# PROSPECTUS
OF THE
## United States' Magazine
AND DEMOCRATIC REVIEW

ON the 1st of July, 1837, will be published at Washington, District of Columbia, and delivered simultaneously in the principal cities of the United States, a new Monthly Magazine, under the above title, devoted to the principles of the Democratic party.

It has long been apparant to many of the reflecting members of the Democratic party of the United States, that a periodical for the advancement and diffusion of their political principles, similar to these in such active and influential operation in England, is a desiderata, which it was very important to supply—a periodical which should unite with the attractions of sound and vigorous literature, a political character capable of giving efficient support to the doctrines and measures of that party, now maintained by a large majority of the people. Discussing the great questions of policy before the country, expounding and advocating the Democratic doctrine through the most able pens that that party can furnish, in articles of greater length, more condensed force, more elaborate research, and more elevated tone than is possible for the newspaper press, a Magazine of this character becomes an instrument of inappreciable value for the enlightenment and formation of public opinion, and for the support of the principles which it advocates. By these means, by thus explaining and defending the measures of the great Democratic party, and by always furnishing to the public a clear and powerful commentary upon those complex questions of policy and party which so often distract, and upon which, imperfectly understood as they frequently are by friends, and misrepresented and distorted as they never fail to be by politi- opponents, it is of the utmost importance that the public should be fully and rightfully informed, it is hoped that the periodical in question many be made to exert a beneficial, rational, and lasting influence on the public mind.

Other considerations, which cannot be too highly appreciated, will render the establishment and success of the proposed Magazine of very great importance.

In the mighty struggle of antagonist principles which is now going on in society, the Democratic Party of the United States stands committed to the world as the depository and exemplar of those cardinal doctrines of political faith with which the cause of the People in every age and country is identified. Chiefly from the want of a convenient means of concentrating the intellectual energies of its disciples, this party has hitherto been almost wholly unrepresented in the republic of letters, while the views and policy of its opposing creeds are daily advocated by the ablest and most commanding efforts of genius and learning.

In the United States' Magazine the attempt will be made to remove the reproach.

The present is the time peculiarly appropriate for the commencement of such an undertaking—The Democratic body of the Union, after a contest which tested to the utmost its stability and its principles, have succeeded in retaining possession of the executive administration of the country. In the consequent comparative repose from political strife, the period is auspicious for organizing and calling to its aid a new and powerful ally of this character, interfering with none and co-operating with all.

Co-ordinate with this main design of the United States' Magazine, no care or cost will be spared to render it, in a literary point of view, honorable to the country; and to cope in vigor of rivalry with its Eng- competitors. Viewing the English language as the noble heritage and common birth-right of all who speak the tongue of Milton and Shakespeare, will be the uniform object of its conductors to present only the finest productions in the various branches of literature, that can be procured; and to diffuse the benefit of correct models of taste and worthy execution.

In this department the exclusiveness of party, which is inseparable from the political department of such a work, will have no place. Here we all stand on a neutral ground of equality and reciprocity, where those universal principles of taste to which we are all alike subject will alone be recognized as the common law. Our political principles cannot be compromised, but our common literature it will be our common pride to cherish and extend, with a liberality of feeling unbiased by partial or minor views.

As the United States' Magazine is founded on the broadest basis which the means and influence of the Democratic party in the United States can present, it is intended to render it in every respect a thoroughly NATIONAL WORK, not merely designed for ephemeral interest and attraction, but to continue of permanent historical value. With this view a considerable portion of each number will be appropriated to the following subjects, in addition to the general features referred to above.

A general summary of political and domestic intelligence, digested in the order of the States, comprising all the authentic important facts of the preceding month.

General literary intelligence; domestic and foreign.

General scientific intelligence, including agricultural improvements, a notice of all new patents, &c.

A condensed account of all new works of Internal Improvements throughout the Union, preceded by a general view of those now in operation or in progress.

Military and naval news, promotions, changes movements, &c.

Foreign intelligence.

Biographical obituary notices of distinguished persons.

After the close of each session of Congress, an extra or an enlarged number will be published, containing a general review and history of its proceedings, a condensed abstract of important official documents, and the Acts of the session.

Advantage will also be taken of the means concentrated at this establishment from all quarters of the Union, to collect and digest such extensive statistical observations on all the most important interests of the country as cannot fail to prove of very great value.

This portion of the work will be seperately paged so as to admit of binding by itself, and will be furnished with a copious index, so that the United States' Magazine will also constitute a Complete Annual Register, on a scale unattempted before, and of very great importance to all classes, not only as affording a current and combined view, from month to month, of the subjects when will embrace, but also for record and reference through future years; the value of which will increase with the duration of the work.

Although in its political character the United States' Magazine addresses its claims to support particularly to the Democratic party, it is hoped that its other features referred to above—independently of the desirable object of becoming acquainted with the doctrines of an opponent thus advocated—will recommend it to liberal and candid support from all parties, and from the large class of no party.

To promote the popular objects in view, and relying upon the democratic party, as from others, the price of subscription is fixed at the low rate of FIVE DOLLARS per annum; while in mechanical arrangements, and in size, quantity of matter, &c, the United States Magazine will be placed on a par at least with the leading monthlies of England. The whole will form three large octavo volumes each year.

The subscription will be in all cases payable in advance, or (for the first year only) six dollars on the delivery of the third number. The absolute necessity of this rule in such an establishment will be obvious to all.

In return for remittance of $50, eleven copies will be sent; for $100, twenty three copies. The certificate of a Postmaster of the remittance of a sum of money will be sufficient receipt, all dangers of the mail being at the risk of the Publishers.

All communications will be addressed, post paid, to the undersigned, the Publishers:

LANGTREE & O'SULLIVAN.

*FOR SALE.*

BY virtue of a decree of Queen Ann[illegible] county court the subscriber as trustee [illegible] will offer at public sale on THURSDAY la[illegible] day of JUNE, at Centreville at 12 o'clock, the farm known by the name of Prospect Bay, situated in Piney Neck Q. A. County,

This farm is beautifully situated on Eastern Bay and Greenwood's Creek—where the various luxuries of the water can be had in great abundance, the shores afford a quantity of sea ooze and some shells, which make the farm very susceptible of improvement. The farm is of a sandy quality, and adapted to the growth of corn, is well divided with fencing principally of Chesnut. There are about 25 acres of Marsh, about 250 acres of valuable land, and the residue in

containing in the whole, by late survey

**375 acres & 1 rood.**

The improvements consist of a small Two story frame Dwelling Kitchen, meat house, Quarter, Windmill, Corn house, Stables and a large Barn, embracing two corn cribs, granary, carriage house and two sheds. To a person in want of a farm this cannot fail to please, as for beauty of situation and general advantage, it is surpassed by few.

It is presumed persons wishing to purchase will view the premises which will be cheerfully shown them by W. A. G. Hobbs residing thereon.

The terms of sale as prescribed by the decree are, that the purchaser or purchasers shall give bond with approved security for the payment of the purchase money in three equal instalments of six, twelve and eighteen months from the day of sale. Upon the payment of the money and the ratification of the sale by the court, the trustee will execute a good and sufficient deed to the purchaser, free of all incumbrances.

## DR. BRANDRETH
WANTS NO COLLEGE, NO INSTITUTION, NO MONOPOLY, NO CHARTER, HE BEING QUITE SATISFIED TO REST ON THE PATRONAGE OF THE PUBLIC
FOR THE SUCCESS OF HIS GRANDFATHERS,
Vegetable Universal Pills.
ESTABLISHED IN ENGLAND, 1751.

"Science should contribute to the Comfort, Health, and Happiness of Mankind."

On the eighteenth of May, 1835, these now truly celebrated Pills were first made known in the UNITED STATES, although in Europe they had been previously before the public nearly a century. The American public naturally viewed them with suspicion, but as on trial they were found what they professed, it was soon displaced by the greatest confidence. They have secured this character, too, under very adverse circumstances, having to contend with the base slanders promulgated by those interested in keeping mankind in a state of error as regards the functions of their bodies. Dr. Brandreth would here impress on his friends, and the public generally, that however different may be the action of the Pills at different times, that such different action arises not from any alteration in the Pills, but from the state of the body; they should be persevered in until the action is uniform; for they are an effectual assistant of nature, having the same kind of action on the human body that storms and hurricanes have upon the air, or that the tides have upon the ocean; they purify. What so judicious as the copying of nature?—We see, when she wishes to become purified, that she puts herself in commotion, which has the purifying effect. And so we, to induce purity in our bodies, bring about a natural commotion by artificial means, and experience has taught those who have adopted this course, and who for this purpose have used these Pills, that they adopt a right course, because the result has been sound health or in other words, every organ has become restored to a state of purity consistent with its functions; and although there are many whose bodies are in such a state of debility and suffering, that all which can reasonably be expected is temporary relief; nevertheless, many persons who have commenced with them under the most trying circumstances of bodily affliction, when every other means and medicine have proved altogether unavailing, have been restored to health and happiness from their use, and the consequence is, they are now recommended by thousands of persons whom they have cured of consumption, influenza, colds, indigestion, dyspepsia, headache, and a sense of fullness in the back part of the head, usually the symptoms of apoplexy, jaundice, fever and ague, bilious, scarlet, typhus, yellow, and common fevers of all kinds, asthma, gout, rheumatism, nervous diseases, liver complaint, pleurisy, inward weakness, depression of spirits, ruptures, inflammation, sore eyes, fits, palsy, dropsy, small pox, measles, croup, coughs, whooping cough, quinsey, cholic, cholera morbus, gravel, worms, dysentery, deafness, ringing noises in the head, king's evil, scrotula, erysipelas, or St. Anthony's fire, salt rheum, white swellings, ulcers, some of thirty years standing, cancers, Tumors, swellled leg and legs, piles, Costiveness, all Eruptions of the Skin, Frightful Dreams, Female Complaints of every kind, especially Obstructions, Relaxations, &c.

8000 TESTIMONIALS have been received from individuals of the highest respectability. Call at Dr. B.'s store, and read the ORIGINAL letters, all proving the extraordinary power of Brandreth's Pills in removing diseases of the most opposite character from the Constitution. They in fact prove, by the cures they make, that there is no necessity for other medicine.

☞ The above medicine is for sale by the subscriber the only agent for this County.

Dr. Brandreth's Pills are particularly recommended to persons travelling, as they do not become impaired from keeping. Persons travelling South or West would do well to provide themselves with some of them.

The Pills require no attention, eat and drink what you please, and have no fear of catching cold; the body is better able to stand the effects of cold after a dose than before say the directions.

Certificates of the many cures effected by Dr Brandreth's Pills will be published from time to time

☞ The Subscriber in a short space of time has sold 400 boxes which proves the efficacy of this highly celebrated medicine.

COMMUNICATION.

☞ We are indebted to Mr. John B. Peabody, of Columbus, Georgia, for the following case of Chills and Fevers.

Columbus. Geo. Feb 17. 1837.

This is to certify that I have made use of the celebrated Brandreth's Vegetable Pills, in my family, for Fever and Ague, and have been entirely convinced of their utility and virtue, and shall ever use them in preference to any other medicine, when they are to be obtained. I have also recommended them to others for different diseases—Asthma, Costiveness, Dispepsia, Bile, &c. &c. and the result is entirely satisfactory—they are in my opinion, the most efficient and safe medicine now in use, so far as I am acquainted.

Moore, and on the North [illegible] North by the Cove and St. Mich[illegible] River, and containing the quantity of On[illegible] hundred and sixty two and a half acres of la[illegible] more or less, which the said William Hayward purchased at public sale of the Sheriff of the said county, and died possessed of. The land is leased for the present year, therefore possession will not be delivered to the purchaser until the end of the year, but he will have the privilege of seeding Wheat on the premises in due season, and on the usual terms. This farm being deficient in Wood and Timber, the purchaser will have the opportunity of obtaining a reasonable portion of wood land, convenient to the farm. There is an incumbrance on the land of the widow's dower, which she will either sell for a reasonable price, or lease for a moderate rent. The sale will be made for the purpose of satisfying the Bank for the sum of two thousand eight hundred and twenty dollars, current money, and some interest and costs.—The terms of payment can be made easy to the purchaser by an accommodation to Bank, provided a note, with approved security, be offered.

THOS. I. BULLITT, Pres't.
of the Branch Bank at Easton.
