, have their babes tortured with painful and protracted dentition, and this notice attracts their attention, they should not be deterred from purchasing a bottle of EVANS' SOOTHING SYRUP for Children *Teething*, the incomparable virtue of which, in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The remedy has restored thousands of children when on the verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortiferous malady—Convulsions.

☞DIRECTIONS.—*Please shake the bottle when first opened.*—When children begin to be in pain with their teeth, shooting in their gums, put a little of the Syrup in a teaspoon, and with the finger let the child's gums be rubbed for two or three minutes, three times a day. It must not be put to the breast immediately, for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of lancing the gums, which always makes the next tooth much harder to come through, and sometimes causes death.

DR. GOODE'S

CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints peculiar to their sex, from want of Exercise, or general Debility of the System, Obstructions, Suppressions, and Irregularity of the Menses; at the same time strengthening, cleansing, and giving tone to the Stomach and Bowels, and propucing a new and healthy action throughout the system generally. They create Appetite, correct Indigestion, remove Giddiness and Nervous Headache, and are eminently useful in those Flatulent Complaints which distress Females so much at the "TURN OF LIFE." They obviate Costiveness, and counteract all Hysterical and Nervous Affections, likewise afford soothing and permanent relief in Fluor Albus, or Whites, and in the most obstinate cases of Chlorosis, or Green Sickness, they invariably restore the pallid and delicate female to health and vigor.

These Pills havo gained the sanction and approbation of the most eminent Physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of connubial happiness have been defeated, these Pills may be truly esteemed a blissful boon. They soon renovate all functional debility, and if taken, (according to directions) obviate all morbid action. They dispel that fulsome and disagreeable sensation common to females at each monthly return, likewise the attendant pains in the back, side or loins; they generally counteract the nausea, vomiting, and other nervous affections in Chlorosis, or Green Sickness, in a few days, and if continued (according to directions) soon effect a perfect cure.—Nothing is so signally efficacious in recruiting the pallid and sickly female (who has been during her life irregular and sensitive) as the FEMALE PILLS. These pills invigorate the whole system, improve the memory, and enliven the imagination, create appetite, and restore tranquil repose. Many hundred females can testify of their efficacy, and many Physicians (in this city, as also throughout the United States) can bear testimony to their merits and extraordinary virtues. They are invaluable to enfeebled and relaxed females, who from repeated and difficult labors are afflicted with weakness and infirmities, in which case they are highly useful strengthening at the same time the stomach, the back, the weakened organs, and the whole constitution.

Dr. Goode's Celebrated Female Pills.

These Pills are of two kinds namely: No. 1, or Laxative Pills, and No 2, or Restorative Pills. They are for all the following diseases: Suppression, Irregularity or Retention of the Menses, Fluor Albus, Chlorosis or Green Sickness, Costiveness, Gravel, Incontinence of Urine, Nervous Affections, Hysterics, Prolapsus Uteri, or falling of the Womb, and Piles. These Pills are also particularly adapted to the male as well as the female sex, for the cure of the following diseases: Nervous Diseases, Liver Complaint, Dyspepsia, Bilious Diseases, and all cases of Hypochondriacism, Low Spirits, Palpitation of the Heart, Nervous Irritability, Nervous Weakness Indisposition, Loss of Appetite, Heartburn, General Debility, Bodily Weakness, or Flatulency, Headaches, Nightmare, Rheumatism, Asthma, Tic Doloureux, Cramp Spasmodic Affections, and those who are victims to that most excruciating disorder *Gout*; also, Pains in the Side, Chest, Limbs Head, Stomach or Back, Dimness or Confusion of Sight, Alternate flushes of Heat and Chillness, Tremors, Watchings, Agitation, Anxiety, bad Dreams and Spasms.

This Medicine is acknowledged to be one of the most valuable ever discovered, as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a sudorific or alterative.

Directions for use—Pills No. 1 must be taken from three to six, or more, at bed time, sufficient to operate briskly, till the desired object is effected. Take No. 2 according to the directions as on the box.

In all cases, both kinds of the pills are to be used at the same time, in the following manner—Take three pills or more of No. 1 every night on going to bed, increasing the number, if they do not open the bowels; also, take three of the pills No. 2, half an hour before each meal, three times daily.

Sold at 100 Chatham street, New York, and by one respectable person in every town in the Union.

DR. W. EVANS'S CELEBRATED FEVER AND AGUE PILLS.

The pills, so admirably adapted to afford uniform relief in the different modifications of these distressing maladies, are particularly recommended to public notice. On the accession of the cold stage, when the face and limbs of the sufferer become pale, and the sensation of cold and languor is felt pervading the whole system—their administration is accompanied with astonishing success—they soon lesson the subsequent distressing shivering, and violent shaking, and by continuing in their use (as directed) will ultimately cure the most obstinate ague. These pills are of signal utility in those distressing cases, where there is a sallowness of complexion, pain in the region of the liver, tension and distress in the epigastic region, with other symptoms indicating the existence of morbid action, or chronic disease of the stomach, liver, bowels, mecentery or spleen, which consequences so generally supervene from protracted intermittents. They permanently overcome these diseases—at the same time give tone to the stomach, cleanse and strengthen the bowels, and impart health, vigor, and energy to the system.

Many persons emigrate to the rich and fertile soil of the West, in the hope of attaining a future competency, but alas! ere long that hope becomes blasted, when they appear with impaired and enfeebled constitutions, resulting from attacks of that direful terror of the West, Fever and Ague, if such persons had resorted to the use of the above pills, the sunken pallid countenance have been restored to its florid hue, the vital energy re-established, and the whole system purified and invigorated. They are now regarded as an inestimable public blessing, and indispensable to the health, comfort, and even the local prosperity of the inhabitants of many portions of our western country

In all cases of Bilious and Nervous Fever, Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Pains in the Side, Limbs, Head, Stomach, or Back, will invariably be removed by the use of the Pills.

On first feeling the premonitory symptoms occur, it is advisable *at once* to clear thoroughly the stomach & bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans's Purifying Pills,

the value and well authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit the Invigorating and Strengthening Pills.

Directions are as follows:

Take four or more of the *Purifying Pills* on the first accession of Fever, and continue the same number every other night, till with the additional use of the *Invigorating Pills*, a permanent cure is obtained.

Take three of the *Invigorating Pills* in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

☞The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills.

Sold at Dr. EVANS'S Medical Establishment, 100 Chatham Street, N. Y., and by his authorized Agents throughout the Union.
