From the Spirit of the Times.

GREAT EXCITEMENT:

SUSPENSION OF SPECIE PAYMENTS!!—This morning every Bank in Philadelphia, in pursuance of an arrangement entered into some days ago, *unanimously* SUSPENDED SPECIE PAYMENTS. When on Monday last, we insisted upon it, that a suspension would take place, and that too very speedily (for we knew that the matter was on the tapis,) we were looked upon as a madman. Our friends laughed, and our opponents hooted at the thought! We saw how matters were going: we observed that the agent, of the New York institutions was in our city every other day, and we discovered that he always conveyed away with him a large amount of specie — We ascertained that upwards of half a million of dollars payable to N. York would be due in this city during the current month; and that nearly a million of dollars was payable at the Bank of the U. States alone from her own merchants, on domestic acceptances, during the same period.

This, with other circumstances brought to our acquaintance, satisfied us that a suspension was inevitable. We were about to prophecy that *a week* would bring it about; but, unwilling to create an unnecessary excitement, we merely said, in opposition to the Inquirer, which asserted the *impossibility of a suspension*, that it would take place *very soon*.—Our forebodings have been realized! This morning the unwelcome truth burst upon our citizens like a thunder clap.

All was suspense and consternation! The day AFTER the ELECTION, took thereby proving it to be a piece of premeditated villiany—an outrageous conspiracy, between the Banks and the Whig party, to promote the interest of the one and the success of the other. If the banks had suspended but *one day* sooner, the whole Democratic City Ticket *would have been elected*; for there is no man, no voter, no honest citizen, who would not have seen, who would not have felt, the identity between the Bank Dynasty, Bank Tyranny, Bank Interest, and the domination throughout Philadelphia of Whig Principles and their pernicious tendency.

A spontaneous meeting of the People was held this morning, in consequence of the excitement at the District Court Room, to take the subject into consideration; Lemuel Paynter, our Representative from the 1st Congressional District, was called to the Chair, & Thomas Vaughan, C. V. Hangner, C. A. Coehler, Wm. H. Hartnet, and J. Ruthford, Sr., were apointed Vice Presidents, & Joseph M. Doran, Secretary.—Mr. Doran made an eloquent speech on the occasion, and was pertinently followed by W. L. Hirst and E. A. Penniman—the latter one of our Representatives elect to the State Legislature. Like bold hearts, but true to the cause of Democracy and good morals, they deprecated all resort to violent action, even while they considered most unjustifiable that last high-handed and atrocious act of our special privileged Corporations. They dwelt upon the beauty of a strict adherence to the law in a virtuous and well governed community, and begged the adoption on the part of the people of firm, but peaceable measures: in fine, to do nothing, wrong, but to submit to nothing that was not unquestionably right. A committee was appointed, which will report to another meeting, to be held in Independence Square, on Saturday afternoon next at 4 o'clock.

We want words to express our abhorence of of this last specimen of Philadelphia dishonesty!—The Baltimore Banks suspended on Tuesday; but as our relations with that city are neither very intimate, nor very important, in a pecuniary view, that could have had no effect, save in assisting to give a color to this enormous outrage upon the public faith Citizens! look to it. It is thus ye are imposed upon; it is thus ye are trifled with; it is thus ye are deliberately cheated by your own privileged creatures, and then mocked and despised for your credulity and long suffering.

The New York Courier and Enquirer of Thursday, after commenting on the *suspension* in Philadelphia, thus speaks of the New York Banks:

"We are happy to say, that we were waited on yesterday afternoon by a number of gentlemen connected with our institutions; gentlemen whose declarations admit of no question, and whose *knowledge* of the state of our Banks enable them to speak *authoratively*; who assured us that the Deposites in the Banks are so low, that *it is entirely in the power of the Banks in this city to continue specie payments, without resorting to a further curtailment of one dollar, and that* THEY ARE FULLY DETERMINED TO CONTINUE TO MEET ALL THEIR OBLIGATIONS IN GOLD AND SILVER, LET THE COURSE OF BANKS IN OTHER CITIES BE WHAT IT MAY."

The whig party.—The following opinion of the party itself is so exact, that we cannot resist the temptation to add it in our category.—It is from the pen of John Quincy Adams.

"Of that party treachery is so favourable an instrument that I have heard Mr. Burgess complain that they have used it even with him. It is their nature and vocation. So will and so mote it always be. They have no honest principle to keep them together—their only cement is a sympathy of hatred to every man of purer principles than themselves.'

SALES OF TREES NEAR BALTIMORE.

We learn that a sale of 20,000 Morus Multicaulis trees was effected near this city a few days since, by which the holder realized $5,000 and that a part of the trees were afterwards sold at an advance.

On Wednesday last a lot of 5000 trees, growing about 7 miles from Baltimore was sold at auction by Grundy & Co. at the Exchange, on 8 months credit, at 3 1-2 cents per foot, the trees ranging from 4 to 5 feet high.

It will be seen by an advertisement in another column that the Denton Silk Company have a sale on the 15th inst. of a lot of fine trees, to which we would invite attention.

The Sun of this city says—late accounts from France state that the weather had been unfavorable to the Morus Multicaulis crop, that prices had advanced, and it was thought orders would be sent to this country for trees.—*Balt. Farmer.*

MELANCHOLY ACCIDENT.—The Sun contains a statement of the death of Mr. Forwood of Harford co. from a gun shot wound received while on a guning excursion on Spesutia Island last Wednesday.—One of the party, a Mr. Dunkell, picked up a gun he supposed to be unloaded placed a cap on the tube, and aiming it at Mr. Forwood cried out, "Tom, I'll shoot you." He pulled the trigger, and the charge entered Mr. Forwood's left shoulder. His death was the consequence.

And this is called an accident. We cannot resist the opinion that the author of such an accident should be severely punished. Any man may thus commit a *murder* and attribute it to accident, by manifesting a due proportion of poignant grief at the result of his imprudence.—Balt. Post.

BANK ROBBERY.

In the Nashville Whig of the 25th ult. we have the following account of the robbery of the Branch Bank of the State of Tennessee, at Columbia:

With pain we announce the fact that the Branch Bank of Tennessee in this place was robbed last night of between $25,000 & $30,000. The robber entered the outer door with a false key, and finding the key of the safe, which had been deposited in a private place in the banking room, succeeded in opening and taking from it the money. The cashier left every thing safe at the Bank at 8 o'clock.—Many circumstances conspire to confirm the opinion that the miscreants had a familiar knowledge of the Bank, but suspicion we believe has yet attached itself to no particular quarter. At what time of the night the robbery took place, is not known. The money stolen consists we believe of bills on all the Tennessee Banks, the Bank of the United States, and some of the Alabama and Mississippi Banks.

This is, we blush to add, the second robbery which has taken place in Columbia within the last few years. We trust that every possible effort will be made to ferret out the villain or villains.'

Since the above was in type, the Cashier of the Bank has offered $5000 reward—one half for the apprehension of the thief or thieves, and the other half for the recovery of the money.

DRESS CUTTING AND FITTING

TAUGHT IN

FOUR LESSONS,

BY MRS. EDWARDS, from London, inventor of the System.—to Ladies it is recommended for an amusement and to young Ladies intended for business it is particularly worthy of notice, as it prevents the necessity of their sitting for months to close work for what may be obtained in *Four Lessons*, of an hour each time Mrs. E. recommends an early application as she leaves Easton on SATURDAY next, but any Ladies visiting Baltimore may hear of her by applying at 69 Baltimore street; and by a call on Mrs. Edwards at the Easton Hotel she will give them every information, and she has no doubt they will be as equally satisfied of the superiority of the invention as some of the first Ladies in Baltimore to whom she will be happy to refer.

Ladies will be waited on at their residence if in town.

☞DR. WM. EVAN'S CELEBRATED FEVER AND AGUE PILLS.—These pills, so admirably adapted to afford uniform relief in the different modifications of these distressing maladies, are particularly recommended to public notice. On the accession of the cold stage, when the face and limbs of the sufferer become pale, and the sensation of cold and languor is felt pervading the whole system—their administration is accompanied with astonishing success—they soon lesson the subsequent distressing shivering, and violent shaking, and by continuing their use, (as directed) will ultimately cure the most obstinate ague. These pills are of signal utility in those distressing cases, where there is a sallowness of complexion, pain in the region of the liver, tension and distress in the epigastic region, with other symptoms indicating the existence of morbid action, or chronic disease of the stomach, liver, bowels, mecentery or spleen, which consequences so generally supervene from protracted intermittents. They permanently overcome these diseases—at the same time give tone to the stomach, cleanse and strengthen the bowels and impart health, vigor, and energy to the system.

Many persons emigrate to the rich and fertile soil of the West, in the hope of attaining a future competency, but alas! ere long that hope becomes blasted, when they appear with impaired and enfeebled constitutions, resulting from attacks of that direful terror of the West, Fever and Ague, if such persons had resorted to the use of the above pills, the sunken pallid countenance would have been restored to its florid hue, the vital energy re-established, and the whole system purified & invigorated. They are now regarded as an inestimable public blessing, and indispensable to the health, comfort, and even the local prosperity of the inhabitants of many portions of our western country.

In all cases of Billious and Nervous fever, Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Pains in the Side, Limbs, Head, Stomach or Back, will invariably be removed by the use of the Pills.

On first feeling the premonitory symptoms occur, it is advisable at once to clear thoroughly the stomach and bowels. In no way can this be better and less inconveniently effected, than by taking a few doses of

Dr. Evans' Purifying Pills,

the value and well-authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the Bile, and render the system capable of receiving with benefit the Invigorating and Strengthening Pills.

Directions are as follows:—Take four or more of the Purifying Pills on the first accession of Fever, and continue the same number every other night, till with the additional use of the Invigorating Pills, a permanent cure is obtained.

Take three of the Invigorating Pills in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills. Sold at Dr. EVANS'S Medical Establishment, 100 chatham street, N. Y. And by his authorised Agents throughout the Union.
