Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better **time than right now—just before the busiest season** on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

Home Demonstration Notes

There has been planned for the first time a woman's meeting in connection with the annual meeting of the Maryland Agricultural Society at Salisbury November 9, 10 and 11.

The meeting of the women will be on the afternoon of Wednesday, Nov. 10. Dr. McCullum, of Johns Hopkins University, will talk on the importance of fruits and vegetables in the diet. Besides others, Miss Ola Day, of the Extension Service, will talk on the Selection of Textiles.

Will you do all you can to advertise the meeting in your community and urge a number of women to attend? This is a great opportunity to the women of the county. To hear Dr. McCullum alone is worth the trip to Salisbury, besides the privilege of meeting Maryland's foremost club leaders.

Let every one do their utmost to make the meeting a success.

The state having turned out in Kent a number of pheasants as stock birds, all gunners and others are hereby forewarned that any person killing one of these pheasants is subject to a fine of $100 and imprisonment. WASHING MACHINES

The greatest labor saver that has been invented for household use. We have been selling for one year the

MAYTAG

line of washers. We did not just buy this machine on sight, but after looking into the various makes of washers and trying to find the most substantial and complete. On account of our inability to get prompt shipments up to this time we have not advertised them very extensively, but we have sold enough of them to have just that many satisfied users. We are carring this in the Electric.

The Multi-Motor, which has the engine built with the machine.

The Power wachine, which is made to be used with any kind of Belt Power,

The Hand Machine which can be operated by a child.

It will be our pleasure to demonstrate to you the practical use of this machine.

Come see them on our floor, or have one brought to your home if you like.

Yours to serve,
