Journal of Health,

Conducted by an Association of Physicians.

Health: the poor Man's riches, the rich man's bliss.

The primary object with the conductors of the Journal of Health, is to point out the means of preserving health and preventing disease. To attain this, all classes and both sexes shall be addressed, in a style familiar and friendly and with an avoidance of such professional terms and allusions as would in any way obscure the subject or alarm the most fastidious. The fruits of much reading, study, and careful observation, shall be placed before them, so arranged and applied as to conduce most efficaciously to their bodily comfort and mental tranquillity. To whatever profession or calling they may belong, the readers of this Journal will find precepts susceptible of valuable application. Air, food, exercise, the reciprocal operation of mind and body, climate and localities, clothing and the physical education of children, are topics of permanent and pervading interest, with the discussion & elucidation of which the pages of the work will be mainly filled.

In addition to the above, the names of a number of highly esteemed members of the different professions, who are subscribers to the work, might be adduced as expressive of the estimation in which it is held. With one voice the public press from one end of the Continent to the other has spoken of the Journal of Health in terms of unequivocal commendation.

TERMS—The paper will appear in numbers of 16 octavo pages each; on the 2d and 4th Wednesday of every month, price per annum $1 50 in advance.

TO THE PUBLIC.

In consequence of the numerous frauds and impositions practised in reference to my medicine, I am again induced to change the form of my Bottles. In future the Panacea will be put up in round bottles, fluted longitudinally, with the following words blown in the glass. "Swaim's Panacea Philada." as represented above.

These bottles are much stronger than those heretofore used, and will have but one label, which covers the cork, with my own signature on it, so that the cork cannot be drawn without destroying the signature, without which none is genuine. The medicine may consequently be known to be genuine when my signature is visible: to counterfeit which will be punishable as forgery.

The increasing demand for this celebrated medicine has enabled me to reduce the price to Two Dollars per bottle, thus bringing it within the reach of the indigent.

My Panacea requires no encomium: its astonishing effects and wonderful operation have drawn, both from Patients and Medical Practitioners of the highest respectability, the most unqualified approbation, and established for it a character, which Envy's pen, though dipped in gall, can never tarnish.

The false reports concerning this valuable medicine, which have been so diligently circulated by certain Physicians, have their origin either in envy or in the mischievous effects of the spurious imitations.

The Proprietor pledges himself to the Public, and gives them the most solemn assurances, that this medicine contains neither mercury nor any other deleterious drug.

The Public are cautioned not to purchase my Panacea, except from myself, my accredited agents, or persons of known respectability, and all those will consequently be without excuse, who shall purchase from any other persons. WM. SWAIM.

Philadelphia, September, 1828

From Doctor Valentine Mott, Professor of Surgery in the University of New York, Surgeon of the New York Hospital &c &c.

I have repeatedly used Swaim's Panacea both in the Hospital and in private practice, and have found it to be a valuable medicine in chronic, syphilitic, and scrofulous complaints and in obstinate cutaneous affections. VALENTINE MOTT, M.D.

New-York, 1st mo, 5th, 1824.

From Doctor William P. Dewees, Adj't Professor of Midwifery in the University of Pennsylvania, &c. &c.

I have much pleasure in saying I have witnessed the most decided and happy effects in several instances of inveterate diseases from Mr. Swaim's Panacea where other remedies had failed—one was that of Mr. Brown. WM. P. DEWEES, M. D.

Philadelphia, February 20 1823.

From Doctor James Mease, Member of the American Philosophical Society &c. &c.

I cheerfully add my testimony in favour of Mr. Swaim's Panacea, as a remedy in Scrofula. I saw two inveterate cases perfectly cured by it, after the usual remedies had been long tried without effect—those of Mrs. Offner and Mrs. Campbell.

JAMES MEASE, M.D
